Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments Are Invited On: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: The Coordinating Center to Support State Incentive Grants to Build Capacity for Alternatives to Restraint and Seclusion (OMB No. 0930-0271) Revision.

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services has funded a Data Collection and Analysis for the Alternatives to Restraint and Seclusion Grant Program. This contract is an evaluation of SAMHSA's State Incentive Grants to Build Capacity for Alternatives to Restraint and Seclusion. These grants are designed to promote the implementation and evaluation of best practice approaches to reducing the use of restraint and seclusion in mental health facilities. Grantees consist of 8 sites (state mental health agencies), all of which will be implementing

interventions in multiple facilities (a total of 21 facilities). These include facilities serving adults and those serving children and/or adolescents, with various subgroups such as forensic and sexual offender populations.

With input from multiple experts in the field of restraint and seclusion and alternatives to restraint and seclusion, the project created a common core of data collection instruments that will be used for this cross-site project. The facilities will complete three different instruments over a 3-year time period:

(1) Facility/Program Characteristics Inventory (information about type of facilities, characteristics of persons served, staffing patterns, and unit specific data); (2) Inventory of Seclusion and Restraint Reduction Interventions; (3) Seclusion and Restraint Event Data Matrix (data about restraint and seclusion rates within facilities and units). Data will be submitted by the sites electronically via a secured Web site.

The Facility/Program Characteristics Inventory and Inventory of Seclusion

and Restraint Reduction Intervention will be collected annually. The Seclusion and Restraint Event Data Matrix will be collected monthly.

The resulting data will help to identify the: (1) Number of programs adopting best practices involving alternative approaches to restraint and seclusion; and (2) program's impact of reducing restraint and seclusion use and adoption of alternative practices. The estimated maximal annual response burden to collect this information is as follows:

Instrument annual hours)	Number of respondents	Responses/ respondent	Burden/ response (hours)	Maximal burden
Facility/Program Characteristics Inventory	21	^a 1	2	42
Inventory of Seclusion and Restraint Reduction Interventions	21	^b 1	8	168
Seclusion and Restraint Event Data Matrix	21	^c 29	8	4,872
Total	21	5,082

^a The Facility/Program Characteristics Inventory will only be collected during for the first grant year (and not during grant years 2 and 3).

^b For the Inventory of Seclusion and Restraint Interventions, one response per respondent will be collected during grant years 1 and 2. However, two responses per respondent will be collected during grant year 3.

^c The Seclusion and Restraint Event Data Matrix will be collected during grant years 2 and 3. Twenty-nine responses per respondent will be collected for grant year 2. However, 18 responses per respondent will be collected during grant year 3.

Send comments to Summer King, SAMHSA Reports Clearance Officer, Room 7-1044, One Choke Cherry Road, Rockville, MD 20857 and e-mail her a copy at summer.king@samhsa.hhs.gov. Written comments should be received within 60 days of this notice.

Dated: March 12, 2008.

Acting Director, Office of Program Services.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2008-0002]

Notification of the Imposition of Conditions of Entry for Certain Vessel Arriving to the United States, Iran

AGENCY: Coast Guard, DHS.

ACTION: Notice.

SUMMARY: The Coast Guard announces that effective anti-terrorism measures are not in place in the ports of Iran and that it will impose conditions of entry on vessels arriving from that country.

DATES: The policy announced in this notice will become effective April 3, 2008.

ADDRESSES: This notice will be available for inspection and copying at the Docket Management Facility at the U.S.

Department of Transportation, Room W12-140 on the Ground Floor of the West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call Mr. Michael Brown, International Port Security Evaluation Division, Coast Guard, telephone 202-372-1081. If you have questions on viewing or submitting material to the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

Background and Purpose

Section 70110 of the Maritime Transportation Security Act provides that the Secretary of Homeland Security may impose conditions of entry on vessels requesting entry into the United States arriving from ports that are not maintaining effective anti-terrorism measures. The Coast Guard has been delegated the authority by the Secretary to carry out the provisions of this section. The Docket contains previous notices imposing or removing conditions of entry on vessels arriving from certain countries and those conditions of entry and the countries they pertain to remain in effect unless modified by this notice.

The Coast Guard has determined that ports in Iran are not maintaining effective anti-terrorism measures.

Inclusive to this determination is an assessment that Iran presents significant risk of introducing instruments of terror into international maritime commerce. Accordingly, effective April 3, 2008, the Coast Guard will impose the following conditions of entry on vessels that visited ports in Iran during their last five port calls. Vessels must:

- Implement measures per the ship's security plan equivalent to Security Level 2 while in a port in Iran;
- Ensure that each access point to the ship is guarded and that the guards have total visibility of the exterior (both landside and waterside) of the vessel while the vessel is in ports in Iran. Guards may be provided by the ship's crew, however additional crewmembers should be placed on the ship if necessary to ensure that limits on maximum hours of work are not exceeded and/or minimum hours of rest are met, or provided by outside security forces approved by the ship's master and Company Security Officer;
- Attempt to execute a Declaration of Security while in port in Iran;
- Log all security actions in the ship's log;
- Report actions taken to the cognizant U.S. Coast Guard Captain of the Port prior to arrival into U.S. waters; and
- Ensure that each access point to the ship is guarded by armed, private security guards and that they have total visibility of the exterior (both landside and waterside) of the vessel while in
