[Docket No. CP17–40–000; PF16–9–000]

Spire STL Pipeline, LLC; Notice of Application

Take notice that on January 26, 2017, Spire STL Pipeline LLC (Spire), 700 Market Street, St. Louis, Missouri 63101, filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Parts 157 and 284 of the Commission's Regulations requesting authority to construct and operate a pipeline project which would include: (i) The construction of approximately 59 miles of a new greenfield, 24-inch-diameter pipeline; (ii) the acquisition of approximately seven miles of existing Line 880, currently owned by Laclede Gas Company (Laclede); and (iii) minor modifications to line 880 after it is acquired. Spire's new pipeline would extend from an interconnection with the Rockies Express Pipeline (REX) southward through Scott, Greene and Jersey Counties, Illinois and St. Charles and St. Louis Counties, Missouri to an interconnection with the Laclede's Line 880. Combined the project will be a new, approximately 66 mile long interstate natural gas pipeline that is designed to provide approximately 400,000 dekatherms per day (Dth/d) of new firm natural gas transportation service to the St. Louis metropolitan area. The cost to construct and acquire the project facilities is approximately \$220 million dollars.

The filing may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TTY, (202) 502–8659.

Any questions concerning this application should be directed to Scott Jaskowiak, Vice President, Spire STL Pipeline LLC, 700 Market Street, St.

Louis, Missouri 63101, phone: 314–516–8588, email: scott.jaskowiak@spireenergy.com.

On July 22, 2016 the Commission granted Spire's request to utilize the Pre-Filing Process and assigned Docket No. PF16–9–000 to staff activities involved in the Spire project. Now, as of the filing of the January 26 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP17–40–000 as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 5 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as

possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on February 27, 2017.

Dated: February 6, 2017.

Kimberly D. Bose,
Secretary.
