Implementation Date

The Exchange proposes to implement these amendments to its fee schedule immediately.²⁰

2. Statutory Basis

The Exchange believes that the proposed rule changes are consistent with the objectives of Section 6 of the Act,²¹ in general, and furthers the objectives of Section 6(b)(4),²² in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The proposed rule changes reflect a competitive pricing structure designed

to incentivize market participants to direct their order flow to the Exchange.

Fee Codes PM

The Exchange believes that its proposal to reduce the rebate provided by fee code PM is fair and equitable and reasonable because such proposed rebates remain consistent with pricing previously offered by the Exchange as well as its competitors²³ and does not represent a significant departure from the Exchange's general pricing structure and will allow the Exchange to earn additional revenue that can be used to offset the addition of new pricing incentives. Specifically, the Exchange's proposal to lower the rebate to \$0.31 per contract for Market Maker orders which add liquidity in Penny Pilot securities under fee code PM remains lower than NYSE Arca LLC ("NYSE Arca"), which provides a standard rebate of \$0.28 per contract for similar orders. Lastly, the proposed change to fee code PM is not unfairly discriminatory because it will apply equally to all Members.

Modifications to the Volume Discount Tier Rebates and Required Criteria

The Exchange believes that the proposed modifications to the tiered pricing structure are reasonable, fair and equitable, and non-discriminatory. The Exchange operates in a highly competitive market in which market participants may readily send order flow to many competing venues if they deem fees at the Exchange to be excessive or incentives provided to be insufficient. The proposed structure remains intended to attract order flow to the Exchange by offering market participants a competitive pricing structure. The Exchange believes it is reasonable to offer and incrementally modify incentives intended to help to contribute to the growth of the Exchange.

Volume-based pricing such as that proposed herein have been widely adopted by exchanges, including the Exchange, and are equitable because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to: (i) The value to an exchange's market quality; (ii) associated higher levels of market activity, such as higher levels of liquidity provisions and/or growth patterns; and (iii) introduction of higher volumes of orders into the price and volume discovery processes. Lastly, the proposed change to the tiered pricing structure are not unfairly

discriminatory because they will apply equally to all Members.

In particular, the proposed changes to footnotes 8, 9, and 10 intended to further incentivize Members to send increased order flow to the Exchange in an effort to qualify for the enhanced rebate made available by the tiers, in turn contributing to the growth of the Exchange. The enhanced rebate made available by the tiers, in turn contributing to the growth of the Exchange. [sic]

In addition, the proposed modifications to the Market Maker Penny Pilot Add Volume Tiers to require that Members attain an ADAV in Market Maker orders specifically, instead of requiring a general level of ADV or an ADAV that also includes Away Market Maker orders, reinforces the purpose of the volume tier—to incentivize Members to send Market Maker orders in Penny Pilot securities to the Exchange. The tier structure under footnote 6 has thus been adjusted accordingly to accommodate the newly proposed Tier 2 and renaming of current Tier 2 as Tier 3. Further, the Exchange believes the proposed rebates reasonably reflect the ascending difficulty of achieving the corresponding tier.

Furthermore, the proposed modifications to the NBBO Setter Tiers are consistent with the Act in that the proposed changes are designed to incentivize Members to contribute certain orders which establish a new NBBO to the Exchange in an effort to qualify for the enhanced rebate. By also requiring Members to achieve a certain ADAV in certain orders that establish a new NBBO, the proposed changes would further enhance the market quality of the Exchange by improving opportunities for price improvement. In particular, the proposed changes will further encourage orders at the NBBO, and is therefore directly focused on encouraging aggressively priced liquidity provision on BZX Options. The Exchange also believes the rebate associate with each tier is reasonable as they reflect the difficulty in achieving the corresponding tier. These incentives remain reasonably related to the value to the Exchange's market quality associated with higher levels of market activity, including liquidity provision and the introduction of higher volumes of orders into the price and volume discovery processes.

Lastly, the Exchange believes that eliminating the: (i) Customer Step-Up Volume Tier and the Step-Up Tier under footnote 1; (ii) the Step-Up Tier under footnote 3; and (iii) the Step-Up Tier under footnote 12 is reasonable,

²⁰ The Exchange initially filed the proposed amendments to its fee schedule on March 31, 2017 (SR-BatsBZX-2017-20). On April 12, 2017, the Exchange withdrew SR-BatsBZX-2017-20 and then subsequently submitted this filing (SR-BatsBZX-2017-23).

fair, and equitable because the these tiers were not providing the desired result of incentivizing Members to increase their participation on the Exchange. As such, the Exchange also believes that the proposed elimination of these tiers would be non-discriminatory in that they currently apply equally to all Members and, upon elimination, would no longer be available to any Members. Further, their elimination will allow the Exchange to explore other pricing mechanisms in which it may enhance market quality for all Members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes the proposed amendment to its fee schedule would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets. The Exchange does not believe that the proposed change to the Exchange's standard fees, rebates and tiered pricing structure burdens competition, but instead, enhances competition as it is intended to increase the competitiveness of the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act²⁴ and paragraph (f) of Rule 19b-4 thereunder.²⁵ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if

it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
