

Agency is establishing an exemption from the requirement of a tolerance without any numerical limitation.

VI. Conclusions

Therefore, an exemption from the requirement of a tolerance is established under 40 CFR 180.920 for benzyl acetate (CAS Reg. No. 140–11–4) when used as an inert ingredient (solvent) in pesticide formulations applied to growing crops only.

VII. Statutory and Executive Order Reviews

This action establishes an exemption from the requirement of a tolerance under FFDCA section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled “Regulatory Planning and Review” (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), nor does it require any special considerations under Executive Order 12898, entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal

governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000) do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

VIII. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Agriculture Acquisition Regulation, Fire Suppression and Liability

AGENCY: Office of Procurement and Property Management, U.S. Department of Agriculture

ACTION: Final rule.

SUMMARY: The Office of Procurement and Property Management (OPPM) of the U.S. Department of Agriculture (USDA) amends the Agriculture Acquisition Regulation (AGAR) by adding a new clause entitled "Fire Suppression and Liability." Section 8205 of the Agricultural Act of 2014 (2014 Act) provided the USDA Forest Service with permanent authority for Stewardship End Result Contracting by adding a new Section 604 to the Healthy Forests Restoration Act of 2003. Section 8205 contains a requirement that the agency use a fire liability provision in all stewardship contracts and agreements that is in substantially the same form as the fire liability provisions contained in the integrated resource timber contract in Forest Service Contract Numbered 2400–13, Part H, Section H.4. This final rule establishes a new clause in the AGAR, the USDA supplement to the Federal Acquisition Regulation (FAR), for use in Integrated Resource Service Contracts (IRSC) subject to the FAR. This new AGAR clause addresses fire liability on stewardship contracts as required in the 2014 Agricultural Act.

DATES: Effective March 14, 2016.

I. Authority

The enactment of Section 8205 of the Agricultural Act of 2014 (Pub. L. 113–79) establishes permanent authority to conduct Stewardship End Result Contracting projects by adding a new Section 604 to the Healthy Forests Restoration Act of 2003 (HFRA) (16 U.S.C. 6591c). Section 8205 of the 2014 Agricultural Act contains a requirement that the agency use a fire liability provision in all stewardship contracts and agreements that is in substantially the same form as the fire liability provisions contained in the integrated resource timber contract in Forest Service Contract Numbered 2400–13, Part H, Section H.4 and timber sale contracts conducted pursuant to Section 14 of the National Forest Management Act of 1976 (16 U.S.C. 472a).

II. Background

Beginning in 1998 with the enactment of Section 347 of the Department of the Interior and Related Agencies Appropriation Act, 1999, the Forest Service has been authorized to carry out Stewardship End Result Contracting Projects; first on a pilot basis and then, through a succession of subsequent amendments, this authority was expanded. The enactment of Section 8205 of the Agricultural Act of 2014 sets forth the permanent authority for conducting Stewardship End Result Contracting Projects by adding a new Section 604 to the Healthy Forests Restoration Act of 2003. Section 8205 contains a provision that "not later than 90 days after the date of enactment of this section, the Chief of the Forest Service and the Director of the Bureau of Land Management shall issue for use in all contracts and agreements under this section fire liability provisions that are in substantially the same form as the fire liability provisions contained in— (A) integrated resource timber contracts, as described in the Forest Service Contract Numbered 2400–13, Part H, Section H.4; and (B) timber sale contracts conducted pursuant to Section 14 of the National Forest Management Act of 1976 (16 U.S.C. 472a)."

This final rule establishes a new AGAR clause for use in stewardship contracts subject to the FAR. This clause addresses fire liability on Stewardship End Result Contracting, as required in the 2014 Agricultural Act. The text of the clause is closely specified in the law.

III. Discussion of Comments

USDA solicited comments on the interim rule on May 22, 2014. USDA received two comments at the end of the
