

Utah. The project is known as the Garkane Energy Cooperative Tropic to Hatch 138kV Transmission Line and is proposed to cross over USFS, Park Service and/or BLM lands. A plan amendment for BLM's MMP is needed to analyze the proposal which occurs outside of the current utility right-of-way identified in the MMP (February, 2000). The proposal occurs in an area identified as a Primitive Management Zone and Visual Resource Management (VRM) Class II zone as described in the MMP. The construction of transmission lines is not provided for in this zone (Decisions #LAND-7 and VRM-1). In summary, these decisions state: (1) "In the primitive zone, utility rights-of-way will not be permitted. In cases of extreme need for local (not regional) needs and where other alternatives are not available, a plan amendment could be considered for those facilities." and (2) "Utilizing the results of the visual resource inventory and other resource allocation considerations, 68 percent lands within the Monument will be assigned to VRM Class II and 32 percent of the lands within the Monument will be assigned to VRM Class III, as shown on Map 6." However, the construction of new utility rights-of-way is provided for in the MMP (Decision #LAND-5 and VRM-1). The proposed plan amendment would change the Management Zone from Primitive to Passage and VRM Class II to III. This amendment would consider a right-of-way corridor within the Passage Zone to accommodate an existing utility right-of-way, the proposed utility right-of-way, and the possibility of additional rights-of-way in the future. Therefore, this corridor would be considered in the amendment to change the Primitive Zone to a Passage Zone and the VRM Class II to a VRM Class III.

The Bureau of Land Management planning regulations (43 CFR 1600) require the preparation of planning criteria to guide the development of resource management plan amendments. Planning criteria ensure that plans are tailored to the identified issues and ensure that unnecessary data collections and analysis are avoided. These general planning criteria will be used to develop the MMP amendment for the Tropic to Hatch Transmission Line Project. The planning criteria primarily remain the same as were presented in the February 21, 2008 **Federal Register** notice, with a slight change to the first bulleted criteria. This criterion has been broadened to include a right-of-way corridor, instead of only one right-of-way project. The planning criteria are as follows:

- The plan amendment will consider a right-of-way utility corridor currently within a primitive zone adjacent to an existing utility right-of-way.

- The plan amendment will be completed in compliance with the Federal Land Policy and Management Act and all other applicable laws.

- The plan amendment will meet the intent of the Proclamation that established Grand Staircase-Escalante National Monument which protects objects of geological, paleontological, archaeological, biological, and historic values within the Monument.

The lead Federal agency identified for the proposed project is the Department of Agriculture, Dixie National Forest. The Bureau of Land Management (Kanab Field Office and Grand Staircase-Escalante National Monument) and the National Park Service are cooperating agencies. For more information regarding the proposed project, refer to the Notice of Intent to Prepare an Environmental Impact Statement, published in the **Federal Register** on February 21, 2008 (Volume 73, Number 35, page 9517–9521).

Dated: March 12, 2009.

Forest Supervisor, Dixie National Forest.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C 47(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice for each product or service will be required to procure the services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the services to the Government.

2. If approved, the action will result in authorizing small entities to furnish the services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the services proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.
