The Commission will revise appropriate privacy requirements as necessary to include any entities and information added to the online public file in this proceeding.

Nature and Extent of Confidentiality: Most of the documents comprising the public file consist of materials that are not of a confidential nature.

Respondents complying with the information collection requirements may request that the information they submit be withheld from disclosure. If confidentiality is requested, such requests will be processed in accordance with the Commission's rules, 47 CFR 0.459.

In addition, the Commission has adopted provisions that permit respondents subject to the information collection requirement for Shared Service Agreements to redact confidential or proprietary information from their disclosures.

Needs and Uses: The information collection requirements included under this OMB Control Number 3060-0214, requires commercial broadcast stations to maintain for public inspection a file containing the material set forth in 47 CFR 73.3526.

This revised collection reflects the burden associated with the Shared Service Agreement disclosure requirements adopted in the *2014 Quadrennial Regulatory Review* (81 FR 76220, Nov. 1, 2016, FCC 16-107, rel. Aug. 25, 2016) and affirmed in the *2014 Quadrennial Regulatory Review Order on Reconsideration* (83 FR 733, Jan. 8, 2018, FCC 17-156, rel. Nov. 20, 2017). The collection requires commercial television stations to place in their online public inspection file a copy of every Shared Service Agreement for the station (with the substance of oral agreements reported in writing), regardless of whether the agreement involves commercial television stations in the same market or in different markets, with confidential or proprietary information redacted where appropriate. For purposes of this collection, a Shared Service Agreement is any agreement or series of agreements in which (1) a station provides any station-related services, including, but not limited to, administrative, technical, sales, and/or programming support, to a station that is not directly or indirectly under common de jure control permitted under the Commission's regulations; or (2) stations that are not directly or indirectly under common de jure control permitted under the Commission's regulations collaborate to provide or enable the provision of station-related services, including, but not limited to, administrative, technical, sales, and/or programming support, to one or more of the collaborating stations. For purposes of this collection, the term "station" includes the licensee, including any subsidiaries and affiliates, and any other individual or entity with an attributable interest in the station.

This information collection requirement will provide the Commission and the public with more comprehensive information about the prevalence and content of Shared Service Agreements between television stations, which will improve the Commission's and the public's ability to assess the potential impact of these agreements on the Commission's rules and policies.

The information collection requirements contained under 47 CFR

73.1212, 73.3527, 73.1943 and 76.1701 are still a part of the information collection and remain unchanged since last approved by OMB.
