

1. In light of the passage of time since the adoption of the Omgeo Exemptive Order, developments in technology, and enhancements in market practices, are the proposed conditions to the exemptive order appropriate? Specifically, are all of the conditions designed to facilitate interoperability necessary? Could the Commission continue to promote the purposes of section 17A of the Exchange Act by additional modification or elimination of some or all of the conditions? If so, which conditions should be modified or eliminated?

2. What, if any, effect will moving from a single provider to two or more providers have on the efficiency of the trade settlement process?

3. What, if any, impact will the introduction of a second provider have on pricing, quality of service, and innovation?

4. Will the introduction of one or more additional providers increase or reduce risk in the marketplace?

5. Does BSTP's application for exemption from registration help achieve the underlying policy objectives of the Exchange Act? Why or why not? In particular, please address whether granting an exemption from registration does or does not further the goals of promoting investor protection and the integrity of the securities markets.

6. Are the proposed conditions to the exemptive order sufficient to promote the purposes of section 17A of the Exchange Act and to allow the Commission to adequately monitor the effects of BSTP's proposed activities on the national system for the clearance and settlement of securities transactions? Why or why not?

7. Would the links and interfaces with other matching services as described in BSTP's application have a positive or negative effect on other matching services that are registered with the Commission or that receive from the Commission an exemption from clearing agency registration? Why or why not? Should the proposed condition to develop an interface with another matching service provider be made mandatory, rather than only upon request from another provider?

8. Would the links and interfaces with other matching services as described in BSTP's application have a positive or negative effect on end-user clients of all matching services, regardless of which matching service completes trade matching prior to settlement? Why or why not?

markets, to remove impediments to, and perfect the mechanisms of, a national market system, or otherwise in furtherance of the purposes of the Act. The 120th day for the proposed Plan is March 7, 2015.

The Commission hereby extends the time period for Commission action on the proposed Plan from the 120th day and designates May 6, 2015, which is the 180th day for the proposed Plan, as the time period for Commission action. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed Plan because the extension will provide the Commission with additional time to consider, and take action in light of, among other things, the comments received on the proposed Plan.

Accordingly, pursuant to Section 11A of the Act⁸ and Rule 608 thereunder,⁹ the Commission designates May 6, 2015 as the date for Commission action on the proposed Plan.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁰
