SUPPLEMENTARY INFORMATION:

General Information

The U.S. Environmental Protection Agency proposes to create a new system of records under the Privacy Act to track all records used by supervisors, managers and program and regional Telework Coordinators to assist the EPA in implementing and managing its Telework Program. EPA's Telework Program (or Flexiplace) provides employees the opportunity to work at a location other than their regularly assigned work site or official duty station. Alternate work sites include personal residences and satellite locations. Flexiplace is a work arrangement that is discretionary on the part of management and voluntary on the part of the employee. The work agreement each employee must sign asks for personally identifiable information. The agreement covers the terms, conditions of participation in the Flexiplace Program, and establishes that the employee and his or her supervisor will adhere to the Program's policies.

The Office of Human Resources in the Office of Administration and Resources Management executes the duties of the Agency Telework Coordinator and is responsible for overseeing the EPA Telework Program and ensuring that reporting requirements are fulfilled. The

program office and regional Telework Coordinators are responsible for ensuring that all participants are aware of their required responsibilities, maintaining telework applications and providing data and documented approvals and disapprovals to the Office of Human Resources to allow the program to be monitored.
