Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For purposes of this review Commerce preliminarily finds that all programs previously countervailed in prior segments of this proceeding, remain countervailable—that is, they provide a financial contribution within the meaning of sections 771(5)(B)(i) and (D) of the Act, confer a benefit within the meaning of section 771(5)(B) of the Act, and are specific within the meaning of 771(5A) of the Act.

For a full description of the methodology underlying our preliminary conclusions, including our reliance on adverse facts available pursuant to sections 776(a) and (b) of the Act, *see* the Preliminary Decision Memorandum. As explained in the Preliminary Decision Memorandum, Commerce relied on adverse facts available because the Government of China and both of the mandatory respondents did not act to the best of their ability in responding to Commerce's requests for information, and consequently, has drawn an adverse inference, where appropriate, in selecting from among the facts otherwise available.⁹ For further information, *see* "Use of Facts Otherwise Available and Adverse Inferences" in the Preliminary Decision Memorandum.

Rescission of Review, in Part

For those companies named in the *Initiation Notice* for which all review requests have been timely withdrawn, we are rescinding this administrative review in accordance with 19 CFR 351.213(d)(1). These 214 companies are listed at Appendix II to this notice.

⁸ *See* Preliminary Decision Memorandum for a complete description of the scope of the order.

⁹ *See* sections 776(a) and (b) of the Act.

Intent To Rescind Administrative Review, in Part

As explained above, on July 20, 2017, Commerce received timely no-shipment certifications from Guangdong Xin Wei Aluminum Products Co., Ltd., Xin Wei Aluminum Company Limited, and Xin Wei Aluminum Co. Ltd. Because there is no evidence on the record to indicate that these companies had entries of subject merchandise during the POR,¹⁰ pursuant to 19 CFR 351.213(d)(3), we preliminarily intend to rescind the review with respect to Guangdong Xin Wei Aluminum Products Co., Ltd., Xin Wei Aluminum Company Limited, and Xin Wei Aluminum Co. Ltd.¹¹ A final decision regarding whether to rescind the review of this company will be issued with the final results of review.

Preliminary Results

Commerce preliminarily determines that the following estimated countervailable subsidy rates exist:¹²

Company	Ad valorem rate (percent)
Liaoning Zhongwang Group Co., Ltd	198.61
Liaoyang Zhongwang Aluminum Profile Co., Ltd	198.61

Assessment Rates

In accordance with 19 CFR 351.221(b)(4)(i), we preliminarily assigned subsidy rates in the amounts shown above for the producer/exporters shown above. Upon completion of the administrative review, consistent with section 751(a)(1) of the Act and 19 CFR 351.212(b)(2), Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, countervailing duties on all appropriate entries covered by this review. We intend to issue assessment instructions to CBP 15 days after publication of the final results of this review.

For the 214 companies for which this review is rescinded, Commerce will instruct CBP to assess countervailing duties on all appropriate entries at a rate equal to the cash deposit of estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period January 1, 2016, through

December 31, 2016, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Cash Deposit Requirements

Pursuant to section 751(a)(2)(C) of the Act, Commerce also intends upon publication of the final results to instruct CBP to collect cash deposits of estimated countervailing duties in the amounts indicated above for each company listed on shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. For all non-reviewed firms, we intend to instruct CBP to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure

Normally, Commerce discloses to interested parties the calculations performed in connection with the preliminary results of review within five days of its public announcement, or if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). However, because Commerce preliminarily applied adverse facts available to Liaoning and Liaoyang, pursuant to section 776 of the Act, there are no calculations to disclose.

Public Comment

Interested parties may submit written case briefs no later than 30 days after the date of publication of the preliminary determination. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.¹³ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this investigation are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.¹⁴

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and

Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date. Issues addressed at the hearing will be limited to those raised in the briefs.¹⁵ All case and rebuttal briefs and hearing requests must be filed electronically and received successfully in their entirety through ACCESS by 5:00 p.m. Eastern Time on the due date.

Unless the deadline is extended pursuant to section 751(a)(3)(A) of the Act, we intend to issue the final results of this administrative review, including the results of our analysis of the issues raised by the parties in their comments, within 120 days after issuance of these preliminary results.

Notification to Interested Parties

These preliminary results are issued and published pursuant to sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: March 8, 2018.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Applications for five new scientific research permits and seven permit renewals.

SUMMARY: Notice is hereby given that NMFS has received twelve scientific research permit application requests relating to Pacific salmon, steelhead, eulachon, and green sturgeon. The proposed research is intended to increase knowledge of species listed under the Endangered Species Act (ESA) and to help guide management and conservation efforts. The applications may be viewed online at https://apps.nmfs.noaa.gov/preview/preview_open_for_comment.cfm.

DATES: Comments or requests for a public hearing on the applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on April 16, 2018.

ADDRESSES: Written comments on the applications should be sent to the Protected Resources Division, NMFS, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232-1274. Comments may also be sent by email to nmfs.swr.apps@noaa.gov (include the permit number in the subject line of email).

FOR FURTHER INFORMATION CONTACT: Shivonne Nesbit, Portland, OR (ph.: 503-231-6741), email: Shivonne.Nesbit@noaa.gov. Permit application instructions are available from the address above, or online at <https://apps.nmfs.noaa.gov>.

SUPPLEMENTARY INFORMATION:**Species Covered in This Notice**

The following listed species are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): Threatened California Coastal (CC); endangered Sacramento River winter-run (SRWR); threatened Central Valley spring-run (CVSR).

Coho salmon (*O. kisutch*): Threatened Southern Oregon/Northern California

Coast (SONCC); endangered Central California Coast (CCC).

Steelhead (*O. mykiss*): Threatened Northern California (NC); threatened Central California Coast (CCC); threatened California Central Valley (CCV); threatened South-Central California Coast (S-CCC); endangered Southern California (SC).

North American green sturgeon (*Acipenser medirostris*): Threatened southern distinct population segment (sDPS).

Eulachon (*Thaleichthys pacificus*): Threatened sDPS.

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et. seq*) and regulations governing listed fish and wildlife permits (50 CFR 222-226). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received**Permit 1606-2R**

Zach Larson and Associates is seeking to renew for five years a research permit that currently allows them to take juvenile SONCC coho in the Smith River, Morrison Creek, Ranch Bar, Saxton Bar Alcove, and Yontocket Slough in Northern California. The research may also cause them to take adult eulachon—a species for which there are currently no ESA take prohibitions. The study's purpose is to establish baseline data for the comparability between pre-treatment and post-treatment project sites. Documenting salmonid and non-salmonid species presence and their habitat use in privately owned portions of the Smith River is also needed to identify further habitat enhancement opportunities in the Smith River. This research would benefit the affected species by informing future restoration designs, providing data to support future enhancement projects, and helping managers assess the status of

salmonid populations in the sloughs and alcoves in the Smith River estuary. The researchers propose to capture fish using beach seines. Captured fish would be captured, handled, and released. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

15573-3R

The Glenn-Colusa Irrigation District (GCID) is seeking to renew for five years a research permit that currently allows them to take juvenile CVSR chinook, SRWR chinook, CCV steelhead and juvenile green sturgeon in the Sacramento River, California. The study's purpose is to monitor restoration actions and to detect annular and cyclic population changes. The GCID project provides the longest and most complete anadromous fish data set on Sacramento River. As a result, the research would benefit the affected species by informing operational decisions for state and Federal water facilities and supplementing other out-migrant monitoring projects conducted in the Sacramento River Basin. The researchers propose to use a rotary screw trap to capture the targeted fish. They would then be anesthetized, identified to species, measured, have a tissue sample taken for genetic analysis (fin clip and scales), and allowed to recover in cool, aerated water before being released back to the stream. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

15730-2R

The Salmon Protection and Watershed Network (SPAWN) is seeking to renew for five years a research permit that currently allows them to take spawned adult carcasses and juvenile CCC coho, CC chinook and CCC steelhead in Lagunitas Creek and tributaries, California. The study's purpose is to provide baseline data on habitat and juvenile and adult salmon abundance throughout the species' range for CCC coho. The research would benefit the affected species by providing data to inform future research, restoration, and conservation efforts. The researchers propose to use fyke nets to capture juvenile fish and observe adult fish during spawning surveys. Captured fish would be anesthetized, identified to species, measured, PIT tagged, have a tissue sample taken for genetic analysis (fin clip and scales), and allowed to recover in cool, aerated water before being released back to the stream. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.
