Synopsis

1. On November 20, 2015, the Commission released the NPRM in WT Docket No. 15–285, FCC 15–155, regarding Hearing Aid Compatibility Benchmarks. The NPRM provided that comments are due on January 14, 2016, and that reply comments are due on January 29, 2016. On January 8, 2016, the Law Firm of Blooston, Mordkofsky, Dickens, Duffy & Prendergast, LLP and the Rural Wireless Association, Inc. filed a Joint Request for Extension of Time to File Comments seeking to extend the comment deadline based on the proximity of the January 15, 2016 deadline for submitting annual hearing aid compatibility reports for the 2015 reporting period.

2. The Commission notes that extensions of time are not routinely granted, and states that such extensions may be warranted when, among other things, the additional time will serve the public interest. The Commission finds that providing a limited extension in this proceeding would be beneficial to the development of a complete record on the issues and that an extension of time therefore serves the public interest. The Commission extends the deadline for filing comments to January 28, 2016 and the deadline for filing reply comments to February 12, 2016.

3. The Commission takes this action pursuant to authority found in section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and sections 0.131, 0.331, and 1.46 of the Commission's rules, 47 CFR 0.131, 0.331, and 1.46.

Procedural Matters

Ex Parte Rules—Permit-But-Disclose

4. The proceeding that the NPRM in WT Docket No. 15–285, FCC 15–155, initiates shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation

within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 577

[Docket No. NHTSA-2016-0001]

RIN 2127-AL66

Update Means of Providing Notification; Improving Efficacy of Recalls

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Advance Notice of Proposed Rulemaking (ANPRM).

SUMMARY: The Moving Ahead for Progress in the 21st Century Act (MAP-21) authorizes the Secretary of Transportation to amend, by regulation, the means of notification required under the Safety Act, to be in a manner other than, or in addition to, first-class mail. Furthermore, Section 24104 of the Fixing America's Surface Transportation Act (FAST Act) expounds on the need to update the means of notification by requiring the Agency to include notification by electronic means in addition to first class mail notification, within 270 days of its enactment. MAP-21 also authorizes the Secretary of Transportation to improve the efficacy of recalls by requiring manufacturers to send additional notifications of defects or noncompliance if a second notification by the manufacturer does not result in an adequate number of motor vehicles or replacement equipment being returned for remedy.

NHTSA seeks public comment on the means, in addition to first class mail, of providing notification to owners, purchasers, and dealers, by a manufacturer of a motor vehicle or replacement equipment, that the vehicle or equipment contains a defect related to motor vehicle safety or does not comply with an applicable motor vehicle safety standard. As a result of this ANPRM, the Agency anticipates receiving information that will aid the Agency in developing a rule implementing the notification requirements under MAP-21 and the FAST Act. The Agency anticipates that comments and information received will aid in updating the Agency's regulations.

DATES: Comments must be received on or before March 10, 2016.

ADDRESSES: You may submit comments by any of the following methods:

- *Internet:* Go to <http://www.regulations.gov> and follow the online instructions for submitting comments.
- *Mail:* Docket Management Facility, M-30, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Room W12-140, Washington, DC 20590.

I. Executive Summary

The Moving Ahead for Progress in the 21st Century Act (MAP-21) authorizes the Agency to amend, through rulemaking, the means of providing notification to owners, purchasers, and dealers, by a manufacturer of a motor vehicle or replacement equipment, that the vehicle or equipment contains a defect related to motor vehicle safety or does not comply with an applicable federal motor vehicle safety standard. MAP-21 also authorizes NHTSA to improve recall effectiveness by requiring manufacturers to send additional notifications of defects or noncompliance if a second notification by the manufacturer does not result in an adequate number of motor vehicles or replacement equipment being returned for remedy. Finally, MAP-21 authorizes NHTSA to permit "public notice" in addition to individualized notification. More recently, Section 24104 of the Fixing America's Surface Transportation Act (FAST Act) requires the Agency to amend the means of notification to owners by including electronic notification in addition to first class mail notification.
