This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-10499 Public Health Agency/Registry Readiness To Support Meaningful Use

Under the Paperwork Reduction Act (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct

or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collections

1. *Type of Information Collection Request:* New collection (Request for a new OMB control number); *Title of Information Collection:* Public Health Agency/Registry Readiness to Support Meaningful Use; *Use:* The Medicare and Medicaid Electronic Health Record (EHR) Incentive Programs provide incentives for the meaningful use of Certified Electronic Health Record Technology (CEHRT). We defined meaningful use as a set of objectives and measures in either Stage 1 or Stage 2 depending on how long an eligible provider has participated in the program. Both Stage 1 (3 objectives) and Stage 2 (5 objectives) of meaningful use contain objectives and measures that require eligible providers to determine the readiness of public health agencies and registries to receive electronic data from CEHRT. Public comments on the notice of proposed rulemaking for Stage 2 of meaningful use (77 FR 13697) asserted that the burden for each individual eligible provider to determine the readiness of multiple public health agencies and registries could be nearly eliminated if we were to maintain a database on the readiness of public health agencies and registries. In the final rule for Stage 2 of meaningful use (77 FR 53967), we agreed that the burden on eligible providers, public health agencies and registries would be greatly reduced and established that we would create such a database and it would serve as the

definitive information source for determining public health agency and registry readiness to receive electronic data associated with the public health meaningful use objectives. The information will be made publicly available on the CMS Web site (www.cms.gov/EHRincentiveprograms) in order to provide a centralized repository of this information to eligible providers and eliminate there multiple individual inquiries to multiple public health agencies and registries. *Form Number:* CMS-10499 (OCN: 0938—New); *Frequency:* Yearly; *Affected Public:* Private sector—Business or other for-profits and Not-for-profit institutions; *Number of Respondents:* 250; *Total Annual Responses:* 250; *Total Annual Hours:* 83. SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* New collection (Request for new OMB control number); *Title of Information Collection:* Direct Service Workforce (DSW) Resource Center (RC)

Core Competencies (CC) Survey Instrument; *Use:* This survey is part of Phase IIIB of the Direct Service Workforce (DSW) Resource Center's (RC) Road Map of Core Competencies (CC) for the DSW. The collected data will be used by the DSW RC's, states, direct service agencies and other partners interested in implementing the core competencies. The target populations for the surveys include DSW professionals, front line supervisors and managers, agency administrators and directors, participants and families/guardians, and self-advocates.

The overall purpose of this survey is to confirm and validate that the DSW RC's set of core competencies are relevant and applicable to actual direct service workers, their employers and their participants. Information gained from the survey will lend credibility to the set of core competencies. As the population of older adults with long-term services and supports needs grow, more emphasis will be placed on the DSW and a universally accepted set of core competencies such as that produced by the DSW RC would increase retention, agility and capacity of the workforce.

CMS, in collaboration with the DSW RC, will use the resources and tools developed and refined through this project to develop a Direct Service Workforce set of Core Competencies web-based toolkit that will be made available to all states and territories. It will also establish the core competency set in the public domain and provide technical assistance to promote the development of specializations within each sector. *Form Number:* CMS-10512 (OCN: 0938—New); *Frequency:* Once; *Affected Public:* Individuals and households, Private sector (Business or other for-profits and Not-for-profit institutions), and State, Local, or Tribal Governments; *Number of Respondents:* 4,800; *Total Annual Responses:* 4,800; *Total Annual Hours:* 2,400.
