Take notice that the Commission received the following open access transmission tariff filings:

*Docket Numbers:* OA08–111–001.  
*Applicants:* Portland General Electric Company.

*Description:* Portland General Electric Year 2008 Annual Informational Filing on Operational Penalty Assessments and Distributions as Required by Order Nos. 890 and 890–A.

*Filed Date:* 04/24/2009.  
*Accession Number:* 20090424–5130.  
*Comment Date:* 5 p.m. Eastern Time on Friday, May 15, 2009.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor

must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed dockets(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP05–82–001]

### El Paso Natural Gas Company; Notice of Petition To Amend

April 30, 2009.

Take notice that on March 20, 2009, El Paso Natural Gas Company (El Paso), P.O. Box 1087, Colorado Springs, Colorado 80944, filed a petition to amend the order issued May 5, 2005, in Docket Number CP05–82–000, pursuant to Rules 207 and 2001, *et seq.*, of the Commission's Rules of Practice and Procedure. Specifically, El Paso seeks amended authorization to remove all previously abandoned aboveground facilities at its Gila Compressor Station, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502–3676 or TTY, (202) 502–8659.

Any questions regarding the petition should be directed to Richard

Derryberry, Director, Regulatory Affairs, El Paso Natural Gas Company, P.O. Box 1087, Colorado Springs, Colorado 80944, phone (719) 520-3782 or fax (719) 667-7534.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's

rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the Internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

*Comment Date:* May 21, 2009.

## **ENVIRONMENTAL PROTECTION AGENCY**

**[EPA-R06-OAR-2009-0202; FRL-8902-2]**

### **Adequacy Status of the Crittenden County, AR Maintenance Plan 8-Hour Ozone Motor Vehicle Emission Budgets for Transportation Conformity Purposes**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of adequacy.

**SUMMARY:** EPA is notifying the public that it has found that the motor vehicle emissions budgets (MVEBs) in the Crittenden County, Arkansas Redesignation Request/Maintenance Plan State Implementation Plan (SIP) revision, submitted on February 24, 2009 and supplemented on March 6, 2009, by the Arkansas Department of Environmental Quality (ADEQ) are adequate for transportation conformity

purposes. As a result of EPA's finding, Crittenden County must use these MVEBs for future conformity determinations for the 1997 8-hour ozone standard.

**DATES:** These MVEBs are effective May 22, 2009.

#### **FOR FURTHER INFORMATION CONTACT:**

Jeffrey Riley, Air Planning Section, U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733. Mr. Riley can also be reached by telephone at (214) 665-8542, or via electronic mail at [riley.jeffrey@epa.gov](mailto:riley.jeffrey@epa.gov). The finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/currstips.htm>.

#### **SUPPLEMENTARY INFORMATION:**

This notice is simply an announcement of a finding that EPA has already made. EPA Region 6 sent a letter to ADEQ on April 20, 2009, stating that the MVEBs in the Crittenden County Redesignation Request/Maintenance Plan SIP, submitted on February 24, 2009 and supplemented on March 6, 2009, are adequate for the Crittenden County, Arkansas portion of the Memphis, Tennessee 1997 8-hour ozone nonattainment area and must be used for transportation conformity determinations in Crittenden County. The bi-state Memphis, Tennessee 8-hour ozone nonattainment area (Area) is comprised of the following counties: Crittenden in Arkansas, and Shelby in Tennessee. Arkansas' Redesignation Request/Maintenance Plan submittal addresses only MVEBs for the Arkansas portion of this Area. The MVEBs for the Tennessee portion of this Area are addressed in a separate submittal provided by Tennessee. EPA is addressing the adequacy of the Tennessee MVEBs through a separate notice. EPA posted the availability of the Crittenden County budgets on EPA's Web site on March 11, 2009, as part of the adequacy process, for the purpose of soliciting comments. The comment period for the Arkansas submittal ran from March 11, 2009, through April 10, 2009. During EPA's adequacy comment period, no adverse comments were received on the Crittenden County on-road MVEBs. This finding has also been announced on EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/paststips.htm>.

The adequate MVEBs are provided in the following table:
