**Authority:** 44 U.S.C. 3507(a)(1)(D).

**SUPPLEMENTARY INFORMATION:** This ICR seeks to extend PRA authority for the Occupational Exposure to Hazardous Chemicals in Laboratories Standard information collection codified in regulation 29 CFR 1910.1450. The Standard applies to any Occupational Safety and Health Act of 1970 (OSH Act) laboratory that uses hazardous chemicals in accordance with the Standard's definitions for *laboratory use of hazardous chemicals* and *laboratory scale*. The Standard requires such a laboratory to maintain worker exposures at or below the permissible exposure limits specified for the hazardous chemicals in 29 CFR part 1910, subpart Z. A laboratory does so by developing a written Chemical Hygiene Plan (CHP) that describes: Standard operating procedures for using hazardous chemicals; hazard-control techniques; equipment-reliability measures; worker information-and-training programs; conditions under which the employer must approve operations, procedures, and activities before implementation; and medical consultations and examinations. The CHP also designates personnel responsible for implementing the CHP, and specifies the procedures used to provide additional protection to workers exposed to particularly hazardous chemicals. OSH Act sections 2(b)(9), (6), and 8(c) authorize this information collection. See 29 U.S.C. 651(b)(9), 655, and 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0131.
