SUPPLEMENTARY INFORMATION: The Secretary of Agriculture is authorized by the Agricultural Marketing Act of 1946 (AMA), as amended (7 U.S.C. 1621 et seq.), to provide voluntary Federal dairy grading and inspection services to facilitate the orderly marketing of dairy products and to enable consumers to obtain the quality of dairy products they desire. One means of facilitating international marketing of domestically produced dairy products is through the issuance of export certificates. Many importing countries require shipment specific certificates attesting to the acceptability of products and/or the manufacturing operations that produce these products. Some countries accept generic export certificates issued by the Dairy Grading Branch. Other countries have accepted certificates issued by the Dairy Grading Branch that include country specific information. The Dairy Grading Branch coordinates the content of these certificates with other Department of Agriculture (USDA) and Federal agencies when the statements made in these certificates are based on responsibilities of those agencies.

The manufacturing operations that produce products eligible for export certification include those operations participating in the USDA approved plant program administered by the Dairy Grading Branch (7 CFR part 58) and operations identified by the Food and Drug Administration. The AMA provides for the collection of reasonable fees from users of the services provided by the Dairy Grading Branch. Manufacturers and exporters requesting certificates are charged fees commensurate with costs associated with this service.

In order to prepare an export certificate, it is necessary that the manufacturer or exporter provide shipment specific information. This is accomplished by completing a worksheet developed by the Dairy Grading Branch then mailing or faxing this completed worksheet to the Washington, DC office. In some instances a Certificate of Conformance prepared by the manufacturer or exporter must also be completed and provided to the office before an export certificate can be prepared.

The information collection requirements in this request are needed

in order for the Dairy Grading Branch to issue export certificates. The Export Certification Program supports the USDA, AMS mission of facilitating the marketing of U.S. agricultural products.

Title: Applications for Export Certification.
