

items). Records of the Office of Operations, including such records as administrative files, continuity of operations plans, legislative files, working papers, status and progress reports, training materials, and traffic control subject files. Proposed for permanent retention are such records as traffic control devices rulemaking files, rulemaking records relating to work zone safety, and size and weight reports and publications.

22. Barry M. Goldwater Scholarship and Excellence in Education Foundation, Agency-wide (N1-508-09-1, 1 item, 1 temporary item). Case files on students who are awarded scholarships, including such records as applications, nominations, and payment requests.

23. Environmental Protection Agency, Headquarters (N1-412-09-3, 1 item, 1 temporary item). Master files of an electronic information system that enables Federal and non-Federal regulatory agencies to order audit samples for compliance testing and report the results.

24. Environmental Protection Agency, Headquarters (N1-412-09-4, 2 items, 2 temporary items). Master files of an electronic information system that supports the registration of fuel and fuel additives and includes compliance data related to fuels and additives.

25. Environmental Protection Agency, Office of International Affairs (N1-412-07-66, 30 items, 17 temporary items). This schedule authorizes the agency to apply the existing disposition instruction to records regardless of recordkeeping medium. Records consisting primarily of administrative files or containing duplicative data from the State Department. The records cover such topics as the United Nations Environmental Program, special foreign currency, bilateral programs, reimbursable technical assistance, U.S. and Russia environmental agreement, laws of the sea and deep seabed mining, ocean dumping, oil pollution, Organization for Economic Cooperation and Development, World Health Organization, U.S. and Canadian relations, U.S. and Mexican relations, and international travel. Paper recordkeeping copies of these files were previously approved for disposal. Proposed for permanent retention are agreements, other formally issued documents, position papers, reports, pilot studies, and other significant documents relating to such matters as the U.S. and Russia environmental agreement, laws of the sea and deep seabed mining, oil pollution, NATO Committee on the Challenges of Modern Society, U.S. and Canadian relations,

and the U.S. and Mexican relations, for which paper recordkeeping copies previously were approved as permanent.

26. Equal Employment Opportunity Commission, Agency-wide (N1-403-08-2, 9 items, 3 temporary items). Copies of correspondence received by the Chairman and forwarded to other offices for reply, chronological files, and routine appeals case files of the Office of Federal Operations. Proposed for permanent retention are such records as agendas, transcripts, and recordings of Commission meetings, Commission decision files, and significant appeals case files.

27. Federal Open Market Committee, Secretariat (N1-82-09-1, 8 items, 4 temporary items). Ad hoc trial-run records created when the Federal Open Market Committee experiments with economic projection processes. Included are individual submissions and related summaries and compilations. Records relating to projections that are adopted and used are proposed for permanent retention.

28. National Archives and Records Administration, Office of Records Services—Washington, D.C. (N1-64-09-1, 1 item, 1 temporary item). Records relating to agency activities to assist other Federal agencies and non-Federal governmental entities in protecting and preserving records in the event of emergencies and natural disasters.

29. National Archives and Records Administration, Office of the Archivist (N1-64-09-2, 1 item, 1 temporary item). Petitions sent to the Archivist of the United States requesting expedited release of certain Hillary Clinton White House documents. A sample of 36 petitions will be retained permanently in accordance with a previously approved schedule.

30. Pension Benefit Guaranty Corporation, Agency-wide (N1-465-09-1, 17 items, 15 temporary items). Records relating to such matters as budget and finance, communications, legal affairs, public and congressional relations, administrative issuances and policies, regulations, security, and personnel management. Proposed for permanent retention are historical administrative records, which include such files as significant legal opinions, regulations, and litigation cases, and historical policy records, which include such files as reports to the President and Congress, research files, directives and operating manuals, investment policy files, and organizational records.

Dated: April 10, 2009.

Michael J. Kurtz,

Assistant Archivist for Records Services—Washington, DC.

NATIONAL SCIENCE FOUNDATION

Proposal Review Panel for Physics; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

Name: Construction of the LIGO Exploration Center at Hanford, Proposal Review Panel for Physics, #1208.

Date and Time: Thursday, April 30, 2009; 8:30 a.m.–5 p.m. Friday, May 1, 2009; 8 a.m.–11 a.m.

Place: LIGO site at Hanford, Washington.

Type of Meeting: Partially Closed.

Contact Person: Beverly Berger, Program Director, Division of Physics, National Science Foundation, (703) 292-7372.

Purpose of Meeting: To provide an evaluation concerning the proposal submitted to the National Science Foundation.

Agenda

Thursday, April 30, 2009

8:30 a.m.–9 a.m. Closed—Executive Session.

9 a.m.–2 p.m. Open—Overview by LIGO-Hanford staff, Overview and Discussions of the Proposed Building, Presentations from Outreach Partners.

2–5 p.m. Closed—Executive session, Discussions with LIGO staff.

Friday, May 1, 2009

8:30 a.m.–11:30 a.m. Closed—Executive Session, Session with LIGO-Hanford staff.

Reason for Closing: The proposal contains proprietary or confidential material, including technical information on personnel. These matters are exempt under 5 U.S.C. 552b(c)(2)(4) and (6) of the Government in the Sunshine Act.

Dated: April 14, 2009.

Susanne Bolton,

Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Education and Human Resources; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Education and Human Resources (#1119).

Date/Time: May 6, 2009; 8:30 a.m. to 5 p.m.; May 7, 2009; 8:30 a.m. to 1:30 p.m.

Place: National Science Foundation Headquarters, Stafford Place I—Room 1235 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Open.

Contact Person: James Colby, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, (703) 292-5331, jcolby@nsf.gov.

If you are attending the meeting and need access to the NSF, please contact the individual listed above so your name may be added to the building access list.

Purpose of Meeting: To provide advice with respect to the Foundation's science, technology, engineering, and mathematics (STEM) education and human resources programming.

Agenda:

May 6, 2009

- I. Acting Assistant Director's Remarks
- II. Discussion of EHR Investment Themes:
 - Broadening Participation to Improve Workforce Development
 - Promoting Learning Through Research and Evaluation
 - Enriching the Education of STEM Teachers
 - Advancing Career Development Opportunities
- III. Visit From the Office of the NSF Director
- IV. Review and Acceptance of Committee of Visitors Report
 - Robert Noyce Teacher Scholarships Program

May 7, 2009

- V. Discussion of Strategic Partnerships
- VI. Subcommittee Meetings
- VII. Future Issues for Consideration

Dated: April 15, 2009.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0171]

Final Regulatory Guide: Issuance, Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance and Availability of Regulatory Guide 1.211 and Withdrawal of Regulatory Guide 1.131.

FOR FURTHER INFORMATION CONTACT:

Mark Orr, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington,

DC 20555-0001, telephone (301) 251-7495 or e-mail to Mark.Orr@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing a new regulatory guide and withdrawing an outdated regulatory guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Regulatory Guide 1.131, "Qualification Tests of Electric Cables, Field Splices, and Connections for Light-Water-Cooled Nuclear Power Plants," was issued for comment in August 1977 and never finalized. Regulatory Guide 1.131 is being withdrawn because its guidance has been replaced by the guidance in Regulatory Guide 1.211.

Regulatory Guide 1.211, "Qualification of Safety-Related Cables and Field Splices for Nuclear Power Plants," was issued with a temporary identification as Draft Regulatory Guide 1132. This guide describes a method that the staff of the NRC considers acceptable for use in complying with the Commission's regulations for the qualification of safety-related cables and field splices for nuclear power plants.

The regulations established by the NRC in Title 10, Part 50, "Domestic Licensing of Production and Utilization Facilities," of the Code of Federal Regulations (10 CFR Part 50) require that structures, systems, and components that are important to safety in a nuclear power plant must be designed to accommodate the effects of environmental conditions (i.e., remain functional under postulated design-basis events (DBEs)). Toward that end, General Design Criterion (GDC) 1, "Quality Standards and Records," GDC 2, "Design Bases for Protection Against Natural Phenomena," GDC 4, "Environmental and Dynamic Effects Design Bases," and GDC 23, "Protection System Failure Modes," of Appendix A, "General Design Criteria for Nuclear Power Plants," to 10 CFR Part 50 contain the general requirements. Augmenting those general requirements, the specific requirements pertaining to the qualification of certain electrical equipment important to safety appear in 10 CFR 50.49, "Environmental Qualification of Electric Equipment

Important to Safety for Nuclear Power Plants." In addition, Criterion III, "Design Control," of Appendix B, "Quality Assurance Criteria for Nuclear Power Plants," to 10 CFR Part 50 requires that, where a test program is used to verify the adequacy of a specific design feature, the test program must include suitable qualification testing of a prototype unit under the most severe DBE.

II. Further Information

In June 2007, DG-1132 was published with a public comment period of 60 days from the issuance of the guide. The public comment period closed on September 14, 2007. The staff's responses to the public comments are located in the NRC's Agencywide Documents Access and Management System (ADAMS), Accession Number ML081690227. Electronic copies of Regulatory Guide 1.211 are available through the NRC's public Web site under "Regulatory Guides" at <http://www.nrc.gov/reading-rm/doc-collections/>.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR), which is located at Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852-2738. The PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4209, by fax at (301) 415-3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, this 13th day of April 2009.

For the Nuclear Regulatory Commission.

Andrea D. Valentin,

Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.
