

December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88–2503–OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Where property is described as for "off-site use only" recipients of the property will be required to relocate the building to their own site at their own expense. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Theresa Ritta, Division of Property Management, Program Support Center, HHS, room 5B–17, 5600 Fishers Lane, Rockville, MD 20857; (301) 443–2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers

interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1–800–927–7588 for detailed instructions or write a letter to Ann Marie Oliva at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (i.e., acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: ARMY: Ms. Veronica Rines, Department of Army, Office of the Chief of Staff for Installation Management, 600 Army Pentagon, Room 5A128, Washington, DC 20310, (571)–256–8145; (This is not a toll-free number).

Dated: January 31, 2013.

Endangered and Threatened Wildlife and Plants; Draft Revised Indiana Bat Summer Survey Guidelines

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; extension of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (USFWS), are extending the public comment period on documents related to the draft

revised summer survey guidelines for the Indiana bat (*Myotis sodalis*) for an additional 30 days. We announced availability of these documents in our January 9, 2013, **Federal Register** notice, which opened a 30-day public comment period. If you have previously submitted comments, you do not need to resubmit them. We have already incorporated them in the public record and will fully consider them in our final USFWS guidelines. The draft guidelines were prepared by representatives of the U.S. Department of Agriculture's Forest Service, U.S. Department of Defense's Army Corps of Engineers, U.S. Department of the Interior's Geological Survey and USFWS, Kentucky Department of Fish and Wildlife Resources, New York State Department of Environmental Conservation, and the Indiana Department of Natural Resources. We request review and comment on the guidelines—along with acoustic identification software testing criteria our 2013 contingency plan—from local, State, and Federal agencies and the public.

DATES: To ensure consideration, please send your written comments on or before March 11, 2013.

ADDRESSES: *Obtaining Documents:* The draft survey guidelines, acoustic identification software testing criteria, and 2013 contingency plan are available at <http://www.fws.gov/midwest/Endangered/mammals/inba/inbasummersurveyguidance.html>. The documents are also available by request, by U.S. mail from the U.S. Fish and Wildlife Service, Ecological Services Field Office, 620 South Walker Street, Bloomington, IN 47403–2121; or by phone at 812–334–4261, x1216.

Submitting Comments: If you wish to comment on the documents, you may submit your comments in writing by any one of the following methods:

- **U.S. mail:** U.S. Fish and Wildlife Service, 620 South Walker Street, Bloomington, IN 47403–2121;
- **Hand-delivery:** Field Supervisor at the above U.S. mail address;

SUPPLEMENTARY INFORMATION:

Background

The Indiana bat was originally listed as in danger of extinction under the Endangered Species Preservation Act of 1966. It was subsequently listed as endangered under the Endangered Species Act of 1973, as amended. Summer survey guidelines (mist-netting protocols) were first developed for the species in the early 1990s and the USFWS provided revised mist-netting guidelines in our 2007 Draft Revised Recovery Plan. The USFWS recently convened a group of State and Federal agency representatives to revise existing survey guidelines. We solicited peer review through the bat working groups across the range of the Indiana bat between February and March 2012 and received comments from 57 individuals. Based upon comments received and the results of pilot testing of the survey guidelines at known Indiana bat maternity colonies in the summer of 2012, we offer the revised guidelines for public review and comment.

In addition to soliciting comments on draft survey guidelines for determining presence or probable absence of Indiana bats in the summer, we request comment on our proposed approach and criteria for testing the accuracy and suitability of available acoustic identification software programs. Only programs that pass our suitability test would be approved by the USFWS for official survey use. Our goal is to incorporate comments and finalize the draft survey guidelines and testing criteria in time for implementation in the 2013 field season. However, should no USFWS-approved software programs be concurrently available, we propose to follow an intermediary contingency plan. The draft survey guidelines, draft acoustic identification software testing criteria, and 2013 contingency plan, with instructions for commenting, are available on the Internet (see **ADDRESSES**).

Request for Public Comments

We invite written comments on (1) The draft survey guidelines, (2) the acoustic identification software testing criteria, and (3) the 2013 contingency plan. Substantive comments may or may not result in changes to the USFWS

guidance document. Please include sufficient information with your comments to allow us to verify any scientific or commercial information you include.

While all comments we receive will be considered in developing final documents, we encourage commenters to focus on those portions of the guidelines that have been revised, particularly those topics noted above that address peer-review comments. If you have previously submitted comments, you need not resubmit them because we have already incorporated them in the public record and will fully consider them in our final USFWS summer survey guidelines for the Indiana bat.

All comments received by the date specified in **DATES** will be considered in preparing final documents. Methods of submitting comments are in **ADDRESSES**.

Public Availability of Comments

Responses to individual commenters will not be provided; however, we will provide the comments we receive and a summary of how we addressed substantive comments in a frequently asked questions document on the Web site listed above. If you submit comments or information by email to indiana_bat@fws.gov, your entire submission—including any personal identifying information—will be posted on the Web site. If your submission is made by hard copy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hard copy and email submissions on the Web site listed above in **ADDRESSES**.

Comments and materials we receive will be available on our Web site; however, individuals without internet access may request an appointment to inspect the comments during normal business hours at our office in Bloomington, Indiana (see **ADDRESSES**).

Authority

The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Dated: February 4, 2013.
