BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 2 and 90

[DA 18-282]

Modification of Rules To Codify New Procedure for Non-Federal Public Safety Entities To License Federal Interoperability Channels

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document adopts changes to the Commission's rules to conform them to a streamlining modification recently made by the National Telecommunications and Information Administration (NTIA). NTIA streamlined the coordination process which enables the Commission to grant licenses to non-federal public safety entities who seek to operate on forty federal government interoperability channels over which NTIA has jurisdiction.

DATES: Effective June 6, 2018, except for the addition of § 90.25, which contains a new information collection that requires review by the Office of Management and Budget under the Paperwork Reduction Act of 1995. The FCC will publish a document in the **Federal Register** announcing the effective date of that rule section.

FOR FURTHER INFORMATION CONTACT: Brian Marengo, Policy and Licensing Division, Public Safety and Homeland Security Bureau, (202) 418-0838.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Order, DA 18-282, released on March 22, 2018. The complete text of this document is available for inspection and copying during normal business hours in the FCC Reference Information Center, Portals II, 445 12th Street SW, Room CY-A257, Washington, DC 20554. To

request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to FCC504@fcc.gov or call the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY). The complete text of this document is also available on the Commission's website at <http://www.fcc.gov>.

1. NTIA designated forty channels for interoperability communications among federal agencies and between federal agencies and non-federal entities with which federal agencies have a requirement to interoperate. A non-federal public safety entity may communicate on the federal interoperability channels for joint federal/non-federal operations, provided it first obtains a license from the Commission authorizing use of the channels.

2. In September 2015, NTIA streamlined the process which enables non-federal agencies to obtain an FCC license to use the federal interoperability channels. Under the new process, the Statewide Interoperability Coordinator (SWIC) or state appointed official in each state is responsible for coordinating access to the federal interoperability channels by non-federal public safety entities. Each SWIC/official will sign an agreement with a federal user with a valid assignment. The agreement may specify which federal interoperability channels are available for use in a particular state or territory and establish the conditions for their use by non-federal public safety entities.

3. Once the federal-state agreement for a given state is signed, non-federal public safety entities in that state may file an application with the Commission to license the designated federal interoperability channels under the new streamlined process. Before filing with the Commission, a non-federal public safety entity seeking to license mobile and portable units on the federal government interoperability channels

must first obtain written concurrence from its SWIC/official. The non-federal agency must then include a copy of the written concurrence with its license application to the Commission.

4. NTIA's streamlined process eliminates the need for non-federal public safety entities to obtain written certification from a federal government agency and for the Commission to refer applications for the federal interoperability channels to the Interdepartment Radio Advisory Committee's (IRAC) Frequency Assignment Subcommittee for approval.

5. On March 22, 2018, the Public Safety and Homeland Security Bureau and the Office of Engineering and Technology, on delegated authority, jointly released an Order amending §§ 2.102(c)(4) and 90.173(c) and adopting new § 90.25 in order to conform the Commission's rules to the new streamlined process established by NTIA.

Procedural Matters

A. Paperwork Reduction Act of 1995 Analysis

6. The requirement in new § 90.25 that non-federal public safety agencies obtain written concurrence from the SWIC/official constitutes a new information collection subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. It will be submitted to the Office of Management and Budget (OMB) for review and public comment under section 3507(d) of the PRA.

7. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198 (see 44 U.S.C. 3506(c)(4)), the Commission's Public Safety and Homeland Security Bureau will seek specific comment on how it might further reduce the information collection burden for small business concerns with fewer than 25 employees.

B. Congressional Review Act

8. The Commission will not send a copy of this Order pursuant to the Congressional Review Act, see 5 U.S.C.

801(a)(1)(A), because the adopted rules are rules of agency organization, procedure, or practice that do not “substantially affect the rights or obligations of non-agency parties.

Ordering Clauses

9. Accordingly, *it is ordered*, pursuant to sections 4(i), 303(c) and 332 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(c), and 332, this *order is hereby adopted*.

10. *It is further ordered* that the rules and requirements adopted herein *will become effective* June 6, 2018, except for new § 90.25 that contains a new or modified information collection requirement that requires review by the OMB under the PRA. Section 90.25 *will become effective* after OMB review and approval, on the effective date specified in a notice that the Commission will publish in the **Federal Register** announcing such approval and effective date.

11. This action is taken under delegated authority pursuant to section 155(c) of the Communications Act of 1934, as amended, 47 U.S.C. 155(c) and §§ 0.31, 0.191, 0.241, and 0.392 of the Commission’s rules, 47 CFR 0.31, 0.191, 0.241, and 0.392.

Final Rules

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR parts 2 and 90 as follows.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

■ 1. The authority citation for part 2 continues to read as follows:

Authority: 47 U.S.C. 154, 302a, 303, and 336, unless otherwise noted.

■ 2. Amend § 2.102 by revising paragraph (c) to read as follows:

§ 2.102 Assignment of frequencies.

* * * * *

(c) Non-Federal stations may be authorized to use Federal frequencies in the bands above 25 MHz:

(1) If the Commission finds, after consultations with the appropriate Federal agency or agencies, that such use is necessary for coordination of Federal and non-Federal activities. Such operations must meet the following requirements:

(i) Non-Federal operation on Federal frequencies shall conform with the conditions agreed upon by the Commission and NTIA;

(ii) Such operations shall be in accordance with NTIA rules governing the service to which the frequencies involved are allocated;

(iii) Such operations shall not cause harmful interference to Federal stations and, should harmful interference result, that the interfering non-Federal operation shall immediately terminate; and

(iv) Non-Federal operation has been certified as necessary by the Federal agency involved and this certification has been furnished, in writing, to the non-Federal licensee with which communication is required; or

(2) Pursuant to the provisions of § 90.25 of this chapter, provided that such operations shall not cause harmful interference to Federal stations and, should harmful interference result, that the interfering non-Federal operation shall immediately terminate.

* * * * *

■ 3. Amend § 2.106 by revising pages 24 and 27 of the Table of Frequency Allocations, and by adding footnote US55 to the list of United States (US) Footnotes to read as follows:

§ 2.106 Table of Frequency Allocations.

US55 In the bands 162.0375–173.2 MHz and 406.1–420 MHz, the FCC may

authorize public safety applicants to use the 40 Federal Interoperability Channels that are designated for joint federal/non-federal operations for law enforcement, public safety, emergency response and disaster response in section 4.3.16 of the NTIA Manual, subject to the condition that that these non-Federal mobile (including portable) interoperability communications shall conform to the national plans specified therein, and in particular, shall not cause harmful interference to Federal stations. The procedure for authorizing such use is set forth in 47 CFR 90.25.

* * * * *

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

■ 4. The authority citation for part 90 continues to read as follows:

Authority: Sections 4(i), 11, 303(g), 303(r), and 332(c)(7) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 161, 303(g), 303(r), and 332(c)(7), and Title VI of the Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. 112–96, 126 Stat. 156.

■ 5. Add § 90.25 to subpart B to read as follows.

§ 90.25 Non-Federal Use of the Federal Interoperability Channels.

The Commission may authorize non-Federal licensees to operate mobile and portable radio units on the frequencies listed below in Tables 1 and 2, provided the applicant includes with its application to the Commission, written concurrence from the Statewide Interoperability Coordinator (SWIC) or state appointed official stating that the application conforms to the agreement with a federal agency with a valid assignment from the National Telecommunications and Information Administration.

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 171026999-8408-02]

RIN 0648-BH36

Fisheries Off West Coast States; Highly Migratory Fisheries; Amendment 4 to Fishery Management Plan for West Coast Highly Migratory Species Fisheries; Revisions to the Biennial Management Cycle

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: Based on recommendations from the Pacific Fishery Management Council (Council), NMFS is issuing regulations under the Magnuson-Stevens Fishery Conservation and Management Act (MSA) to implement Amendment 4 to the Fishery Management Plan for U.S. West Coast Highly Migratory Species (HMS FMP). The intent of Amendment 4 is to bring descriptions of the management context for HMS fisheries up to date, to better describe the Council's role in the process of making stock status determinations for highly migratory species (HMS), including the Council's evaluations of the best scientific information available (BSIA), and to change the schedule of the Council's three-meeting biennial management cycle for HMS stocks. This rule updates and amends the descriptions of biennial management cycle activities in the regulations for the HMS FMP to allow the Council to shift the schedule of Council meetings for the consideration of HMS stock status updates and management recommendations in response to instances in which a stock or stocks is determined to be subject to

overfishing, overfished, or both. The changes to the Council's biennial management cycle activities and the schedule are intended to better streamline international and domestic management processes for HMS. This rule is administrative in nature and is not expected to affect activities authorized under the FMP or harvest levels of HMS.

DATES: This rule is effective June 6, 2018.

ADDRESSES: Copies of the Amendment 4, the Regulatory Impact Review (RIR) and other supporting documents are available via the Federal eRulemaking Portal: <http://www.regulations.gov>, docket NOAA-NMFS-2017-0138, or contact Amber Rhodes, NMFS West Coast Region, 562-980-3231, Amber.Rhodes@noaa.gov or Heidi Taylor, NMFS West Coast Region, 562-980-4039, Heidi.Taylor@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Amber Rhodes, NMFS, 562-980-3231, Amber.Rhodes@noaa.gov or Heidi Taylor, NMFS, 562-980-4039, Heidi.Taylor@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

In a January 23, 2018, Notice of Availability (83 FR 3108), NMFS announced that the Council submitted Amendment 4 to the Secretary of Commerce for approval, and requested comments on Amendment 4. The 60-day public comment period ended on March 26, 2018. NMFS approved Amendment 4 to the HMS FMP on April 24, 2018.

On February 27, 2018, NMFS published a proposed rule in the **Federal Register** (83 FR 8414) to implement Amendment 4 by revising regulations at 50 CFR 660.709 contingent upon approval of Amendment 4. The proposed rule contains additional background information on Amendment 4. The 45-day public comment period for the proposed rule closed on April 13, 2018.

Amendment 4 is intended to better align the Council's biennial management cycle for HMS with the timing of international stock assessments and stock status determinations for these species. The changes to the current biennial management cycle included in Amendment 4 and implemented by this rule would allow the Council to streamline domestic and international management activities, such as stock assessment and biological reference point reviews, and to better align schedules to meet statutory timelines in section 304(e) and (i) of the MSA (16

U.S.C. 1854(e) and (i)) for making recommendations for domestic regulations and international measures when stocks are determined to be overfished or subject to overfishing. Additionally, this rule would ensure that the meeting schedule is not codified in regulations, thus allowing the Council to make changes to the schedule for its meetings in the biennial management cycle, consistent with the HMS FMP, without needing to seek a change in the regulatory language. Allowing the Council to make this type of adjustment without seeking a regulatory change improves the efficiency with which future changes to the biennial management cycle can be implemented.

Content of Regulations

This rule amends 50 CFR 660.709 to remove a specific schedule for the Council's biennial management cycle (*i.e.*, during June, September, and November Council meetings) from codified text and replace it with a reference to a biennial management cycle schedule specified in the FMP (*i.e.*, during September, November, and March Council meetings under Amendment 4). Thus, future schedule changes to the Council's biennial management cycle will not require a rulemaking. The rule also provides the Council's Science and Statistical Committee greater discretion over whether to review, and make recommendations on, the estimates in the annual stock assessment and fishery evaluation report.

NMFS did not make any changes in this final rule to the regulatory text of the proposed rule.

Public Comments and Responses

A total of 13 comments were received in response to either the Notice of Availability for the Amendment or the proposed rule. All comments remarked solely on issues beyond the scope of the proposed rule and lacked any specific remarks on NMFS' decision to approve, disapprove, or partially approve the amendment. Because 10 of the comments contained inappropriate content, NMFS made only three of the comments available on the Federal eRulemaking Portal (see **ADDRESSES**).

Classification

The Administrator of the West Coast Region, NMFS, determined that Amendment 4 to the HMS FMP and this final rule are necessary for the conservation and management of U.S. West Coast HMS fisheries and are consistent with the MSA and other applicable laws.
