

Retirement Income

Over the last 40 years, defined contribution retirement plans have become increasingly common while defined benefit plans (such as pensions) have become less so. Federal surveys have lagged in addressing these newer forms of retirement income and subsequently underreport retirement income. The Retirement, Survivor, and Disability Income question was changed to improve income reporting, increase item response rates, reduce reporting errors, and update questions on retirement income and the income generated from retirement accounts and all other assets in order to better measure retirement income data. The question was expanded to ask about “retirement income, pensions, survivor or disability income.” In addition, the instructions that accompany the question were expanded to note that income from “a previous employer or union, or any regular withdrawals or distributions from IRA, Roth IRA, 401(k), 403(b) or other accounts specifically designed for retirement” should be included.

Relationship

For several years, the Census Bureau has been testing revised relationship questions to improve the estimates of coupled households. The 1990 Census first introduced “Unmarried partner” as a response category to the Relationship to Householder question. The 2000 and 2010 Censuses built upon this work, changing the processing of responses to the Relationship question to more accurately represent same-sex couples. The Census Bureau discovered a statistical error in the 2010 Census data that resulted from opposite-sex couples mismarking their sex. This error had the potential to inflate the estimates of same-sex, married couple households. The Census Bureau released a set of modified state-level, same-sex household estimates from the 2010 Census because of this error, and also began new research efforts to improve the Relationship question.

The Relationship question has been revised to improve measurement of same-sex couples. The existing “Husband or wife” and “Unmarried partner” response categories were each split into two versions: “Opposite-sex husband/wife/spouse,” “Opposite-sex unmarried partner,” “Same-sex husband/wife/spouse,” and “Same-sex unmarried partner.” Additionally, the two unmarried partner categories were moved from near the end of the list of response options to near the beginning, immediately after the husband/wife/

spouse options. An automated relationship/sex consistency check will be included in electronic instruments to provide respondents an opportunity to change their sex or relationship responses when there is an inconsistency in the reported sex of an individual and whether their relationship was reported as “Opposite-sex” or “Same-sex” husband/wife/spouse or unmarried partner. This check reduces the inconsistency in responses and improves the quality of the relationship data. The category “Roomer or boarder” has been dropped from the Relationship question.

Race and Hispanic Origin

The 2016 ACS Content Test served as an operational test of the race and ethnicity questions that were previously tested on the 2015 National Content Test (NCT). Recommendations about the race and ethnicity questions adopted for the 2020 Census and production ACS were based on the results of the census tests and decisions made in consultation with OMB; the 2016 ACS Content Test provided an opportunity to test data collection modes and examine other data not available in the 2015 NCT. The 2016 ACS Content Test evaluated interviewer-administered collection modes, assessed the race and ethnicity questions against demographic and socioeconomic data, and separately compared the race and ethnicity results to data from the ancestry question. In 2020 or later, the ACS will adopt the final version of the race and Hispanic origin questions that are implemented for the 2020 Census.

Affected Public: Individuals or households.

Frequency: Response to the ACS is on a one-time basis.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13, United States Code, Sections 141, 193, and 221.

Carbon and Alloy Steel Wire Rod From the Republic of Korea: Final Affirmative Determination of Sales at Less Than Fair Value and Final Negative Determination of Critical Circumstances

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that imports of carbon and alloy steel wire rod (wire rod) from the Republic of Korea (Korea) are being, or are likely to be, sold in the United States at less than fair value (LTFV). In addition, we determine that critical circumstances do not exist with respect to imports of the subject merchandise. The period of investigation (POI) is January 1, 2016, through December 31, 2016.

DATES: Applicable March 28, 2018.

FOR FURTHER INFORMATION CONTACT: Lingjun Wang, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2316.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the *Preliminary Determination* of sales of wire rod from Korea at LTFV in the **Federal Register** on October 31, 2017.¹ On November 7, 2017, Commerce postponed the final determination of this investigation.² On November 28, 2017, Commerce amended the *Preliminary Determination*.³ Commerce exercised its discretion to toll deadlines affected by the closure of the Federal Government from January 20 through 22, 2018. If the new deadline falls on a non-business day, in accordance with Commerce's

practice, the deadline will become the next business day. The revised deadline for the final determination of this investigation is now March 19, 2018.⁴

A summary of the events that occurred since the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the accompanying Issues and Decision Memorandum, which is adopted by this notice.⁵

Scope of the Investigation

The product covered by this investigation is wire rod from Korea. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

During the course of this investigation, Commerce received scope comments from interested parties. Prior to the *Preliminary Determination*, Commerce issued a Preliminary Scope Decision Memorandum to address these comments.⁶ Since the *Preliminary Determination*, POSCO, British Steel, and the petitioners filed scope case and rebuttal briefs.⁷ On November 20, 2017, we issued the Final Scope Memorandum in which we did not change the scope of this investigation.⁸

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues

and Decision Memorandum. A list of these issues is attached to this notice at Appendix II. The Issues and Decision Memorandum is a public document, and is on file electronically *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Verification

As provided in section 782(i) of the Tariff Act of 1930, as amended (the Act), in November 2017, we verified the sales and cost information reported by POSCO for use in our final determination. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by POSCO.⁹

Changes Since the Preliminary Determination

Based on our analysis of comments received and our findings at verification, we made certain changes to the margin calculation for POSCO. For a discussion of these changes, see the "Margin Calculation" section of the Issues and Decision Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters shall be equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding rates that are zero, *de minimis* margins or determined entirely under section 776 of the Act. POSCO is the only respondent for which Commerce calculated an estimated weighted-average dumping margin that is not zero, *de minimis*, or based entirely on

facts otherwise available. Therefore, for purposes of determining the "all-others" rate and pursuant to section 735(c)(5)(A) of the Act, we are using the estimated weighted-average dumping margin calculated for POSCO, as referenced in the "Final Determination" section below. This rate is 41.10 percent.

Final Negative Determination of Critical Circumstances

For the *Preliminary Determination*, Commerce preliminarily found that critical circumstances do not exist with respect to imports of wire rod from POSCO and "all other" producers and exporters of subject merchandise.¹⁰ In this final determination, Commerce continues to find that, in accordance with 735(a)(3) of the Act, critical circumstances do not exist for POSCO and "all other" producers and exporters in this investigation. A discussion of the determination can be found in the "Critical Circumstances" section of the Issues and Decision Memorandum.

Final Determination

The final estimated weighted-average dumping margins are as follows:

Exporter/producer	Estimated weighted-average dumping margin (percent)
POSCO	41.10
All-Others	41.10

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, for this final determination, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of wire rod from Korea, as described in Appendix I to this notice, which were entered, or withdrawn from warehouse, for consumption on or after October 31, 2017, the date of publication in the **Federal Register** of the affirmative *Preliminary Determination*.

Furthermore, Commerce will instruct CBP to require a cash deposit for such entries of merchandise. Pursuant to section 735(c)(1)(B)(ii) of the Act, CBP shall require a cash deposit equal to the weighted-average amount by which

normal value exceeds U.S. price, as follows: (1) For POSCO, the cash deposit rate will be equal to the estimated weighted-average dumping margin which Commerce determined in this final determination; (2) if the exporter is not a firm identified in this investigation but the producer is, then the cash deposit rate will be equal to the estimated weighted-average dumping margin established for the producer of the subject merchandise; (3) the cash deposit rate for all other producers or exporters will be 41.10 percent, as discussed in the "All-Others Rate" section, above.

The instructions suspending liquidation will remain in effect until further notice.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the U.S. International Trade Commission (ITC) of our final determination of sales at LTFV and final negative determination of critical circumstances for Korea. Because Commerce's final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports, or sales (or the likelihood of sales) for importation of wire rod from Korea no later than 45 days after this final determination, in accordance with section 735(b)(2) of the Act. If the ITC determines that such injury does not exist, the proceeding will be terminated and all cash deposits posted will be refunded or cancelled. If the ITC determines that such injury exists, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the "Continuation of Suspension of Liquidation" section.

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order,

is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated: March 19, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The products covered by this investigation are certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, less than 19.00 mm in actual solid cross-sectional diameter. Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the Harmonized Tariff Schedule of the United States (HTSUS) definitions for (a) stainless steel; (b) tool steel; (c) high-nickel steel; (d) ball bearing steel; or (e) concrete reinforcing bars and rods. Also excluded are free cutting steel (also known as free machining steel) products (*i.e.*, products that contain by weight one or more of the following elements: 0.1 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorus, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium). All products meeting the physical description of subject merchandise that are not specifically excluded are included in this scope.

The products under investigation are currently classifiable under subheadings 7213.91.3011, 7213.91.3015, 7213.91.3020, 7213.91.3093, 7213.91.4500, 7213.91.6000, 7213.99.0030, 7227.20.0030, 7227.20.0080, 7227.90.6010, 7227.90.6020, 7227.90.6030, and 7227.90.6035 of the HTSUS. Products entered under subheadings 7213.99.0090 and 7227.90.6090 of the HTSUS also may be included in this scope if they meet the physical description of subject merchandise above. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.
