

Designated Federal Officer is provided in this notice or can be obtained from the GSA's FACA Database: <https://www.fido.gov/facadatabase/public.asp>.

The Designated Federal Officer, pursuant to 41 CFR 102-3.150, will announce planned meetings of the Defense Task Force on Sexual Assault in the Military Services. The Designated Federal Officer, at that time, may provide additional guidance on the submission of written statements and/or live testimony that are in response to the stated agenda for the planned meeting in question.

Dated: March 27, 2009.

Patricia Toppings,

*OSD Federal Register Liaison Officer,
Department of Defense.*

Department of the Air Force

[Docket ID: USAF-2009-0022]

Proposed Collection; Comment Request

AGENCY: Headquarters Air Force Recruiting Service.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Air Force Recruiting Service announces the proposed extension of a public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms or information technology.

DATES: Consideration will be given to all comments received June 1, 2009.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Mail: Federal Docket Management System Office, 1160 Defense Pentagon, Washington, DC 20301-1160.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Headquarters Air Force Recruiting Service, AFRS/RSIS, 550 D Street West Suite 1, Randolph AFB, TX 78150-4526, or call Headquarters Air Force Recruiting Service Information System Division Systems Support Branch at 210-565-0447.

Title and OMB Number: Air Force Recruiting Information Support System (AFRISS); OMB control number 0701-0150.

Needs and Uses: Air Force Recruiting Service requires the collection of specific information on prospective Air Force enlistees (prospective Air Force enlistees include Active, Guard, and Reserve) entering the Air Force. The information is used to create the initial personnel record, prescreen and qualify enlistees fit for service and ultimately induction. The information is also collected to process security clearances and to record metrics to be used for demographics/market research and system performance.

Affected Public: Individuals 16 years and older interested in pursuing a career in the Air Force be it Active, Guard, and Reserve in the U.S. and abroad.

Annual Burden Hours: 1,386,413 hours.

Number of Respondents: 1,300,000.

Responses per Respondent: 1.

Average Burden per Response: Approximately 64 minutes.

Frequency: As needed. Contact is based on prospective interest in becoming an Air Force member.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

To furnish Active, Guard, and Reserve field recruiters an automated tool to create prospective Air Force enlistee application files for all recruiting accessions in officer, enlisted, and health professions. AFRIS provides comprehensive integration, interface, and standardization of all programs that manage personnel resources in support

of Air Force recruiting. The system extends automated capabilities out to the individual recruiter, flight, squadron, and groups. It provides an automated interface to the Military Entrance Processing Center Station (MEPS) where applicants undergo physical, testing, verification interviews, and tentative job reservation. It will provide an automated interface to the Modernized Military Personnel System (MilMod) where only pertinent and required applicant information is placed in a permanent military system of record. It also provides reporting capabilities at all levels of Air Force Recruiting management to make informed decisions on recruiting business rules and practices to increase the number of accessions.

March 27, 2009.

Department of the Air Force

[Docket ID: USAF-2008-0021]

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Consideration will be given to all comments received by May 4, 2009.

Title, Form, And Omb Number: Community College of the Air Force Alumni Survey, OMB Control Number 0701-0136.

Type of Request: Extension.

Number of Respondents: 500.

Responses per Respondent: 1.

Annual Responses: 500.

Average Burden Per Response: 20 minutes.

Annual Burden Hours: 167.

Needs and Uses: The information collection requirement is necessary to determine how effectively the institution is meeting its mission and also identify areas needing improvement. Survey results will provide data on the usefulness and acceptance of the Community College of the Air Force degree in the civilian sector. Documenting the institution's

effectiveness is also required to maintain the Community College of the Air Force's regional accreditation.

Frequency: Biennial.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments. *Instructions:* All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DoD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings at WHS/ESD/Information Management Division, 1777 North Kent Street, RPN, Suite 11000, Arlington, VA 22209-2133.

Dated: March 27, 2009.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Notice of Availability of the Final Supplemental Environmental Impact Statement for the Nourishment of 25,000 Feet of Beach in Topsail Beach, Pender County, NC

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE), Wilmington District, Wilmington Regulatory Field Office has received a request for Department of the Army authorization, pursuant to Section 404 of the Clean

Water Act and Section 10 of the Rivers and Harbors Act, from the Town of Topsail Beach to conduct a one-time interim beach fill project to protect oceanfront development and infrastructure until such time that a Federally authorized shore protection project can be implemented. The Corps has prepared a Final Supplemental Environmental Impact Statement (FSEIS) in accordance with the National Environmental Policy Act (NEPA). This FSEIS was developed as a supplement to the West Onslow Beach and New River Inlet (Topsail Beach), NC, General Reevaluation Report (GRR) and Environmental Impact Statement (EIS) (USACE, 2008) prepared by the Wilmington District Corps of Engineers (USACE or the Corps) to evaluate resources and environmental considerations involved with the proposed Federal Beach nourishment project. The purpose of this supplement is to fully evaluate the potential impacts of the private action proposed as an addition to the Federal Project and to evaluate alternatives to the proposed action. The private action is proposed to respond to current, substantial erosion occurring along the oceanfront shoreline of the Town of Topsail Beach, NC. While Federal budget priorities have made it difficult to obtain funds for civil works projects in general and beach protection projects in particular, the projected earliest construction date for the Federal project is 2012. State and agency review and comment on Final GRR and EIS were completed in summer 2008. The Recommended Plan outlined in the Final GRR and EIS includes use of all the identified borrow sites over the next 50 years pending further investigations during the development of detailed plans and specifications. Given the current status of the GRR-EIS and the need for Congressional authorization, funding, preparation of plans and specifications, and right-of-way acquisition, the Federal project may not be implemented until Fiscal Year 2012, or possibly later. Accordingly, the Town of Topsail Beach would like to construct an interim beach fill project to protect its development and infrastructure during the period between now and the time the Federal project is constructed. In order to account for any possible delays in the construction of the Federal project, a construction date of 2016 was used in the development of the alternatives and economic analysis for the interim project. This would maintain the baseline conditions described in the Final GRR and FSEIS.

ADDRESSES: Copies of comments and questions regarding the FSEIS may be addressed to: U.S. Army Corps of Engineers, Wilmington District, Regulatory Division. ATTN: File Number SAW-2006-40848-071, Post Office Box 1890, Wilmington, NC 28402-1890.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and FSEIS can be directed to Mr. Dave Timpy, Wilmington Regulatory Field Office, telephone: (910) 251-4634.

SUPPLEMENTARY INFORMATION: 1. Project Description. The proposed project would be constructed as a one-time nourishment event that would protect oceanfront homes and the Town's infrastructures until the Federal project (West Onslow Beach and New River Inlet [Topsail Beach]) is constructed. The Applicant's Preferred Alternative is to place fill material within the oceanfront section of the Town located between Godwin Avenue on the south to a point 610 m (2,000 ft) northeast of Topsail Beach/Surf City town limits, southeast along a total ocean shoreline length of approximately 7.6 km (~ 4.7 mi). The proposed fill design consists of three sections: A 305 m (1,000 ft) transition on the south starting at a point opposite Godwin Avenue; a 6,700 m (22,000 ft) main fill section that extends to the Topsail Beach/Surf City town limits; and a 610 m (2,000 ft) northern transitional taper to the point of intersection with the existing beach. The main fill would consist of a horizontal berm constructed to an elevation of +1.8 m (6 ft) NAVD (+2.1m [7 ft] NGVD). The in-place volume of the beach fill could range from 800,000 cy to 975,000 cy. The applicant's preferred borrow area, Borrow Area X, is located offshore of New Topsail Inlet, an area which is not available for the construction of the Federal project due to its location within an area designated by the Coastal Barrier Resources Act (CBRA), more commonly known as a CBRA zone. Borrow Area X is also located landward of the 3-mile State territorial limit and would not require permits from the U.S. Minerals Management Service (MMS).

The proposed construction for the one-time beach fill is scheduled to occur within the environmental dredging window of November 16, 2009 through March 31, 2010.

Borrow Area X has been modified throughout the Project Delivery Team (PDT) process in an effort to avoid and minimize potential impacts to Essential Fish Habitat (EFH) (Figure 1). The original footprint of Borrow Area X including all five cuts was 151 acres. In
