

unless the actions required by paragraph (g)(1) of this AD have been done.

FAA AD Differences

Note 1: This AD differs from the MCAI and/or service information as follows:

Where the MCAI includes a compliance time of “5 days,” we have determined that a compliance time of “within 14 days after the effective date of the AD” is appropriate. The manufacturer and EASA agree with this expansion in compliance time.

Other FAA AD Provisions

(h) The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Branch, ANM-116, FAA, Transport Airplane Directorate, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Vladimir Ulyanov, Aerospace Engineer, International Branch, ANM-116, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98057-3356; telephone (425) 227-1138; fax (425) 227-1149. Before using any approved AMOC on any airplane to which the AMOC applies, notify your appropriate principal inspector (PI) in the FAA Flight Standards District Office (FSDO), or lacking a PI, your local FSDO.

(2) *Airworthy Product*: For any requirement in this AD to obtain corrective actions from a manufacturer or other source, use these actions if they are FAA-approved. Corrective actions are considered FAA-approved if they are approved by the State of Design Authority (or their delegated agent). You are required to assure the product is airworthy before it is returned to service.

(3) *Reporting Requirements*: For any reporting requirement in this AD, under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), the Office of Management and Budget (OMB) has approved the information collection requirements and has assigned OMB Control Number 2120-0056.

Related Information

(i) Refer to MCAI Airworthiness Directive 2009-0202-E, dated September 21, 2009, and corrected September 22, 2009; and the service information specified in Table 1 of this AD; for related information.

Issued in Renton, Washington, on December 30, 2009.

Ali Bahrami,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 55

[EPA-R10-OAR-2009-0799; FRL-9095-7]

Outer Continental Shelf Air Regulations Consistency Update for Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to include in the regulations the revised applicability dates in the emissions user fees provision in 18 AAC 50.410. Requirements applying to Outer Continental Shelf (“OCS”) sources located within 25 miles of States’ seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (“COA”), as mandated by section 328(a)(1) of the Clean Air Act (“the Act”). The portion of the OCS air regulations that is being updated pertains to the emission user fee requirements for OCS sources operating off of the State of Alaska. The intended effect of approving the OCS requirements for the State of Alaska is to regulate emissions from OCS sources in a manner consistent with the requirements onshore. The change to the existing requirements discussed below is incorporated by reference into the regulations and is listed in the appendix to the OCS air regulations.

DATES: Written comments must be received on or before *February 22, 2010*.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA-R10-OAR-2009-0799, by one of the following methods:

A. *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments;

B. *E-Mail*: greaves.natasha@epa.gov;

C. *Mail*: Natasha Greaves, Federal and Delegated Air Programs Unit, U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Suite 900, Mail Stop: AWT-107, Seattle, WA 98101;

D. *Hand Delivery*: U.S. Environmental Protection Agency Region 10, Attn: Natasha Greaves (AWT-107), 1200 Sixth Avenue, Seattle, Washington 98101, 9th Floor. Such deliveries are only accepted during normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Please see the direct final rule which is located in the Rules section of this **Federal Register** for detailed

instructions on how to submit comments.

FOR FURTHER INFORMATION CONTACT:

Natasha Greaves, Federal and Delegated Air Programs Unit, Office of Air, Waste, and Toxics, U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Suite 900, Mail Stop: AWT-107, Seattle, WA 98101; telephone number: (206) 553-7079; e-mail address: greaves.natasha@epa.gov.

SUPPLEMENTARY INFORMATION: For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. EPA is incorporating 18 AAC 50.410 as amended through June 18, 2009 as a direct final rule without prior proposal because EPA views this as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule.

If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comments on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

Administrative Requirements

Under the Clean Air Act, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of States’ seaward boundaries that are the same as onshore air control requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. 42 U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, EPA’s role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the Clean Air Act. Accordingly, this action simply updates the existing OCS requirements to make them consistent with requirements onshore, without the exercise of policy discretion by EPA. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, nor does it impose substantial direct compliance costs on tribal governments, nor preempt tribal law.

Under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has approved the information collection requirements contained in 40 CFR part 55 and, by extension, this update to the rules, and has assigned OMB control number 2060–0249. Notice of OMB’s approval of EPA Information Collection Request (“ICR”) No. 1601.07 was published in the **Federal Register** on February 17, 2009 (74 FR 7432). The

approval expires January 31, 2012. As EPA previously indicated (70 FR 65897–65898 (November 1, 2005)), the annual public reporting and recordkeeping burden for collection of information under 40 CFR part 55 is estimated to average 549 hours per response, using the definition of burden provided in 44 U.S.C. 3502(2).

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedures, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Nitrogen oxides, Outer Continental Shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides.

Dated: December 14, 2009.

Michelle L. Pirzadeh,

Acting Regional Administrator, Region 10.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

[FWS–R1–ES–2008–0095;13410–1113–0000–C5]

Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To Remove the Marbled Murrelet (*Brachyramphus marmoratus*) From the List of Endangered and Threatened Wildlife

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 12-month petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service or USFWS), announce a 12-month finding on a petition to remove the Washington/Oregon/California population of the marbled murrelet (*Brachyramphus marmoratus*) (murrelet) from the Federal List of Endangered and Threatened Wildlife (List) pursuant to the Endangered Species Act of 1973, as amended (ESA) (16 U.S.C. 1531 *et seq.*). Based on a thorough review of the best scientific and commercial data available, we find that the Washington/Oregon/California population of the murrelet is a valid distinct population segment (DPS) in accordance with the discreteness and significance criteria in our 1996 DPS policy. Furthermore, we find that this DPS continues to be

subject to a broad range of threats, such as nesting habitat loss, habitat fragmentation, and predation. Although some threats, such as gillnet bycatch and lack of regulatory mechanisms, have been reduced since the murrelet’s 1992 listing, the primary threats to the species’ persistence continue.

Furthermore, the species faces newly identified threats, such as abandoned fishing gear, harmful algal blooms, and observed changes in the quality of the bird’s marine food supply. Population surveys conducted from 2000 through 2008 from San Francisco Bay to the Canadian border document a population decline during this period. Given our current understanding of the species’ population size and trajectory, and in light of the scope and magnitude of existing threats, we conclude that the species continues to meet the definition of a threatened species under the ESA. Therefore, we have determined that removing the murrelet from the List is not warranted.

DATES: The finding announced in this document was made on January 21, 2010.

ADDRESSES: This finding is available on the Internet at <http://www.regulations.gov> at Docket Number [FWS–R1–ES–2008–0095]. Supporting documentation we used in preparing this notice will be available for public inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, Washington Fish and Wildlife Office, 510 Desmond Drive, SE., Suite 102, Lacey, WA 98503, (360) 753–9440; (360) 753–9405 fax. New information, materials, comments, or questions concerning this species may be submitted to the Service at the above address.

FOR FURTHER INFORMATION CONTACT: Ken Berg, Field Supervisor, U.S. Fish and Wildlife Service, Washington Fish and Wildlife Office, (*see ADDRESSES* section). If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at (800) 877–8339.

SUPPLEMENTARY INFORMATION:

Background

Section 4 of the ESA (16 U.S.C. 1533 *et seq.*) and implementing regulations (50 CFR part 424) set forth procedures for adding species to, removing species from, or reclassifying species on the Federal List of Endangered and Threatened Wildlife. Section 4(b)(3)(A) of the ESA requires that, for any petition containing substantial scientific and commercial information that listing, delisting, or reclassification may be warranted, we make a finding within 12
