SUPPLEMENTARY INFORMATION:

I. Abstract

The American Fisheries Act (AFA) was signed into law in October of 1998. The AFA established an allocation program for the pollock fishery of the Bering Sea and Aleutian Islands Management Area (BSAI). The AFA established a limited access program for the inshore sector of the BSAI pollock fishery that is based on the formation of fishery cooperatives around each inshore pollock processor. Implementing regulations are found at 50 CFR part 679, subpart F.

The original purposes of the AFA were to tighten United States ownership standards that had been exploited under the Anti-reflagging Act, to provide Alaska's BSAI pollock fleet the opportunity to conduct their fishery in a more rational manner, and to protect non-AFA participants in other fisheries. In addition, a voluntary civil agreement among pollock cooperatives, Western Alaska Community Development Quota (CDQ) groups, and western Alaska subsistence salmon user groups is intended to coordinate the pollock fishery in a manner that reduces incidental catch rates of salmon.

Reduced bycatch, higher utilization rates, increased economic returns, and improved safety are among the direct benefits of the AFA. The flexibility provided by cooperatives and by individual vessel allocations of pollock and other species has allowed the BSAI pollock fleet to spread their fishing effort in time and space. The cooperative management structure has shifted more of the monitoring and enforcement burden to the cooperatives

and their members, allowing NMFS to manage the fishery more precisely. The AFA cooperative annual reports are required to provide information about how the cooperative allocated pollock, other groundfish species, and prohibited species among the vessels in the cooperative; the catch of these species by area for each vessel in the cooperative; information about how the cooperative monitored fishing by its members; and a description of any actions taken by the cooperative to penalize vessels that exceeded the catch and bycatch allocations made to the vessel by the cooperative.

II. Method of Collection

For those items not connected with a scale, respondents have a choice of either electronic or paper forms. Methods of submittal include e-mail of electronic forms, and mail and facsimile transmission of paper forms.

First Antidumping Duty Administrative Review of Sodium Hexametaphosphate from the People's Republic of China: Extension of Time Limit for the Preliminary Results

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: February 5, 2010.

FOR FURTHER INFORMATION CONTACT: Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0413.

SUPPLEMENTARY INFORMATION:

Background

On April 27, 2009, the Department of Commerce ("Department") published in the **Federal Register** a notice of initiation of an administrative review of sodium hexametaphosphate from the People's Republic of China ("PRC"), covering the period September 14, 2007 February 28, 2009. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 19042 (April 27, 2009). From May 26, 2009 to October 28, 2009, the respondent in this review, Hubei Xingfa Chemical Group Co., Ltd. ("Hubei Xingfa"), submitted responses to the Department's antidumping duty questionnaires. From November 9-13, 2009, the Department conducted verification of Hubei Xingfa. On November 25, 2009, the Department extended the time period for issuing the preliminary results of review until January 30, 2010. *See First Antidumping Duty Administrative Review of Sodium Hexametaphosphate from the People's Republic of China: Extension of Time Limit for the Preliminary Results*, 74 FR 61656 (November 25, 2009).

Extension of Time Limit for the Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend this deadline to a maximum of 365 days.

The Department determines that completion of the preliminary results of this review within the statutory time period is not practicable, given the extraordinarily complicated nature of the proceeding. The Department requires additional time to analyze the information gathered at verification concerning Hubei Xingfa’s corporate structure and ownership, sales practices, manufacturing methods, and to issue the verification report. Therefore, given the number and complexity of issues in this case, and in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of review by 41 days until March 12, 2010. The final results continue to be due 120 days after the publication of the preliminary results.

This notice is published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act and 19 CFR 351.213(h)(2).

Dated: January 26, 2010.

John M. Andersen.

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Stainless Steel Sheet and Strip in Coils from Taiwan: Final Results and Rescission in Part of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On August 5, 2009, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on stainless steel sheet and strip in coils (SSSSC) from Taiwan. This review covers one producer/exporter of the subject

merchandise to the United States. The period of review (POR) is July 1, 2007, through June 30, 2008. We are rescinding the review with respect to two companies because these companies had no shipments of subject merchandise during the POR.

Based on our analysis of the comments received, we have made no changes in the margin calculation. Therefore, the final results do not differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled “Final Results of Review.”

EFFECTIVE DATE: February 5, 2010.
