SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) and the DOE Organization Act (42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves,

production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Also, the EIA will later seek approval for this collection by the Office of Management and Budget (OMB) under Section 3507(a) of the Paperwork Reduction Act of 1995.

EIA's petroleum marketing survey forms collect volumetric and price information needed for determining the supply of and demand for crude oil and refined petroleum products. These surveys provide a basic set of data pertaining to the structure, efficiency, and behavior of petroleum markets. These data are published by the EIA on its Web site, <http://www.eia.doe.gov>, as well as in publications such as the *Monthly Energy Review*, *Annual Energy Review*, *Petroleum Marketing Monthly*, *Petroleum Marketing Annual*, *Week Petroleum Status Report*, and the *International Energy Outlook*. EIA also maintains a 24-hour telephone hotline number, (202) 586-6966, for the public to obtain retail price estimates for on-highway diesel fuel and motor gasoline.

Please refer to the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the "For Further Information Contact" section.

II. Current Actions

EIA will be requesting a three-year extension of approval to continue collecting nine petroleum marketing surveys (Forms EIA-14, 182, 782A, 782B, 782C, 821, 856, 863, 877, 878, and 888) with no substantive changes to the survey forms or instructions.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments. Please indicate to which form(s) your comments apply.

As a Potential Respondent to the Request for Information:

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility?

B. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information to be collected?

C. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

D. Can the information be submitted by the respondent by the due date?

E. Public reporting burden for each of the forms in the collection (burden hours per response) are as follows: EIA-14, "Refiners' Monthly Cost Report (1.75);"

EIA-182, "Domestic Crude Oil First Purchase Report—Monthly (4.3);"

EIA-782A, "Refiners'/Gas Plant Operators' Monthly Petroleum Product Sales Report (15);"

EIA-782B, "Resellers'/Retailers' Monthly Petroleum Product Sales Report (2.5);"

EIA-782C, "Monthly Report of Prime Supplier Sales of Petroleum Products Sold For Local Consumption (2.1);"

EIA-821, "Annual Fuel Oil and Kerosene Sales Report (4.4);"

EIA-856, "Monthly Foreign Crude Oil Acquisition Report (6.1);"

EIA-863, "Petroleum Product Sales Identification Survey—Quadrennially (1);"

EIA-877, "Winter Heating Fuels Telephone Survey—Weekly (October–Mid-April (0.1));"

EIA-878, "Motor Gasoline Price Survey—Weekly (.05);"

and EIA-888, "On-Highway Diesel Fuel Price Survey—Weekly (.05)." The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

F. The agency estimates that the only cost to a respondent is for the time it will take to complete the collection. Will a respondent incur any start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

G. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

H. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data

element(s), and the methods of collection.

As a Potential User of the Information to be Collected:

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility?

B. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information disseminated?

C. Is the information useful at the levels of detail to be collected?

D. For what purpose(s) would the information be used? Be specific.

E. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

Statutory Authority: Federal Energy Administration Act of 1974 (15 U.S.C. §§ 761 *et seq.*), and the DOE Organization Act (42 U.S.C. 7101 *et seq.*).

Issued in Washington, DC, April 30, 2009.

Stephanie Brown,

*Director, Statistics and Methods Group,
Energy Information Administration.*
