

purposes of §§ 314.161 and 314.162, never marketing an approved drug product is equivalent to withdrawing the drug from sale.

Goodwin Procter LLP submitted a citizen petition dated September 26, 2017 (Docket No. FDA-2017-P-5946), under 21 CFR 10.30, requesting that the Agency determine whether DORYX MPC (doxycycline hyclate), delayed-release tablets, 60 mg, were withdrawn from sale for reasons of safety or effectiveness.

After considering the citizen petition and reviewing Agency records and based on the information we have at this time, FDA has determined under § 314.161 that DORYX MPC (doxycycline hyclate), delayed-release tablets, 60 mg, were not withdrawn for reasons of safety or effectiveness. The petitioner has identified no data or other information suggesting that this drug product was withdrawn for reasons of safety or effectiveness. We have carefully reviewed our files for records concerning the withdrawal of DORYX MPC (doxycycline hyclate), delayed-release tablets, 60 mg, from sale. We have found no information that would indicate that this drug product was withdrawn from sale for reasons of safety or effectiveness.

Accordingly, the Agency will continue to list DORYX MPC (doxycycline hyclate), delayed-release tablets, 60 mg, in the "Discontinued Drug Product List" section of the Orange Book. The "Discontinued Drug Product List" delineates, among other items, drug products that have been discontinued from marketing for reasons other than safety or effectiveness. ANDAs that refer to this drug product may be approved by the Agency as long as they meet all other legal and regulatory requirements for the approval of ANDAs. If FDA determines that labeling for this drug product should be revised to meet current standards, the Agency will advise ANDA applicants to submit such labeling.

Dated: March 5, 2018.

Associate Commissioner for Policy.

The NIEHS achieves its mission and vision through multidisciplinary biomedical research programs, as well as prevention and intervention efforts. NIEHS research is disseminated to inform evidence-based environmental health policies to prevent disease and protect health. The NIEHS also focuses on communication and research translation strategies that encompass training, education, technology transfer, and community engagement.

Request for Comment on Draft NIEHS Strategic Plan 2018–2023

During June–August 2017, the NIEHS solicited input to its strategic planning process through a public, online “Trends & Insights Survey.” This survey invited respondents to comment on any aspect of the 2012–2017 NIEHS Strategic Plan, as well as to offer potential new directions and priorities. Following this, NIEHS synthesized the input (~2,000 unique comments) and reported it to the National Advisory Environmental Health Sciences Council (NAEHSC) at its September 2017 meeting. Two members of Council led a discussion to provide further feedback. From September 2017–February 2018, NIEHS Leadership discussed the compiled input and analysis, consulted the NIH Strategic Plan, and determined the current set of Strategic Objectives and supporting focus areas of effort that are detailed in the draft plan. This plan was presented and discussed at the NAEHSC’s February 2018 meeting.

The NIEHS seeks Comments from all interested parties on its draft “NIEHS Strategic Plan 2018–2023: Advancing Environmental Health Science, Improving Health 2.0.” Input received in response to this request will be collected from February 21 to March 30, 2018.

All comments should be submitted on or before COB (5:00 p.m. EDT) March 30, 2018.

Dated: February 14, 2018.
