is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. A reply will be sent during normal business hours.

SUPPLEMENTARY INFORMATION: The lessee agreed to the amended lease terms for rentals and royalties at rates of \$10 per acre, or fraction thereof, per year and 16 ²/₃ percent, respectively. The lessee has paid the required \$500 administrative fee and the \$159 cost of publishing this notice. The lessee met the requirements for reinstatement of the lease per Sec. 31(d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188). The BLM proposes to reinstate the lease effective October 1, 2016, under the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Authority: 30 U.S.C. 188 and 43 CFR 3108.2–3.

Chris Hite

Chief, Branch of Fluid Minerals Adjudication. [FR Doc. 2018–05383 Filed 3–15–18; 8:45 am] BILLING CODE P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[16X LLNMA01400 L12320000.AL0000 LVRDNM030000]

Notice of Closure, Kasha-Katuwe Tent Rocks National Monument

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Temporary Closure.

SUMMARY: Notice is hereby given that under the authority of the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Kasha-Katuwe Tent Rocks Resource Management Plan (RMP), Presidential Proclamation 7394, and other authorities, the Kasha-Katuwe Tent Rocks National Monument (Monument) will be temporarily closed to the public on twelve days each year, to allow for Pueblo de Cochiti cultural observances.

DATES: The temporary closure will be in effect beginning April 16, 2018. The closure will remain in effect for 24 months upon publication in the Federal Register. The temporary closure dates are as follows: New Year's Day (January 1); January 6; Friday before Easter; Easter Sunday; Monday after Easter Sunday; May 3; July 13; July 14; July 25; November 1; Thanksgiving Day; and Christmas Day. These temporary closures are compliant with the Monument RMP and Presidential Proclamation 7394.

FOR FURTHER INFORMATION CONTACT:

Danita Burns, District Manager, Bureau of Land Management Albuquerque District Office, 100 Sun Avenue NE, Suite 330, Pan American Building, Albuquerque, New Mexico 87109; 505–761–8700.

SUPPLEMENTARY INFORMATION: The BLM will post temporary closure signs a week prior to a closure at the main entry to the Monument. In addition, a temporary closure notice with all applicable dates will be posted on the BLM website: https://www.blm.gov/ nlcs web/sites/nm/st/en/prog/NLCS/ KKTR NM.html. Presidential Proclamation 7394 designated the Monument on January 17, 2001, to provide opportunities for visitors to observe, study, and experience the geologic processes and cultural and biological objects of interest found in the area, as well as to protect these resources.

Closure: During the temporary closure dates listed above, public access is prohibited.

Exceptions: The temporary closure order does not apply to members of the Pueblo de Cochiti participating in or observing religious and/or cultural practices; or persons performing authorized BLM planning, administrative, maintenance, and/or emergency or law enforcement activities.

Penalties: Any person who violates this temporary closure or these restrictions may be tried before a United States Magistrate and fined in accordance with 18 U.S.C. 3571, imprisoned no more than 12 months under 43 U.S.C. 1733(a) and 43 CFR 8360.07, or both. In accordance with 43 CFR 8365.17, state or local officials may also impose penalties for violations of New Mexico law.

During these closure dates only BLM planning, administrative, and maintenance activities will be authorized, and no public access will be granted.

Authority: FLPMA, the Kasha-Katuwe Tent Rocks RMP, Presidential Proclamation 7394, 43 CFR 8364.1, and 43 U.S.C. 1701 *et seq.*

Notice of Availability of the Final Environmental Impact Statement To Address the Presence of Wolves at Isle Royale National Park, Michigan

AGENCY: National Park Service, Interior. **ACTION:** Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final Environmental Impact Statement (EIS) to address the presence of wolves at Isle Royale National Park.

DATES: The NPS will execute a Record of Decision (ROD) no sooner than 30 days from the date of publication by the U.S. Environmental Protection Agency of the notice of filing of the Final EIS in the **Federal Register**.

ADDRESSES: An electronic copy of the final EIS/plan will be available for public review at http://parkplanning.nps.gov/isrowolves. A limited number of hard copies will be available at Park Headquarters, 800 East Lakeshore Drive, Houghton, Michigan 49931–1896.

FOR FURTHER INFORMATION CONTACT:

Superintendent Phyllis Green, Isle Royale National Park, ISRO Wolves, 800 East Lakeshore Drive, Houghton, Michigan 49931–1896, or by telephone at (906) 482–0984.

SUPPLEMENTARY INFORMATION: Pursuant to the National Environmental Policy Act, 43 U.S.C. 4321 et seq., the NPS announces the availability of the Final EIS. The final EIS/plan responds to, and incorporates where appropriate, agency and public comments received on the draft EIS/plan, which was available for public review from December 16, 2016 to March 15, 2017. Two public meetings and two webinars were held from February 14 through February 21, 2017 to gather input on the draft EIS/plan. During the public comment period, 4916 pieces of correspondence were received. NPS responses to agency and public comments are provided in Appendix B of the final EIS/plan available at http://parkplanning.nps. gov/isrowolves.

This final EIS/plan evaluates the impacts of the no-action alternative (Alternative A) and three action alternatives (Alternatives B, C, and D). Alternative B is the preferred alternative and the environmentally preferable alternative.

Alternative A would continue existing management practices and assume no

new management actions would be implemented beyond those available at the outset of the wolf planning process. Wolves may arrive or depart independently via an ice bridge. Under Alternative A, wolves would not be introduced by management to Isle Royale National Park.

Ťhe action alternatives include the capture and relocation of wolves from the Great Lakes Region to Isle Royale National Park. NPŠ would target wolves for relocation that are known to feed on moose as one of their prey sources, are in good health with no apparent injuries, and have the appropriate genetic diversity to sustain a viable population on the island. Capture and relocation efforts would take place between late fall and late winter. All of the action alternatives include monitoring which could include radio or GPS collar tracking from ground and air, scat sample collection, visual observations, and other methodology as funding is available.

Under the preferred alternative, between 20 and 30 wolves with a wide genetic diversity would be introduced to the island. Wolves may be supplemented as needed up to the third year after initial introduction. After the third year, should an unforeseen event occur that impacts the wolf population, such as a mass die-off or introduction of disease, and the goals of the alternative are not being met due to this event, wolves may be supplemented for an additional two years. No additional wolves would be brought to the island after five years from date of initial introduction.

Alternative C would involve the initial introduction of between 6 and 15 wolves. The NPS would bring wolves to the island as often as needed in order to maintain a population of wolves on the island for at least the next 20 years. Under this alternative, additional wolves may be brought based on one or more resource indicators that could include genetic health of the wolves, health of the ecosystem, and prey species population trends.

Under Alternative D, the NPS would not take immediate action and would continue current management, allowing natural processes to continue. This alternative is meant to allow the study of island ecosystem changes to continue without an apex predator and action would only be taken should the weight of evidence suggest an apex predator is necessary to ecosystem function.

Resource indicators, such as population size and growth rate of moose would be used to determine if and when wolf introduction actions should be taken. If the weight of evidence indicates wolf

introduction actions should be taken, NPS would follow procedures outlined within Alternative C.

Authority

The authority for publishing this notice is 40 CFR 1506.6.

Dated: March 8, 2018.

Notice of Availability of the Final Archeological Resources Management Plan/Environmental Impact Statement, Knife River Indian Villages National Historic Site, North Dakota

AGENCY: National Park Service. **ACTION:** Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final Archeological Resources Management Plan/Environmental Impact Statement (Final Plan/EIS), Knife River Indian Villages National Historic Site, North Dakota.

DATES: The NPS will execute a Record of Decision no sooner than 30 days from the date that the US Environmental Protection Agency publishes the Notice of Availability of the Final Plan/EIS in the **Federal Register**.

ADDRESSES: A limited number of hard-copies of the Final Plan/EIS may be picked up in-person or may be obtained by making a request in writing to Knife River Indian Villages National Historic Site, PO Box 9, Stanton, North Dakota 58571. The document is also available on the internet at the NPS Planning, Environment, and Public Comment website at: http://parkplanning.nps.gov/KNRIfinalEIS.

FOR FURTHER INFORMATION CONTACT: Superintendent, Brenda Todd, may be

Superintendent, Brenda Todd, may be reached at this address above, by telephone at (701) 745–3300 or via email at *Brenda_Todd@nps.gov*.

SUPPLEMENTARY INFORMATION: The NPS announces the availability of the Final Plan/EIS. This process has been conducted pursuant to the National Environmental Policy Act (NEPA) (42 United States Code 4321 *et seq.*) and the regulations of the US Department of the Interior (43 Code of Federal Regulations [CFR] part 46). The purpose of the plan is to provide a management framework

for proactive, sustainable archeological resource protection for the next 30 years. The NPS has identified four major threats to the park's archeological resources: Riverbank erosion, burrowing mammals, vegetation encroachment and the location of park infrastructure. Over the past few decades, village remnants and archeological sites adjacent to the Knife River have experienced measurable erosion. In addition, northern pocket gophers and the encroachment of woody and overgrown vegetation have displaced soil and artifacts from chronologically stratified deposits. Under the preferred alternative, these threats would be addressed following an adaptive management framework designed to detect changes to important indicators and provide park managers tools to manage them.

The preferred alternative also calls for the relocation of the park maintenance facility. The maintenance facility is located on the edge of the Big Hidatsa Village site, a designated National Historic Landmark and sacred site of the Mandan, Hidatsa, and Arikara Nation (MHA Nation). If off-site space is available and cost effective, the maintenance facility would be relocated outside the park. If suitable property outside the park is unavailable or cost prohibitive the NPS intends to relocate and construct the maintenance facility within the park.

Similarly, the preferred alternative calls for the relocation of the museum collections storage facility if current efforts to stop water infiltration are unsuccessful. The museum collections storage facility, located in the basement of the visitor center, has experienced water leaks since construction was completed in 1992. A project is underway to waterproof the exterior of the building. If efforts fail, the museum collections storage facility would be moved to a suitable location in consultation with the MHA Nation.

Notice of availability of the Draft Plan/EIS was published in the Federal Register on November 4, 2016 (81 FR 214), and the NPS provided the public with 60 days to review and comment on the draft document. The NPS also held public meetings in Stanton, North Dakota, and Bismarck, North Dakota, to facilitate public understanding of the document and provide opportunity for public comment. Public comments informed the NPS analysis of alternatives in the Final Plan/EIS. A summary of the public comments received, and NPS responses to those comments are addressed in chapter 5 of the Final Plan/EIS.
