

hearing or leave to intervene were submitted.

The NRC prepared a safety evaluation report (SER) to document its review and evaluation of the amendment request. In addition, the NRC evaluated an assertion by PI that the amendment request satisfied the categorical exclusion criteria specified in 10 CFR 51.22(c)(11). Under 10 CFR 51.22(c)(11), a categorical exclusion is allowed for amendments to materials licenses which involve changes to process operations or equipment provided that (i) there is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite, (ii) there is no significant increase in individual or cumulative occupational radiation exposure, (iii) there is no significant construction impact, and (iv) there is no significant increase in the potential for or consequences from radiological accidents. As explained in the SER, the NRC determined that the license amendment satisfied the 10 CFR 51.22(c)(11) categorical exclusion criteria. Consequently, an Environmental Assessment and Finding of No Significant Impact are not required.

Upon completing its review, the staff determined the request complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), as well as the NRC's rules and regulations. As required by the Act and the NRC's rules and regulations in 10 CFR Chapter I, the staff made the appropriate findings which are contained in the SER (ADAMS Accession No. ML14030A361). The NRC approved and issued Amendment No. 8 to Special Nuclear Materials License No. SNM-2506, held by NSPM for the receipt, possession, transfer, and storage of spent fuel and associated radioactive materials at the PI ISFSI. Pursuant to 10 CFR 72.46(d), the NRC is providing notice of the action taken. Amendment No. 8 was effective as of the date of issuance, March 10, 2014.

Dated at Rockville, Maryland, this 10th day of March 2014.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-528, 50-529, 50-530; NRC-2014-0053]

### Palo Verde Nuclear Generating Station

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; withdrawal by applicant.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Arizona Public Service Company (the licensee) to withdraw its application dated March 8, 2012, for a proposed amendment to Facility Operating License Nos. NPF-41, NPF-51, and NPF-74. The proposed amendment would have revised the Technical Specifications (TS) to eliminate the use of the term CORE ALTERATIONS throughout the TS.

**ADDRESSES:** Please refer to Docket ID NRC-2014-0053 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Web site: Go to <http://www.regulations.gov> and search for Docket ID NRC-2014-0053. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

**SUPPLEMENTARY INFORMATION:** The NRC has granted the request of Arizona Public Service Company (the licensee) to withdraw its March 8, 2012, application (ADAMS Accession No. ML12076A045), for proposed amendment to Facility Operating License Nos. NPF-41, NPF-51, and NPF-74, for the Palo Verde Nuclear Generating Station, Units 1, 2, and 3, respectively, located in Maricopa County, Arizona.

The proposed amendment would have revised the Technical Specifications (TS) to eliminate the use of the term CORE ALTERATIONS throughout the TS. The proposed amendment incorporated changes reflected in Technical Specification Task Force (TSTF) Traveler 471-A, Revision 1, "Eliminate use of term CORE ALTERATIONS in ACTIONS and Notes."

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on June 12, 2012 (77 FR 35071). The licensee supplemented their original application by letters dated October 11, 2012; January 31, 2013; and July 25, 2013; respectively (ADAMS Accession Nos. ML12286A330, ML13039A013, and ML13210A238). However, by letter dated February 13, 2014 (ADAMS Accession No. ML14051A103), the licensee withdrew the proposed change.

Dated at Rockville, Maryland, this 7th day of March 2014.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 03029462; NRC-2014-0047]

### Request for Alternate Decommissioning Schedule: Department of the Navy Space and Naval Warfare Centers Pacific

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; opportunity to comment, request a hearing and petition for leave to intervene.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC or the Commission) has received a request for an alternate decommissioning schedule from the Department of the Navy (Navy) for its Space and Naval Warfare Centers Pacific (SPAWARS) site, located in San Diego, California, permitted under the Navy's Master Materials License (MML) No. 45-23645-01NA. Approval of the request would extend the time period for the Navy to submit a decommissioning plan and initiate decommissioning activities at SPAWARS.

**DATES:** Comments must be filed by May 19, 2014. A request for a hearing or petition for leave to intervene must be filed by May 19, 2014.

**ADDRESSES:** You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- Federal Rulemaking Web site: Go to <http://www.regulations.gov> and search for Docket ID NRC-2014-0047. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). ###### *B. Submitting Comments*

Please include Docket ID NRC-2014-0047 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

##### **II. Introduction**

The NRC received, by letter dated August 9, 2013 (ADAMS Accession No. ML13249A300), a license amendment application from the Navy for its SPAWARS site located in San Diego, California, requesting to extend the time

for submitting a decommissioning plan. SPAWARS possesses a Type A broad scope permit issued under the Navy's MML No. 45-23645-01NA. Approval of the request would extend the time period for the Navy to submit a decommissioning plan and initiate decommissioning activities at SPAWARS.

An NRC administrative completeness review, documented in a letter to the Navy dated January 14, 2014 (ADAMS Accession No. ML14028A515), found the application acceptable to begin a technical review. If the NRC approves the request, the approval will be documented in an amendment to the Navy's MML No. 45-23645-01NA. However, before approving the proposed amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and the NRC's regulations. These findings will be documented in a Safety Evaluation Report.

##### **III. Opportunity To Request a Hearing and Petition for Leave To Intervene**

Within 60 days after the date of publication of this notice, any person(s) whose interest may be affected by this action and who wishes to participate as a party in the proceeding may file a written request for a hearing and a petition for leave to intervene with respect to issuance of the license amendment request. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested person(s) should consult a current copy of 10 CFR 2.309, which is available at the NRC's PDR located at One White Flint North, Room O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth, with particularity, the interest of the petitioner in the proceeding and how that interest may be affected by the

results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted, with particular reference to the following general requirements: (1) The name, address, and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the requestor/petitioner's interest. The petition must also identify the specific contentions that the requestor/petitioner seeks to have litigated at the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the requestor/petitioner shall provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the requestor/petitioner intends to rely in proving the contention at the hearing. The requestor/petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the requestor/petitioner intends to rely to establish those facts or expert opinion. The petition must include sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the requestor/petitioner to relief. A requestor/petitioner who fails to satisfy these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment. If the final

determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of any amendment.

All documents filed in the NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC E-Filing rule (72 FR 49139; August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the Internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

#### IV. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC E-Filing rule (72 FR 49139; August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least ten 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at 301-415-1677, to request (1) a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will

establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>. System requirements for accessing the E-Submittal server are detailed in the NRC's "Guidance for Electronic Submission," which is available on the agency's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may attempt to use other software not listed on the Web site, but should note that the NRC's E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant must file the document using the NRC's online, Web-based submission form. In order to serve documents through the Electronic Information Exchange System, users will be required to install a Web browser plug-in from the NRC's Web site. Further information on the Web-based submission form, including the installation of the Web browser plug-in, is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>.

Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the documents are submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or

their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at 866-672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such

information. However, a request to intervene will require including information on local residence in order to demonstrate a proximity assertion of interest in the proceeding. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Dated at King of Prussia, Pennsylvania, this 11th day of March 2014.

For the Nuclear Regulatory Commission.

## OFFICE OF SCIENCE AND TECHNOLOGY POLICY

### Interagency Funding for Research and Engineering Projects Conducted by Federal Researchers

**AGENCY:** Office of Science and Technology Policy.

**ACTION:** Notice of Request for Information.

**SUMMARY:** This Request for Information (RFI) solicits input from the public regarding interagency research awards via competitive grants, contracts, or other vehicles provided by a Federal agency to a researcher at a Federal laboratory that is managed, owned, or operated by another Federal agency. Applicable research awards include extramural research awards awarded to intramural researchers in Federal laboratories. Federal laboratories include Government-Owned, Government-Operated laboratories (GOGOs) and Federally Funded Research and Development Centers (FFRDCs). Research awards pay for research projects and supporting resources, including the salaries of the principal investigators. The public input provided in response to this Notice will inform the Office of Science and Technology Policy (OSTP) as it works with Federal agencies and other stakeholders to develop best practices for agencies.

**DATES:** Responses must be received by 11:59 p.m. on April 14, 2014, to be considered.

**ADDRESSES:** You may submit comments by any of the following methods.

- *Downloadable form/email:* To aid in information collection and analysis,

OSTP encourages responses to be provided by filling out the downloadable form located at <http://www.whitehouse.gov/administration/eop/ostp/library/shareyourinput> and email that form, as an attachment, to: [iaresearch@ostp.gov](mailto:iaresearch@ostp.gov). Please include "Interagency Research Award" in the subject line of the message.

- *Fax:* (202) 456-6071.

- *Mail:* Attn: Reynolds Skaggs, Office of Science and Technology Policy, 1650 Pennsylvania Avenue NW., Washington, DC, 20504. Information submitted by postal mail should allow ample time for processing by security.

Response to this RFI is voluntary. Respondents need not reply to all questions listed, but should indicate in their responses the number of the question to which they are responding. Responses to this RFI, including the names of the authors and their institutional affiliations, if provided, may be posted online. OSTP therefore requests that no business-proprietary information, copyrighted information, or personally-identifiable information be submitted in response to this RFI. Please note that the U.S. Government will not pay for response preparation, or for the use of any information contained in the response.

#### SUPPLEMENTARY INFORMATION:

##### Background

Scientists and Engineers (S&Es) who do research and development on behalf of the U.S. Government can compete for research funding through a number of mechanisms, including an interagency agreement, memorandum of understanding, grant, contract, or other transaction agreement. OSTP and STPI have observed that there exist a number of barriers with the potential to limit or prohibit the use of these and other mechanisms on an interagency basis, such as legislation, regulation, interagency agreement, agency policy, program policy, or practices. Policies and practices that can hinder interagency research awards include outright prohibitions, limitations on funding, and added administrative burdens. In addition, agencies vary with respect to the permeability of interagency research awards and this inconsistency leads to inefficiencies and occasionally redundancies. For example, some agencies allow researchers from other Federal agencies to compete for extramural funding, and provide funding to such extramural Federal laboratory employees whose proposals successfully compete for those awards. However, other agencies limit the funding provided to S&Es working in Federal laboratories under
