

(resorcinol formaldehyde latex) textile fabrics, as detailed in the application. Production under FTZ procedures could exempt CSI from customs duty payments on the foreign RFL fabrics used in export production. On its domestic sales (currently 100% of shipments), CSI would be able to choose the duty rate during customs entry procedures that applies to rubber coated calendered fabrics (duty free) for the foreign RFL fabrics (duty rates: 12% and 13.6%). Customs duties also could possibly be deferred or reduced on foreign status production equipment. The request indicates that the savings from FTZ procedures would help improve the facilities' international competitiveness.

In accordance with the FTZ Board's regulations, Pierre Duy of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.
