SUPPLEMENTARY INFORMATION:

I. Abstract

In 1976, the NPS initiated a backcountry registration system in accordance with the regulations found at 36 CFR 1.5, 1.6 and 2.10. The objective of the use permit system is to provide users access to backcountry areas of national parks with continuing opportunities for solitude, while enhancing resource protection and providing a means of disseminating public safety messages regarding the backcountry travel. NPS backcountry program managers, by designating access routes and overnight camping locations, can redistribute campers in response to user impact, high fire danger, flood or wind hazard, bear activity or other situations that may temporarily close a portion of the backcountry. The NPS may also use the permit system as a means of ensuring that each backcountry user receives up-to-date information on backcountry sanitation procedures, food storage, wildlife activity, trail conditions and weather projections so that concerns for visitor safety are met.

The Backcountry Use Permit is an extension of the NPS statutory authority responsibility to protect the park areas it administers and to manage the public use thereof (16 U.S.C. 1 and 3). NPS regulations codified in 36 CFR parts 1 through 7, 12 and 13 are designated to implement statutory mandates that provide for resource protection and public enjoyment. The Backcountry Use Permit is the primary form used to provide access into NPS backcountry areas including those areas that require a reservation to enter where use limits are imposed in accordance with other NPS regulations. Such permitting

enhances the ability to the NPS to education users on potential hazards, search and rescue efforts, and resource protection.

Draft General Management Plan and Draft Environmental Impact Statement, Fort Raleigh National Historic Site, North Carolina

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of a Draft Environmental Impact Statement for the General Management Plan (EIS/GMP) for Fort Raleigh National Historic Site, North Carolina. The draft describes and analyzes several alternatives to guide the management of the site over the next 15 to 20 years. The NPS preferred alternative incorporates various management prescriptions to ensure access to and protection and enjoyment of the monument's resources.

DATES: We will accept comments for a period of 60 days following publication of the Environmental Protection Agency's notice of availability in the **Federal Register**. We will announce the dates, times, and locations of public meetings on the draft EIS/GMP through the NPS Planning, Environment, and Public Comment (PEPC) Web site: <http://parkplanning.nps.gov/FORA> and media outlets.

ADDRESSES: You may submit comments by the following methods:

- Via the internet on the PEPC Web site <http://parkplanning.nps.gov/FORA>. An electronic public comment form is provided on this Web site.
- Via mail to Superintendent, Fort Raleigh National Historic Site, 1401 National Park Drive, Manteo, NC 27954.
- Via hand delivery to the above address.

Electronic copies of the Draft EIS/GMP will be available online at <http://parkplanning.nps.gov/FORA>. A limited number of compact disks and printed copies will be also available at the National Historic Site park headquarters at 1401 National Park Drive.

FOR FURTHER INFORMATION CONTACT: Superintendent Barclay Trimble, Fort Raleigh National Historic Site, 1401 National Park Drive, Manteo, NC 27954 or telephone at (252) 473-2111, ext. 148.

SUPPLEMENTARY INFORMATION: Public meetings, newsletters, and internet updates have kept the public informed and involved throughout the planning process. The Draft EIS/GMP provides a

framework for management, use, and development of the National Historic Site for the next 15 to 20 years. It presents and analyzes three alternatives:

- Alternative A (no action) provides a baseline for evaluating changes and impacts of the two action alternatives.

- Alternative B would greatly expand the scope of the National Historic Site's partnerships through greater partner involvement in interpretation of the Roanoke Voyages. The NPS staff would interpret other National Historic Site stories. This alternative encourages more on-site experiences through partnerships and through additional interpretive efforts, marketing, and facilities.

- Alternative C, the NPS preferred alternative, would increase our research on the site's history, archeology, inhabitants and events with emphasis on interpretive themes and preservation. As a result of our expanded research and coordination with other research organizations and agencies, visitors would benefit by gaining increased knowledge of the National Historic Site and its multiple cultural and natural themes. This alternative would respond to the mandates of Public Law 101-603, which broadened the interpretive and resource preservation purpose of the National Historic Site.

The three alternatives are described in detail in chapter 2 of the Draft EIS/GMP. Chapter 4 details the key impacts of implementing the three alternatives.

Before including your address, phone number, email address, or other personal identifying information in your comment, please be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Office of Surface Mining Reclamation and Enforcement

[OMB Control Number 1029-0117]

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing its intention to request renewed approval from the Office of Management and Budget to continue collecting information for Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information. The information collection request describes the nature of the information collection and its expected burden and cost.

DATES: Comments on the proposed information collection must be received by June 3, 2013, to be assured of consideration.

ADDRESSES: Comments may be mailed to John Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave NW., Room 203—SIB, Washington, DC 20240. Comments may also be submitted electronically to jtrelease@osmre.gov.

FOR FURTHER INFORMATION CONTACT: To receive a copy of the information collection request contact John Trelease, at (202) 208-2783 or by email at jtrelease@osmre.gov.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8 (d)]. This notice identifies an information collection that OSM will be submitting to OMB for extension. This collection is contained in 30 CFR Part 778—Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information.

OSM has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on reestimates of burden or respondents. OSM will request a 3-year term of approval for each information collection activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1029-0117 and is displayed at 30 CFR 778.8. Responses are required to obtain a benefit.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of

the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will be included in OSM's submissions of the information collection request to OMB.

Title: 30 CFR Part 778—Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information.
