Clean Water Act Section 303(d): Proposed Withdrawal of Nine Total Maximum Daily Loads (TMDLs)**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of proposed withdrawal of nine TMDLs.

SUBJECT: The EPA hereby issues notice of the proposed withdrawal of nine final Total Maximum Daily Loads (TMDLs) for Chloride, Sulfate, and Total Dissolved Solids (TDS) for the Bayou de L'Outre Watershed in Arkansas. The EPA proposes to withdraw the Bayou de L'Outre TMDLs due to the discovery of inconsistencies in the values used to derive the flow and load duration curves, resulting in the calculation of TMDLs which do not accurately reflect

the loading capacity of the segments. Any future withdrawal action will not affect seven final TMDLs published under the same **Federal Register** notice (see 76 FR 52947) which pertain to segments 08040203-010, 08040204-006, and 08040206-015, -016, -716, -816, -916.

DATES: Comments on the proposed withdrawal action must be submitted in writing to the EPA on or before April 27, 2012.

ADDRESSES: Comments on the proposed withdrawal action of the Bayou de L'Outre TMDLs should be sent to Diane Smith, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Avenue Dallas, TX 75202-2733, or emailed to smith.diane@epa.gov. The administrative record files for the nine TMDLs are available for public inspection at the previously listed

address. Please contact Diane Smith (via mail, email, or by calling (214) 665-2145) to schedule an inspection or to obtain copies of relevant supporting documents. Documents from the administrative record files may also be viewed at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm>.

SUPPLEMENTARY INFORMATION: The TMDLs were developed under EPA Contract Number 68-C-02-108. The **Federal Register** notice of availability, seeking public comments on the draft TMDLs, was published on December 17, 2007 (see 72 FR 71409). Public comments were received by January 16, 2008, and a response to each comment was provided. The **Federal Register** notice of availability for the final TMDLs was published on August 24, 2011 (see 76 FR 52947). The nine pollutant pairs for Bayou de L'Outre subject to the proposed withdrawal are as follows.

Segment (reach)	Waterbody name	Pollutant
08040202-006	Bayou de L'Outre	Chloride, Sulfate, TDS.
08040202-007	Bayou de L'Outre	Chloride, Sulfate, TDS.
08040202-008	Bayou de L'Outre	Chloride, Sulfate, TDS.

The 2008 Arkansas Clean Water Act (CWA) Section 303(d) list of impaired waters is the current EPA approved list, and includes the three Bayou de L'Outre segments addressed by this action. Any future withdrawal action of the aforementioned TMDLs will not affect the listing of those segments.

Notice of Tentative Approval and Opportunity for Public Comment and Public Hearing for Public Water System Supervision Program Revision for Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Approval and Solicitation of Requests for Public Hearing and Comments.

SUMMARY: Notice is hereby given in accordance with the provision of section 1413 of the Safe Drinking Water Act, as amended, and the requirements governing the National Primary Drinking Water Regulations Implementation, 40 CFR Part 142, that the Commonwealth of Virginia is revising its approved Public Water System Supervision Program. The Commonwealth has adopted the drinking water regulation for the Ground Water Rule (GWR) which will provide for better public health protection by reducing public water system consumers' risk of microbial illness from drinking water. EPA has determined that the Commonwealth rule meets all minimum federal requirements, and that the Commonwealth revision is no less stringent than the corresponding federal regulation. Therefore, EPA is taking action to tentatively approve these program revisions. All interested parties are invited to submit written comments on this determination and may request a public hearing.

DATES: Comments or a request for a public hearing must be submitted by April 27, 2012. This determination shall become final and effective on April 27,

2012, if no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, and if no comments are received which cause EPA to modify its tentative approval.

ADDRESSES: Comments or a request for a public hearing must be submitted to the U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103-2029. Comments may also be submitted electronically to schmitt.ellen@epa.gov. FOR ADDITIONAL INFORMATION CONTACT: Ellen Schmitt at the Philadelphia address given above, telephone (215) 814-5787, fax (215) 814-2302 or email schmitt.ellen@epa.gov.

SUMMARY INFORMATION: All interested parties are invited to submit written comments on this determination and may request a hearing. All comments will be considered and, if necessary, EPA will issue a response. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. If a substantial request for a public hearing is made by April 27, 2012, a public hearing will be held. A request for public hearing shall include the following: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) a brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and (3) the signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Registration Review; Pesticide Dockets Opened for Review and Comment and Other Docket Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established registration review dockets for the pesticides listed in the table in Unit III.A. With this document, EPA is opening the public comment period for these registration reviews. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency may consider during the course of registration reviews. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge,

including its effects on human health and the environment. This document also announces the Agency's intent not to open a registration review docket for dicofol, molinate, or bromonitrostyrene. Bromonitrostyrene and molinate do not currently have any actively registered pesticide products and are not, therefore, scheduled for review under the registration review program. Dicofol is undergoing a phase-out of all U.S. pesticide registrations. The cancellations of the end use registrations are effective October 31, 2013. Therefore, dicofol is not scheduled for review under the registration review program. EPA is also announcing the availability of an amended final work plan for the registration review of the pesticide tribenuron methyl; this work plan has been amended to incorporate revisions to the data requirements.

DATES: Comments must be received on or before May 29, 2012.

Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is

an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.
