### Foreign-Trade Zones Board

#### Order No. 1554

#### Grant of Authority for Subzone Status, MPM Silicones, LLC (Silicone-Based Products and Intermediaries), Waterford, New York

Pursuant to its authority under the Foreign-Trade Zones Act, of June 18, 1934, as amended (19 U.S.C. 81a-81u), the

Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, the Foreign-Trade Zones Act provides for "...the establishment... of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," and authorizes the Foreign-Trade Zones Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

*Whereas*, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

*Whereas*, the Capital District Regional Planning Commission, grantee of Foreign-Trade Zone 121, has made application to the Board for authority to establish a special-purpose subzone at the silicone-based products and intermediaries manufacturing and warehousing facility of MPM Silicones, LLC located in Waterford, New York (FTZ Docket 4-2007, filed 2-2-07);

*Whereas*, notice inviting public comment was given in the **Federal Register** (72 FR 6518, 2/12/07; 72 FR 16764, 4-5-07; 72 FR 24272, 5-2-07; 72 FR 53989, 9-21-07) and a public hearing was held on 4-18-07; and,

*Whereas*, the Board adopts the findings and recommendations of the

examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations would be satisfied, and that approval of the application would be in the public interest if subject to the restrictions and limitations listed below;

*Now, therefore*, the Board hereby grants authority for subzone status for activity related to silicone-based products and intermediaries manufacturing at the facility of MPM Silicones, LLC, located in Waterford, New York (Subzone 121C), as described in the application and **Federal Register** notice, and subject to the FTZ Act and the Board's regulations, including Section 400.28, and subject to the following restrictions and limitations:

1. Silicon metal subject to an antidumping or countervailing duty order that is admitted into the subzone in foreign status must ultimately be re-exported (regardless of whether it has been manufactured into a downstream product).
2. Admission of foreign-status silicon metal subject to an antidumping or countervailing duty order is limited to 10,000 metric tons per year.
3. Approval is for an initial period of five-years, subject to extension upon review.

Signed at Washington, DC, this 28th day of March 2008.

**David M. Spooner,**

*Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.*

#### **Ferrovanadium from the People(s) Republic of China and the Republic of South Africa: Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On December 3, 2007, the Department of Commerce ("Department") initiated sunset reviews of the antidumping duty orders on ferrovanadium from the People(s) Republic of China ("PRC") and the Republic of South Africa ("South Africa"), pursuant to section 751(c) of the Tariff Act of 1930, as amended ("Act"). See *Initiation of Five-year ("Sunset") Reviews*, 72 FR 67890 (December 3, 2007) ("Sunset Initiations"); see also *Notice of Amended Final Antidumping Duty Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Ferrovanadium From the People(s) Republic of China*, 68 FR 4168 (January 28, 2003) ("PRC Order"); *Notice of Antidumping Duty Order: Ferrovanadium from the Republic of South Africa*, 68 FR 4169 (January 28, 2003) ("South Africa Order"). Based on the notices of intent to participate and adequate responses filed by the domestic interested parties, and the lack of response from any respondent interested party, the Department conducted expedited sunset reviews of the PRC Order and South Africa Order pursuant to section 751(c)(3)(B) of the Act and 19 C.F.R. 351.218(e)(1)(ii)(C)(2). As a result of these sunset reviews, the Department finds that revocation of either the PRC Order or the South Africa Order would likely lead to continuation or recurrence of dumping, at the levels indicated in the "Final Results of Sunset Reviews" section of this notice, *infra*.

**EFFECTIVE DATE:** April 9, 2008.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On December 3, 2007, the Department initiated sunset reviews of the PRC Order and South Africa Order on ferrovanadium pursuant to section 751(c) of the Act. See *Sunset Initiations*. On December 18, 2007, the Department received timely notices of intent to participate in both sunset reviews (as joint submissions) from the Vanadium Producers and Reclaimers Association ("VPRA"), and its members Gulf Chemical & Metallurgical Corporation ("Gulf"), Gulf(s) wholly owned subsidiary Bear Metallurgical Company ("Bear Metallurgical"), Metallurg Vanadium Corporation ("MVC"), and Strategic Minerals Corporation (on behalf of its wholly owned subsidiary, Stratcor, Inc.) ("Stratcor") (collectively "Domestic Producers"), pursuant to 19 C.F.R. 351.218(d)(1)(i). In accordance with 19 C.F.R. 351.218(d)(1)(ii)(A), VPRA claimed interested party status under section 771(9)(E) of the Act as a trade or business association, a majority of whose members produce or wholesale a domestic like product in the United States. Gulf, Bear Metallurgical, MVC, and Stratcor claimed interested party status under section 771(9)(C) of the Act as domestic producers and/or wholesalers of subject merchandise.

On January 2, 2008, Domestic Producers jointly filed substantive responses in both sunset reviews, within the 30-day deadline as specified in 19 C.F.R. 351.218(d)(3)(i). The Department did not receive a substantive response from any respondent interested party in either sunset review. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 C.F.R. 351.218(e)(1)(ii)(C)(2), the Department conducted expedited sunset reviews of the PRC Order and the South Africa Order.

##### **SCOPE OF THE ORDERS**

The scope of the orders covers all ferrovanadium regardless of grade, chemistry, form, shape, or size. Ferrovanadium is an alloy of iron and vanadium that is used chiefly as an additive in the manufacture of steel. The merchandise is commercially and scientifically identified as vanadium. The scope specifically excludes vanadium additives other than ferrovanadium, such as nitrided

vanadium, vanadium-aluminum master alloys, vanadium chemicals, vanadium oxides, vanadium waste and scrap, and vanadium-bearing raw materials such as slag, boiler residues and fly ash. Merchandise under the Harmonized Tariff Schedule of the United States ("HTSUS") item numbers 2850.00.2000, 8112.40.3000, and 8112.40.6000 are specifically excluded. Ferrovanadium is classified under HTSUS item number 7202.92.00. Although the HTSUS item number is provided for convenience and customs purposes, the Department(s) written description of the scope of these orders remains dispositive.

##### **ANALYSIS OF COMMENTS RECEIVED**

A complete discussion of all issues raised in these sunset reviews is addressed in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice. See "Issues and Decision Memorandum for the Final Results in the Expedited Sunset Reviews of the Antidumping Duty Orders on Ferrovanadium from the People(s) Republic of China and from the Republic of South Africa," from Stephen J. Claeys, Deputy Assistant Secretary, to David M. Spooner, Assistant Secretary for Import Administration, dated April 1, 2008 ("I&D Memo"). The issues discussed in the accompanying I&D Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the dumping margin likely to prevail if either the PRC Order or the South Africa Order were revoked. Parties can obtain a public copy of the I&D Memo on file in the Central Records Unit, room 1117, of the main Commerce building. In addition, a complete public version of the I&D Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>. The paper copy and electronic version of the I&D Memo are identical in content.

##### **FINAL RESULTS OF SUNSET REVIEWS**

The Department determines that revocation of the PRC Order on ferrovanadium would likely lead to continuation or recurrence of dumping at the rates listed below:

Manufacturers/Exporters/Producers	Weighted-Average Margin (Percent)
Pangang Group International Economic & Trading Corporation ..	12.97%
PRC-Wide Entity .....	66.71%

The Department determines that revocation of the South Africa Order on ferrovanadium would likely lead to
