On January 13, 2017 a Draft EIR/EIS was released for public comment. NOAA and CPUC received approximately 82 comment letters, two form letter submissions, as well as 18 oral comments from the public hearing. Public and agency comments on the Draft EIR/EIS did not result in finding any impacts more adverse than disclosed in the DEIR/EIS. Furthermore, there were no substantial changes to the proposed project relevant to environmental concerns or significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts. All comments are available and addressed in the FEIR/EIS. In addition, the complete written comments are available for review at: <https://www.regulations.gov/docket?D=NOAA-NOS-2016-0156>.

As part of the NEPA process, NOAA has completed federal interagency consultation with the National Marine Fisheries Service under section 7 of the Endangered Species Act and under the Magnuson Stevens Fishery Conservation and Management Act for Essential Fish Habitat. Consultation with the Fish and Wildlife Service under section 7 of the Endangered Species Act is ongoing. NOAA has also completed federal interagency consultation under section 106 of the National Historic Preservation Act. With respect to the Coastal Zone Management Act, Subpart D of the federal consistency regulations governs consistency review for activities requiring a federal license or permit. This section requires the applicant to conduct any required consistency review with the state coastal commission, and provide the Federal permitting agency with a consistency certification. CalAm is currently in discussions with the California Coastal Commission. All final consultation documents will be made available on the website listed above. Finally, the United States Department of the Army and the United States Army Corps of Engineers were cooperating agencies on this FEIR/FEIS.

DEPARTMENT OF DEFENSE

Department of the Army

Programmatic Environmental Assessment for Infantry Brigade Combat Team Conversion to an Armored Brigade Combat Team and Stationing

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army has completed a Programmatic Environmental Assessment (PEA) analyzing the proposed conversion of an Infantry Brigade Combat Team (IBCT) at Fort Carson, Colorado, into an Armored Brigade Combat Team (ABCT) and the stationing of that newly converted ABCT at one of five Army installations: Fort Carson, Colorado; Fort Bliss, Texas; Fort Hood, Texas; Fort Riley, Kansas; or Fort Stewart, Georgia. The Army is making the PEA and a draft Finding of No Significant Impact (FNSI) available for public comment. The PEA does not identify significant environmental impacts from any of the alternatives

under the proposed action. The draft FNSI concludes that preparation of an environmental impact statement is not required, and therefore will not be prepared.

DATES: The public comment period will end 30 days after publication of the Notice of Availability in the **Federal Register** by the Department of the Army.

ADDRESSES: Written comments should be sent to: U.S. Army Environmental Command, ATTN: Public Comments, 2450 Connell Road (Building 2264), Joint Base San Antonio—Fort Sam Houston, TX 78234-7664; or email: usarmy.jbsa.aec.nepa@mail.mil.

FOR FURTHER INFORMATION CONTACT:

Please contact the U.S. Army Environmental Command Public Affairs Office, (210) 466-1590 or toll-free 855-846-3940, or email at usarmy.jbsa.aec.nepa@mail.mil.

SUPPLEMENTARY INFORMATION: The Army has prepared this PEA in accordance with the National Environmental Policy Act of 1969 (NEPA); the regulations issued by the Council on Environmental Quality, 40 Code of Federal Regulations (CFR) Parts 1500-1508 (40 CFR 1500-1508); and the Army's procedures for implementing NEPA, published in 32 CFR 651, Environmental Analysis of Army Actions.

This PEA analyzes the proposed conversion of an IBCT into an ABCT to increase the Active Army's ABCT capacity by one brigade (from 10 to 11), increasing the Total Army's number of ABCTs from 15 to 16 (including Army National Guard units), and to station that new ABCT at an existing installation in the United States. To achieve the increase in ABCTs, the proposed action is to convert Fort Carson's 2nd Infantry Brigade Combat Team, (4th Infantry Division IBCT) into the 16th ABCT. The need for this action is to reduce the shortfall in Total Army ABCT capacity to meet contingency operational demands. The Army's ability to maintain a continuous and ready ABCT presence to deter threats requires the conversion to take place in fiscal year 2019.

The ABCT consists of 4,182 Soldiers and equipment includes 87 M1 Abrams Tanks, 138 Bradley Infantry Fighting Vehicles, and a variety of other weapons and vehicles.

The ABCT stationing will occur at one of the following installations: Fort Carson, Colorado (Alternative 1); Fort Bliss, Texas (Alternative 2); Fort Hood, Texas (Alternative 3); Fort Riley, Kansas (Alternative 4); or Fort Stewart, Georgia (Alternative 5).

This PEA will provide the decision-maker with important information
