

members from FMCSA, State governments, and the motor carrier industry. The Board also must recommend initial annual fees to be assessed against carriers, leasing companies, brokers, and freight forwarders under the UCRA, as well as any annual adjustments to those fees. Section 14504a(d)(1)(B) provides that the UCR Plan's Board of Directors must consist of directors from the following groups:

Federal Motor Carrier Safety Administration: One director must be selected from each of the FMCSA service areas (as defined by FMCSA on January 1, 2005) from among the chief administrative officers of the State agencies responsible for administering the UCRA.

State Agencies: The five directors selected to represent State agencies must be from among the professional staffs of State agencies responsible for overseeing the administration of the UCR Agreement.

Motor Carrier Industry: Five directors must be from the motor carrier industry. At least one of the five motor carrier industry directors must be from "a national trade association representing the general motor carrier of property industry" and one of them must be from "a motor carrier that falls within the smallest fleet fee bracket."

U.S. Department of Transportation (the Department): One individual, either the FMCSA Deputy Administrator or such other Presidential appointee from the Department appointed by the Secretary, represents the Department.

The establishment of the Board was announced in the **Federal Register** on May 12, 2006 (71 FR 27777). In that notice, the Agency recognized the American Trucking Associations, Inc. (ATA) as the national trade association representing the general motor carrier of property industry. ATA is a national affiliation of State trucking organizations representing the national, State and local interests of the 50 affiliated State trucking associations; and the interests of specialized areas of the trucking industry through conferences and councils. The Agency selected the Owner-Operator Independent Drivers Association (OOIDA) as the organization from which to appoint an individual to represent motor carriers comprising the smallest fleet fee bracket. OOIDA is a national trade association representing the interests of small trucking companies and drivers.

Each of the four current directors from the chief administrative officers of the State agencies responsible for overseeing the administration of the

UCR Agreement are serving terms that expire on May 31, 2011. These directors may continue to serve until their replacements are appointed; each of them may be reappointed (49 U.S.C. 14504a(d)(1)(D)(iii) and (iv)). Today's publication serves as a notice requesting nominations for and public comment on possible appointment of the four members of the UCR Plan's Board of Directors to be appointed from the chief administrative officers of the responsible State agencies in accordance with 49 U.S.C. 14504a(d).

Board Member Nominations

FMCSA seeks either nominations of, or expressions of interest from, individuals to serve as members of the board of directors for the UCR Plan from the responsible State agencies. Nominations or expressions of interest should indicate that the person nominated or recommended meets the statutory requirements specified in 49 U.S.C. 14504a(d)(1)(B)(i). Nominations or expressions of interest must be transmitted by means of the procedures for comments specified earlier in this notice. FMCSA and the Department will make the appointments for the four members from the responsible State agencies for three-year terms, expiring on May 31, 2014.

Issued on: March 25, 2011.

Title: Qualitative Testing of Integrated Mortgage Loan Disclosure Forms.

Description: The Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203, Title X, requires CFPB to develop model forms that will integrate separate disclosures concerning residential mortgage loans that are required under the Truth in Lending Act and Real Estate Settlement Procedures Act. The CFPB implementation team will collect data, including through interviews and the internet, to inform its design and development of the mandated integrated disclosure and its implementation. The information collected through the one-on-one cognitive interviews and the internet will inform the disclosure form's design and content, using an iterative process to improve the draft form to make it easier for consumers to use the document to identify the terms of the loan being offered to them and use that information to compare among different loan products.

The data collection will include:

- Consent forms that will be used to obtain the consent of participants in the cognitive interviewing;
- Participant Questionnaires to obtain demographic information about the participants;
- Interview protocols for both consumers and lenders/brokers; and
- Tools that seek input from a larger community through the internet.

The core objective of the data collection is to help refine specific features of the content or design of the form to maximize communication effectiveness while minimizing compliance burden, specifically by:

- Evaluating one or more draft disclosure forms through iterative qualitative testing with consumers and lenders/brokers, including observation of consumers' usage of the disclosure, their understanding of the contents, and the choices they make.
- Collecting supplementary feedback through the internet from consumers, industry, housing counselors, and other interested parties regarding the draft disclosure(s).

The qualitative testing is focused on the purposes of the integrated disclosure to:

- Improve consumer understanding by better disclosing risks and costs so consumers can choose the home loans that best meet their needs;
- Enable “shopping” in terms of comparing loan products and loan offers; and
- Facilitate compliance and ease implementation for industry.

The CFPB implementation team plans to test at six sites in five rounds to allow for changes to the disclosure between rounds. Because consumers are not the only ones who will interact with the loan disclosure, the testing plan includes one-on-one cognitive testing with brokers and lenders to evaluate the usefulness of the form, any potential areas of confusion, and potential implementation and usability challenges.
