OFFICE OF PERSONNEL MANAGEMENT

5 CFR PART 630

RIN 3206-AE95

Absence and Leave; Sick Leave; Correction

AGENCY: U.S. Office of Personnel Management.

ACTION: Correcting amendment.

SUMMARY: The U.S. Office of Personnel Management is correcting references to a non-existent section number in the recredit of sick leave regulations issued on December 2, 1994 (59 FR 62271).

DATES: Effective March 10, 2009.

FOR FURTHER INFORMATION CONTACT: Doris Rippey by telephone at (202) 606-2858; by fax at (202) 606-0824; or by e-mail at pay-performance-policy@opm.gov.

SUPPLEMENTARY INFORMATION: On December 2, 1994, the U.S. Office of Personnel Management issued final regulations concerning the recredit of sick leave (59 FR 62271). As a part of those regulations, § 630.502(b) and (c) made reference to § 630.407. On August 17, 2006, subpart D of this part was revised and § 630.407 was renumbered as § 630.405, with no change to the text (71 FR 48696). That document failed to amend § 630.502(b) and (c), which continue to reference the non-existent § 630.407. Consequently, we are publishing this correction notice to amend § 630.502(b) and (c) to replace the non-existent § 630.407 with § 630.405.

Emergency Leave Transfer Program

AGENCY: U.S. Office of Personnel Management.

ACTION: Correcting amendment.

SUMMARY: The U.S. Office of Personnel Management (OPM) issued final regulations on November 4, 2008 on the Emergency Leave Transfer Program (73 FR 65496). This notice corrects an omission in the final regulations that would permit an agency's leave bank to donate annual leave to an emergency leave transfer program administered by another agency during a Governmentwide transfer of emergency leave coordinated by OPM. This language was dropped inadvertently in the final rule when this section was rewritten slightly.

DATES: Effective March 10, 2009.

FOR FURTHER INFORMATION CONTACT: Doris Rippey by telephone at (202) 606-2858; by fax at (202) 606-0824; or by e-mail at pay-performance-policy@opm.gov.

SUPPLEMENTARY INFORMATION: On November 4, 2008, the U.S. Office of Personnel Management (OPM) issued final regulations on the Emergency Leave Transfer Program (73 FR 65496). In the final rule, we changed the language of § 630.1104 of title 5, Code of Federal Regulations, slightly from the language of that section in the proposed regulations. In doing so, we deleted inadvertently language that would allow an agency's leave bank to donate annual leave to an emergency leave transfer program administered by another agency during a Governmentwide transfer of emergency leave coordinated by OPM. Consequently, we are publishing this correction notice to reinsert this language.

Airworthiness Directives; PILATUS AIRCRAFT LTD. Models PC–12, PC–12/45, PC–12/47, and PC–12/47E Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: We are adopting a new airworthiness directive (AD) for the products listed above that will supersede an existing AD. This AD results from mandatory continuing airworthiness information (MCAI) issued by the aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

Some operators have reported occurrences where the rear stick-pusher cable clamp shifted forward on the elevator cable. This condition, if not corrected, may reduce the effectiveness of the stick-pusher and/or limit elevator control movement.

Ambiguous information in the adjustment procedure for the stick-pusher cable tension and stick-pusher cable tension relaxation with time were identified as contributing factors.

This AD requires actions that are intended to address the unsafe condition described in the MCAI.

DATES: This AD becomes effective March 30, 2009.

On March 30, 2009, the Director of the Federal Register approved the incorporation by reference of certain publications listed in this AD.

We must receive comments on this AD by April 9, 2009.

SUPPLEMENTARY INFORMATION:**Discussion**

On March 5, 2008, we issued AD 2008–06–17, Amendment 39–15429 (73 FR 13438; March 13, 2008). That AD required actions intended to address an unsafe condition on the products listed above.

Since we issued AD 2008–06–17, the new MCAI adds affected serial numbers, adds the Model PC–12/47E, and references new service information that supersedes old service information referenced in AD 2008–06–17. The inspection and corrective action in AD 2008–06–17 did not fully address the unsafe condition. The new service bulletin calls out an improved inspection and corrective action procedures to address the unsafe condition.

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Community, has issued EASA AD No.: 2009–0040, dated February 20, 2009 (referred to after this as “the MCAI”), to correct an unsafe condition for the specified products. The MCAI states:

Some operators have reported occurrences where the rear stick-pusher cable clamp shifted forward on the elevator cable. This condition, if not corrected, may reduce the effectiveness of the stick-pusher and/or limit elevator control movement.

Ambiguous information in the adjustment procedure for the stick-pusher cable tension and stick-pusher cable tension relaxation with time were identified as contributing factors.

For the reason described above, this Airworthiness Directive (AD) requires an inspection of the stick-pusher servo-cables installation and adjustment of the stick-pusher cable tension, as necessary.

You may obtain further information by examining the MCAI in the AD docket.
