

On October 1, 2015, the Department received an adequate substantive response to the notice of initiation from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). The Department did not receive any responses from the respondent interested parties, *i.e.*, chlorinated isos producers and exporters from Spain and the PRC. On the basis of the notice of intent to participate and adequate substantive response filed by the petitioners and the inadequate response from any respondent interested party, the Department conducted expedited sunset reviews of these orders pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C).

Scope of the Orders

The products covered by the orders are chlorinated isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones. There are three primary chemical compositions of chlorinated isos: (1) Trichloroisocyanuric acid ($\text{Cl}_3(\text{NCO})_3$), (2) sodium dichloroisocyanurate (hydrate) ($\text{NaCl}_2(\text{NCO})_3(2\text{H}_2\text{O})$), and (3) sodium dichloroisocyanurate (anhydrous) ($\text{NaCl}_2(\text{NCO})_3$). The orders cover all chlorinated isos. A full description of the scope of the order is contained in the Issues and Decision Memorandum for the Expedited Sunset Reviews of the Antidumping Duty Orders on Chlorinated Isocyanurates from Spain and the People's Republic of China.

Analysis of Comments Received

The issues discussed in the Decision Memorandum³ are the likelihood of continuation or recurrence of dumping, and the magnitude of the margins of dumping likely to prevail if these orders were revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in the Decision Memorandum which is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and is available to all parties in the Central Records Unit in Room B8024 of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly

on the Internet at <http://trade.gov/enforcement/>. The signed Decision Memorandum and electronic versions of the Decision Memorandum are identical in content.

Final Results of Review

Pursuant to sections 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping orders of chlorinated isos from Spain and the PRC would be likely to lead to continuation or recurrence of dumping. Further, we determine that the magnitudes of the margins of dumping likely to prevail are as follows:

SPAIN	
Exporter/producer	Margin (percent)
Argonesas Delsa S.A	24.83
All others	24.83
PRC	
Exporter/producer	Margin (percent)
Hebei Jiheng Chemical Co	75.78
Nanning Chemical Industry Co., Ltd	285.63
Changzhou Clean Chemical Co., Ltd	137.69
Liaocheng Huao Chemical Industry Co., Ltd	137.69
Sinochem Hebei Import & Export Corporation	137.69
Sinochem Shanghai Import & Export Corporation	137.69
PRC-wide Entity	285.63

Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

The Department is issuing and publishing these final results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act and 19 CFR 351.218.

Dated: December 30, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE356

Endangered Species; File No. 19716

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Robert Hardy, 100 8th Avenue Southeast Florida Fish and Wildlife Conservation Commission, Fish & Wildlife Research Institute, St Petersburg, FL 33701, has applied in due form for a permit to take loggerhead (*Caretta caretta*), green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*), and leatherback (*Dermochelys coriacea*) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or before February 5, 2016.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 19716 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Arturo Herrera or Amy Hapeman, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act

³ See Department Memorandum, "Issues and Decision Memorandum for the Expedited Sunset Reviews of the Antidumping Duty Orders on Chlorinated Isocyanurates from Spain and the People's Republic of China," dated concurrently with this notice (Decision Memorandum).

of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The applicant requests a five-year permit to locate and describe surface-pelagic drift communities of the Atlantic Ocean and Gulf of Mexico that serve as developmental habitat for surface-pelagic juvenile and neonate sea turtles, to quantify threats to pelagic sea turtles, and to gather information on their life-history, genetics, movements, behavior, and diet. Researchers would conduct vessel surveys to count and pursue for capture by dip net up to 300 loggerhead, 200 green, 60 hawksbill, 130 Kemp's ridley and 10 leatherback sea turtles annually. An additional 150 loggerheads and 440 leatherbacks could be harassed annually during vessel surveys but would not be pursued for capture. Depending on life stage and size, captured sea turtles would have the following procedures performed prior to release: Measure, weigh, oral swab, esophageal lavage, skin and scute biopsy, flipper and passive integrated transponder tag, and/or epoxy attachment of a satellite or VHF transmitter. Voided fecal samples also would be collected opportunistically.

Dated: December 29, 2015.

Julia Harrison,

Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.

RIN 0648–XD607

Marine Mammals; File No. 18824

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that a permit has been issued to Briana Witteveen, Ph.D., University of Alaska, Fairbanks, Kodiak Seafood and Marine Science Center, 118 Trident Way,

Kodiak, AK, 99615, to conduct research on humpback (*Megaptera novaeangliae*); killer (*Orcinus orca*); gray (*Eschrichtius robustus*); North Pacific Right (*Eubaelana japonica*); fin (*Balaenoptera physalus*); sei (*B. borealis*); minke whales (*B. acutorostrata*); blue (*B. musculus*); and sperm whales (*Physeter macrocephalus*). Additionally, harbor (*Phocoena phocoena*) and Dall's porpoises (*P. dalli*), Pacific white-sided dolphins (*Lagenorhynchus obliquidens*), Northern fur (*Callorhinus ursinus*) and harbor seals (*Phoca vitulina*), and Steller sea lions (*Eumetopias jubatus*) may be incidentally harassed.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

FOR FURTHER INFORMATION CONTACT:

Jennifer Skidmore or Courtney Smith, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

On November 21, 2014, notice was published in the **Federal Register** (79 FR 69432) that a request for a permit to conduct research on the above listed species had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The permit authorizes non-lethal take using vessels to: Collect identification photographs; record vocalizations; conduct biopsy sampling; collect prey parts and sloughed skin; attach suction-cup tags; and document behavioral response to acoustic deterrents. Research may occur year-round within the Gulf of Alaska. The purpose of this research is to improve understanding of the foraging behavior, prey use, and habitat overlap among sympatric whale species throughout their habitat. The

permit is valid through December 1, 2020.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: December 29, 2015.

Julia Harrison,

Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.
