

under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This amendment does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID and DHS Management Directive 5100.1, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(a), of the Instruction from further environmental documentation. Paragraph (34)(a) excludes regulatory actions that are editorial or procedural, such as those updating addresses. Under figure 2–1, paragraph (34)(a), of the Instruction, an Environmental Analysis Check List and a Categorical Exclusion Determination are not required for this technical amendment.

BILLING CODE 4910–15–P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket No. RM 2007–2]

Fees

AGENCY: Copyright Office, Library of Congress.

ACTION: Final rule; technical amendment.

SUMMARY: The Copyright Office is making a technical amendment in the regulations regarding fees for recordation of an interim or amended designation of agent to receive notification of claimed infringement under the Copyright Act.

EFFECTIVE DATE: February 8, 2007.

FOR FURTHER INFORMATION CONTACT:

Tanya M. Sandros, Acting General Counsel, P.O. Box 70977, Southwest Station, Washington, DC 20024-0977. Telephone: (202) 707-8380. Telefax: (202) 252-3423.

SUPPLEMENTARY INFORMATION: Sec. 512(c) of the Copyright Act, title 17 of the United States Code, provides limitations on service provider liability for storage, at the direction of a user, of copyrighted material residing on a system or network controlled or operated by or for the service provider. The liability limitations apply if, among other things, the service provider has designated an agent to receive notifications of claimed infringement by providing contact information to the Copyright Office and by posting such information on the service provider's publicly accessible website. In this connection, the Copyright Office maintains a directory of service providers' designated agents.

On June 1, 2006, in accordance with the applicable provisions of title 17, the Copyright Office published a final rule

adjusting the Copyright Office fees for recordation of an interim or amended designation of agent to receive notification of claimed infringement under sec. 512(c) of the Copyright Act. The June 1, 2006, final rule included the fee adjustment designation of \$80.00 for recordation of an interim designation of agent to receive notification of claimed infringement under sec. 512(c) of the Copyright Act in the new § 201.3(c) fee schedule. However, other technical amendments meant to bring all fees within § 201.3 did not address recordation of an interim or amended designation of agent to receive notification of claimed infringement under sec. 512(c) of the Copyright Act. In order to correct this oversight, we are amending § 201.38(e) and 201.38(f) to reference the established § 201.3(c) fee schedule for recordation of an interim designation of agent to receive notification of claimed infringement under sec. 512(c)(2).

Because this amendment is being issued simply for purposes of correcting an oversight associated with implementation of the new fee schedule, the Office finds that there is good cause to make the amendment effective immediately.
