

hydrophone systems to maximize marine mammal detection in the project vicinity.

8. Reporting:

(a) WSF shall provide NMFS with a draft monitoring report within 90 days of the conclusion of the construction work. This report shall detail the monitoring protocol, summarize the data recorded during monitoring, and estimate the number of marine mammals that may have been harassed.

(b) If comments are received from the NMFS Northwest Regional Administrator or NMFS Office of Protected Resources on the draft report, a final report shall be submitted to NMFS within 30 days thereafter. If no comments are received from NMFS, the draft report will be considered to be the final report.

9. This Authorization may be modified, suspended or withdrawn if the holder fails to abide by the conditions prescribed herein or if the authorized taking is having more than a negligible impact on the species or stock of affected marine mammals, or if there is an unmitigable adverse impact on the availability of such species or stocks for subsistence uses.

10. A copy of this Authorization and the Incidental Take Statement must be in the possession of each contractor who performs the construction work at Orcas Island and Friday Harbor ferry terminals.

11. WSDOT is required to comply with the Terms and Conditions of the Incidental Take Statement corresponding to NMFS' Biological Opinion.

National Environmental Policy Act (NEPA)

NMFS is currently preparing an Environmental Assessment, pursuant to NEPA, to determine whether or not this proposed activity may have a significant effect on the human environment. This analysis will be completed prior to the issuance or denial of the IHA.

Endangered Species Act (ESA)

The humpback whale, Southern Resident stock of killer whale, and the eastern population of Steller sea lions, are the only marine mammal species currently listed under the ESA that could occur in the vicinity of WSDOT's proposed construction projects. NMFS' Permits and Conservation Division has initiated consultation with NMFS' Protected Resources Division under section 7 of the ESA on the issuance of an IHA to WSDOT under section 101(a)(5)(D) of the MMPA for this activity. Consultation will be concluded

prior to a determination on the issuance of an IHA.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to authorize the take of marine mammals incidental to WSDOT's Orcas Island and Friday Harbor ferry terminal construction projects, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: February 5, 2013.

SUPPLEMENTARY INFORMATION:

Addition

On 11/30/2012 (77 FR 71400-71401), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed addition to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agency to provide the service and impact of the addition on the current or most recent contractor, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organization that will provide the service to the Government.

2. The action will result in authorizing a small entity to provide the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following service is added to the Procurement List:

ENVIRONMENTAL PROTECTION AGENCY

[FRL–9779–6]

Notice of Availability for Public Review and Comment: Draft EPA Climate Change Adaptation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Scientific evidence demonstrates that the climate is changing at an increasingly rapid rate, outside the range to which society has adapted in the past. Climate change can pose significant challenges to the EPA's ability to fulfill its mission. The U.S. Environmental Protection Agency is committed to identifying and responding to the challenges that a changing climate poses to human health and the environment. It is essential; therefore, that the EPA adapt to climate change in order to continue fulfilling its statutory, regulatory and programmatic requirements, chief among these protection of human health and the environment. Adaptation will involve anticipating and planning for changes in climate and incorporating considerations of climate change into many of the Agency's programs, policies, rules and operations to ensure they are effective under changing climatic conditions. Adaptation also necessitates close coordination between EPA and its many partners and stakeholders.

EPA and other Federal Agencies and Departments have developed draft Agency Climate Change Adaptation Plans in response to the President's October 2009 Executive Order (E.O. 13514—“*Federal Leadership in Environmental, Energy, and Economic Performance*”) and the March, 2011 *Implementing Instructions to all Federal Department and Agencies*. Today, EPA announces the availability of a public review draft of its Agency Plan. The draft Plan will be available for a 60-day public review.

DATES: The public should respond to the EPA with comment via the public docket no later than April 9, 2013. Only
