SUPPLEMENTARY INFORMATION:

I. Introduction

By letter dated July 24, 2014, Kennecott Uranium Company submitted an application to renew Materials License No. SUA-1530 for the Kennecott Facility in Sweetwater County, Wyoming (ADAMS Accession No. ML14251A113). This license was issued under Part 40 of Title 10 of the *Code of Federal Regulations* (CFR), "Domestic licensing of source material," and allows Kennecott Uranium Company to operate a uranium recovery facility and possess certain uranium and uranium byproduct material generated from these operations. The license's current expiration date is November 10, 2014. However, in accordance with 10 CFR 40.42, the existing license will not expire during the pendency of the NRC staff's review of the renewal application. If granted, the license would be renewed for another 10 years, through November 2024.

An NRC administrative completeness review, dated November 25, 2014, found

the application acceptable to begin a technical review (ADAMS Accession No. ML14314B032). Prior to approving the license renewal application, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. The NRC's findings will be documented in a safety evaluation report and an environmental assessment. The environmental assessment will be the subject of a subsequent notice in the **Federal Register**.

Interested person(s) should consult a current copy of 10 CFR 2.309, which is available at the NRC's PDR, located in One White Flint North, Room O1-F21 (first floor), 11555 Rockville Pike, Rockville, Maryland 20852. The NRC's regulations are accessible electronically from the NRC Library on the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition for leave to intervene is filed within 60 days, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition. The Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth, with particularity, the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted, with particular reference to the following general requirements: (1) The name, address, and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Atomic Energy Act of 1954, as amended, to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (4) the possible
