

by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after the FIRM and FIS report become effective.

The communities affected by the flood hazard determinations are provided in the tables below. Any

request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been

engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at http://floodsrp.org/pdfs/srp_fact_sheet.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

BILLING CODE 9110-12-P

DEPARTMENT OF THE INTERIOR

Office of the Secretary

National Geospatial Advisory Committee

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of Renewal of National Geospatial Advisory Committee.

SUMMARY: This notice is published in accordance with Section 9(a) of the Federal Advisory Committee Act of 1972 (Pub. L. 92-463). Notice is hereby given that the Secretary of the Interior has renewed the National Geospatial Advisory Committee. The Committee will provide advice and recommendations to the Federal Geographic Data Committee (FGDC), through the FGDC Chair (the Secretary

of the Interior or designee), related to management of Federal geospatial programs, development of the National Spatial Data Infrastructure (NSDI), and implementation of Office of Management and Budget (OMB) Circular A-16 and Executive Order 12906. The Committee will review and comment upon geospatial policy and management issues and will provide a forum to convey views representative of non-Federal partners in the geospatial community.

FOR FURTHER INFORMATION CONTACT: John Mahoney, USGS (phone: 206-220-4621, email: jmahoney@usgs.gov).

SUPPLEMENTARY INFORMATION: We are publishing this notice in accordance with the requirements of the Federal Advisory Committee Act (5 U.S.C. App.) (FACA). The Committee will conduct its operations in accordance with the provisions of the FACA. It will report to the Secretary of the Interior through the Chair of the FGDC Steering Committee and will function solely as an advisory body. The Committee will provide recommendations and advice to the Department and the FGDC on policy and management issues related to the effective operation of Federal geospatial programs.

The Secretary of the Interior will appoint Committee members. The Committee will be composed of up to 30 representatives, who will be selected to generally achieve a balanced representation of the viewpoints of the various stakeholders involved in national geospatial activities and the development of the NSDI.

The Committee is expected to meet 3-4 times per year. Committee members will serve without compensation. Travel and per diem costs will be provided for Committee members by the U.S. Geological Survey (USGS). The USGS will provide necessary support services to the Committee. Committee meetings will be open to the public. Notice of Committee meetings will be published in the **Federal Register** at least 15 days before the date of the meeting. The public will have an opportunity to provide input at these meetings.

In accordance with FACA, we will file a copy of the Committee's charter with the Committee Management Secretariat, General Services Administration; Committee on Energy and Natural Resources, United States Senate; Committee on Natural Resources, United States House of Representatives; and the Library of Congress.

The Certification for renewal is published below.

Certification

I hereby certify that the National Geospatial Advisory Committee is in the public interest in connection with the performance of duties imposed on the Department of the Interior by Office of Management and Budget (OMB) Circular A-16 (Revised), "*Coordination of Geographic Information and Related Spatial Data Activities*." The Committee will assist the Department of the Interior by providing advice and recommendations related to the management of Federal geospatial programs and the development of the National Spatial Data Infrastructure.

Dated: January 14, 2014.

Sally Jewell,

Secretary of the Interior.

BILLING CODE 4311-AM-P

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-MWR-KNRI-14233; PPMWROW2/PPMPAS1Y.YP0000]

Notice of Intent To Prepare an Archeological Resources Management Plan/Environmental Impact Statement for Knife River Indian Villages National Historic Site, North Dakota

AGENCY: National Park Service, Interior.

ACTION: Notice of intent.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces its intent to prepare an Archeological Resources Management Plan/Environmental Impact Statement (Plan/EIS) for Knife River Indian Villages National Historic Site, North Dakota.

DATES: This notice initiates the public scoping process for the Plan/EIS. Notices of any public scoping meetings regarding this Plan/EIS, including specific dates, times, and locations, will be announced in the local media; in project newsletters; on the project Web site at <http://parkplanning.nps.gov/KNRI>; or may be obtained directly by contacting the Superintendent at the address below.

ADDRESSES: Superintendent, Knife River Indian Villages National Historic Site, P.O. Box 9, Stanton, ND 58571-0009. You are encouraged to provide comments or requests to be added to the mailing list electronically through the project Web site at <http://parkplanning.nps.gov/KNRI> or by contacting the Superintendent.

FOR FURTHER INFORMATION CONTACT:

Superintendent Wendy Ross, Knife River Indian Villages National Historic Site, at the address above, or by telephone at (701) 745-3300.

SUPPLEMENTARY INFORMATION: The NPS is announcing its intent to prepare an archeological resources management plan and environmental impact statement (Plan/EIS) for comprehensive archeological resource protection from Knife River bank erosion, infrastructure placement, vegetation encroachment, and burrowing mammal activity at Knife River Indian Villages National Historic Site.

The project objective is to support the NPS mission to "conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations." To this end, the project will define desired conditions and management actions that conform to *The Secretary of the Interior's Standards for Treatment of Historic Properties*, while providing a suite of various reasonable alternatives capable of achieving these goals.

Past planning and emergency efforts have focused on streambank protection; however, this plan will encompass all threats to archeological resources and all reasonable and feasible alternatives to stop or reduce resource impacts. The plan will explore some of the following during the course of alternative development: Stream bank control, erosion control, pest abatement, vegetation control, archeological excavation and documentation, and interpretation of archeological resources. A full range of reasonable alternatives for the management of archeological resources will be developed through this planning process and will include, at minimum, a no-action and a preferred alternative. The potential environmental effects of each alternative will be evaluated.

The purpose of the formal public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the Plan/EIS. All interested persons, organizations, agencies, and Tribes are encouraged to submit comments and suggestions on issues and concerns that should be addressed in the Plan/EIS, and the range of appropriate alternatives that should be examined.

The NPS will use the public involvement process established by the National Environmental Policy Act to
