Also, as explained in this notice, the Department is amending its final affirmative determinations with respect to Brazil and Indonesia.

DATES: *Effective Date:* March 3, 2016.

SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), on January 20, 2016, the Department published its affirmative final determinations in the less-than-fair-value (LTFV) investigations of certain uncoated paper from Australia, Brazil, Indonesia, the PRC, and Portugal.¹ On February 22, 2016, the

ITC notified the Department of its affirmative determinations that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of the LTFV imports of certain uncoated paper from Australia, Brazil, Indonesia, the PRC, and Portugal and its determination that critical circumstances do not exist with respect to imports of subject merchandise from Australia that are subject to the Department's affirmative critical circumstances finding.²

Scope of the Orders

The scope of these orders includes uncoated paper in sheet form; weighing at least 40 grams per square meter but not more than 150 grams per square meter; that either is a white paper with a GE brightness level³ of 85 or higher or is a colored paper; whether or not surface-decorated, printed (except as described below), embossed, perforated, or punched; irrespective of the smoothness of the surface; and irrespective of dimensions (Certain Uncoated Paper).

Certain Uncoated Paper includes (a) uncoated free sheet paper that meets this scope definition; (b) uncoated ground wood paper produced from bleached chemi-thermo-mechanical pulp (BCTMP) that meets this scope

Value and Affirmative Final Determination of Critical Circumstances, In Part, 81 FR 3108 (January 20, 2016) (*Australia Final*); *Certain Uncoated Paper From Brazil: Final Determination of Sales at Less Than Fair Value*, 81 FR 3115 (January 20, 2016) (*Brazil Final*); *Certain Uncoated Paper From Indonesia: Final Determination of Sales at Less Than Fair Value*, 81 FR 3101 (January 20, 2016) (*Indonesia Final*); *Certain Uncoated Paper From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 81 FR 3112 (January 20, 2016) (*PRC Final*); and *Certain Uncoated Paper From Portugal: Final Determination of Sales at Less Than Fair Value and Final Negative Determination of Critical Circumstances*, 81 FR 3105 (January 20, 2016) (*Portugal Final*).

² See Letter to Christian Marsh, Deputy Assistant Secretary of Commerce for Enforcement and Compliance, from Meredith Broadbent, Chairman of the U.S. International Trade Commission, regarding certain uncoated paper from Australia, Brazil, China, Indonesia, and Portugal (February 22, 2016) (ITC Letter). See also *Certain Uncoated Paper from Australia, Brazil, China, Indonesia, and Portugal*, USITC Investigation Nos. 701-TA-528-529 and 731-TA-1264-1268 (Final), USITC Publication 4592 (February 2016).

³ One of the key measurements of any grade of paper is brightness. Generally speaking, the brighter the paper, the better the contrast between the paper and the ink. Brightness is measured using a GE Reflectance Scale, which measures the reflection of light off a grade of paper. One is the lowest reflection, or what would be given to a totally black grade, and 100 is the brightest measured grade. "Colored paper" as used in this scope definition means a paper with a hue other than white that reflects one of the primary colors of magenta, yellow, and cyan (red, yellow, and blue) or a combination of such primary colors.

definition; and (c) any other uncoated paper that meets this scope definition regardless of the type of pulp used to produce the paper.

Specifically excluded from the scope are (1) paper printed with final content of printed text or graphics and (2) lined paper products, typically school supplies, composed of paper that incorporates straight horizontal and/or vertical lines that would make the paper unsuitable for copying or printing purposes. For purposes of this scope definition, paper shall be considered "printed with final content" where at least one side of the sheet has printed text and/or graphics that cover at least five percent of the surface area of the entire sheet.

Imports of the subject merchandise are provided for under Harmonized Tariff Schedule of the United States (HTSUS) categories 4802.56.1000, 4802.56.2000, 4802.56.3000, 4802.56.4000, 4802.56.6000, 4802.56.7020, 4802.56.7040, 4802.57.1000, 4802.57.2000, 4802.57.3000, and 4802.57.4000. Some imports of subject merchandise may also be classified under 4802.62.1000, 4802.62.2000, 4802.62.3000, 4802.62.5000, 4802.62.6020, 4802.62.6040, 4802.69.1000, 4802.69.2000, 4802.69.3000, 4811.90.8050 and 4811.90.9080. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the orders is dispositive.

Amendment to Final Determinations

A ministerial error is defined as an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial.⁴

Brazil Amended Final Determination

Pursuant to section 735(e) of the Act and 19 CFR 351.224(e) and (f), the Department is amending the *Brazil Final* to reflect the correction of a ministerial error it made in the final margin assigned to one of the respondents. In addition, because the Department calculated the "all-others" rate based on a weighted-average of the respondents' margins using publicly-ranged quantities for their sales of subject merchandise, we have revised the all-others rate.⁵

⁴ See section 735(e) of the Act.

⁵ See the "Estimated Weighted-Average Dumping Margins" section below.
