Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: ORR Financial Status Report for the Cash and Medical Assistance Program.

OMB No.: New Collection.

Description: The Office of Refugee Resettlement (ORR) reimburses, to the extent of available appropriations, certain non-Federal costs for the provision of cash and medical assistance to refugees, along with allowable expenses for the administration the refugee resettlement program at the State level. States (and Wilson/Fish projects; *i.e.*, alternative projects for the administration of the refugee resettlement program) currently submit SF-269 Financial Status data in accordance with 45 CFR part 92 and 45 CFR part 74. This proposed new data collection would replace the current requirement for the SF-269 with a

financial status report form that would collect similar financial status data (*i.e.*, amounts of outlays and obligations) by the four program components: refugee cash assistance, refugee medical assistance, cash and medical assistance administration, and services for unaccompanied refugee minors. This breakdown of financial status data would allow ORR to track program expenditures in greater detail to anticipate any funding issues and to meet the requirements of ORR regulations at CFR 400.211 to collect these data for use in estimating future costs of the refugee resettlement program. ORR must implement the methodology at CFR 400.211 each year after receipt of its annual appropriation to ensure that appropriated funds will be adequate for assistance to entering refugees. The estimating methodology prescribed in the regulations requires the use of actual past costs by program component. In the event that the methodology indicates that appropriated funds are inadequate, ORR must take steps to reduce federal expenses, such as by limiting the number of months of eligibility for Refugee Cash Assistance and Refugee Medical Assistance. This proposed single-page financial status report will allow ORR to collect the necessary data to ensure that funds are adequate for the projected need and thereby meet the requirements of both the Refugee Act and ORR regulations.

Respondents: State governments.
