SUPPLEMENTARY INFORMATION: On May 22, 2007, in a memorandum for the heads of Executive Departments and Agencies entitled "Safeguarding Against and Responding to the Breach of Personally Identifiable Information," the Office of Management and Budget directed agencies to develop and publish a routine use for disclosure of information in connection with response and remedial efforts in the event of a data breach. This routine use will serve to protect the interest of the individuals whose information is at issue by allowing agencies to take appropriate steps to facilitate a timely and effective response to the breach, thereby improving its ability to prevent, minimize or remedy any harm resulting from a compromise of data maintained in its systems of records. Accordingly, the Bureau of Reclamation, Department of the Interior, is proposing to add a new routine use to authorize disclosure to appropriate agencies, entities, and persons, of information maintained in the following systems in the event of a data breach.

These amendments will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. Reclamation will publish a revised notice if changes are made based upon a review of comments received.
