[Docket Nos. 02-09, 02-43]

#### Edmund Chein, M.D.; Revocation of Practitioner's Registration, Denial of Application for Exporter's Registration

##### Introduction and Procedural History

This is a consolidated proceeding. On November 7, 2001, the then Administrator of the Drug Enforcement Administration, issued an Order to Show Cause and Notice of Immediate Suspension of the practitioner's Certificate of Registration, AC1643661, issued to Edmund Chein, M.D. (Respondent) of Palm Springs, California. The Notice of Immediate Suspension was based on the Administrator's preliminary conclusion that Respondent's continued registration constituted "an imminent danger to the public health and safety because of the substantial likelihood that [Respondent would] continue exporting and diverting controlled substances." Order to Show Cause and Notice of Immediate Suspension at 6 (2001 OSC). The Order further proposed to revoke Respondent's practitioner's registration and deny any pending applications for renewal of the registration on the ground that Respondent's continued registration would be inconsistent with the public interest. *See id.* at 1; *see also* 21 U.S.C. 823(f) & 824(a)(4).

Subsequently, on May 24, 2002, the Deputy Assistant Administrator, Office of Diversion Control, issued an additional Order to Show Cause (hereinafter 2002 OSC) to Respondent. This Show Cause Order proposed to deny Respondent's pending application for a registration as an exporter on the ground that issuance of a registration would be inconsistent with the public interest. 2002 OSC at 1; *see also* 21 U.S.C. 958(c) & (d); *id.* 823(d).

The 2001 OSC alleged that Respondent had purchased "large amounts of anabolic steroids" from a Mexican pharmacy and "other illegitimate sources" and had distributed these substances to individuals who did not have a legitimate medical need for them. 2001 OSC at 2. The OSC further alleged that on May 28, 1996, Federal agents

executed a search warrant at Respondent's medical office and seized several vials of steroids for which there were no records. *Id.* The OSC further alleged that in June 1996, DEA obtained from Henry Schein, Inc., copies of invoices which documented that Respondent had purchased controlled substances on nine different occasions between January 1995 and May 1996. *Id.* at 3. The OSC alleged that Respondent had failed to keep accurate records of the purchase, inventory, and dispensation of controlled substances. *Id.*

The 2001 OSC next alleged that on January 31, 2001, DEA Diversion Investigators (DIs) went to Respondent's Palm Springs medical office, the Palm Springs Life Extension Institute (hereinafter PSLEI), to conduct an administrative inspection. *Id.* The OSC alleged that the invoices documenting the purchases of controlled substances were at an accounting firm and not at the office. *Id.* The 2001 OSC further alleged that "none of [the] required controlled substance records were accessible," because the records were stored in a computer and none of the office personnel then present were capable of retrieving them. *Id.* The OSC thus alleged that Respondent had violated the Controlled Substance Act by failing "to maintain in a readily available condition" initial and biennial inventory records, purchase invoices, and dispensing records. *Id.*

The 2001 OSC further alleged that on February 5, 2001, DEA personnel returned to Respondent's office and obtained an inventory of controlled substances that was dated February 5, 2001, dispensing records for the period July 1, 2000, through February 1, 2001, and invoices for purchases of controlled substances from Barnes Wholesale, Inc., for the period January 1, 1999, through February 4, 2001. *Id.* The OSC also alleged that the dispensing records showed that between July 1, 2000, and February 5, 2001, Respondent dispensed anabolic steroids, a Schedule III controlled substance, and phentermine, a Schedule IV controlled substance, to persons in Korea, Belgium, Indonesia, Canada, Japan, Spain, Germany, Switzerland, Mexico, England, and Hong Kong. *Id.* at 3-4.

More specifically, the OSC alleged that Respondent had made 328 illegal exports comprised of 20 exports of phentermine 30 mg., 58 exports of phentermine 15 mg., 73 exports of testosterone gel 8 mg., 12 exports of testosterone gel 100 mg., 50 exports of testosterone estradiol gel 4 mg., 113 exports of Depo testosterone 200 mg., and two exports of testosterone 50 mg.
