

number of each such advertiser. These lists shall be made available for public inspection.

47 CFR 73.1212(e) states that, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, the licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter in its public file. Pursuant to the changes contained in 47 CFR 73.1212(e) and 47 CFR 73.3526(e)(19), this list, which could contain personally identifiable information, would be located in a public inspection file to be located on the Commission's website instead of being maintained in the public file at the station. Burden estimates for this change are included in OMB Control Number 3060-0214.

47 CFR 76.1615 states that, when a cable operator engaged in origination cablecasting presents any matter for which money, service or other valuable consideration is provided to such cable television system operator, the cable television system operator, at the time of the telecast, shall identify the sponsor. Under this rule section, when advertising commercial products or services, an announcement stating the sponsor's corporate or trade name, or the name of the sponsor's product is sufficient when it is clear that the mention of the name of the product constitutes a sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds.

47 CFR 76.1715 state that, with respect to sponsorship announcements that are waived when the broadcast/origination cablecast of "want ads" sponsored by an individual, the licensee/operator shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

OMB Control Number: 3060-0580.

Title: Section 76.1710, Operator Interests in Video Programming.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 1,500 respondents; 1,500 responses.

Estimated Time per Response: 15 hours.

Frequency of Response: Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 22,500 hours.

Total Annual Cost: None.

Privacy Impact Assessment(s): No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality and respondents are not being asked to submit confidential information to the Commission.

Needs and Uses: The information collection requirements contained in 47 CFR 76.1710 require cable operators to maintain records in their public file for a period of three years regarding the nature and extent of their attributable interests in all video programming services. The records must be made available to members of the public, local franchising authorities and the Commission on reasonable notice and during regular business hours. The records will be reviewed by local franchising authorities and the Commission to monitor compliance with channel occupancy limits in respective local franchise areas.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1210]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the

information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before March 16, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A_Fraser@omb.eop.gov; and to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418-2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or

the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-1210.

Title: Wireless E911 Location

Accuracy Requirements.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; State, local or tribal governments.

Number of Respondents and Responses: 4,394 respondents; 29,028 responses.

Estimated Time per Response: 2–10 hours.

Frequency of Response:

Recordkeeping, on occasion; one-time; quarterly and semi-annual reporting requirements, and third-party disclosure requirements.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. Sections 1, 2, 4(i), 7, 10, 201, 214, 222, 251(e), 301, 302, 303, 303(b), 303(r), 307, 307(a), 309, 309(j)(3), 316, 316(a), and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 143,138 hours.

Total Annual Cost: No Cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is requesting that respondents submit confidential information to the Commission in the context of the test bed. Nationwide Commercial Mobile Radio Service (CMRS) providers must make data from the test bed available to small and regional CMRS providers so that the smaller providers can deploy technology throughout their networks that is consistent with a deployment that was successfully tested in the test bed. CMRS providers also may request confidential treatment of live 911 call data reports, but the Commission

reserves the right to release aggregate or anonymized data on a limited basis to facilitate compliance with its rules.

Needs and Uses: The Commission has developed a proposed reporting template to assist CMRS providers in submitting aggregate live 911 call data as required under Section 20.18(i)(3)(ii) of the rules and seeks Office of Management and Budget (OMB) approval of the proposed template. The Commission also is requesting OMB to extend its approval of these collections for an additional three years. The information collections are described below. The proposed reporting template for live 911 call data is described below in the discussion of Section 20.18(i)(3)(ii). The proposed template will not change the paperwork burden associated with this collection, and there is no change to any other reporting obligation in this collection.

The information sought in this collection is necessary and vital to the effective implementation of improved location accuracy, which will enable Public Safety Answering Points (PSAPs) to dispatch to and first responders to respond to emergencies.

Section 20.18(i)(2)(ii)(A) requires that, within three years of the effective date of rules, CMRS providers shall deliver to uncompensated barometric pressure data from any device capable of delivering such data to PSAPs. This requirement is necessary to ensure that PSAPs are receiving all location information possible to be used for dispatch. This requirement is also necessary to ensure that CMRS providers implement a vertical location solution in the event that the proposed “dispatchable location” solution does not function as intended by the three-year mark and beyond.

Section 20.18(i)(2)(ii)(B) requires that the four nationwide providers submit to the Commission for review and approval a reasonable metric for z-axis (vertical) location accuracy no later than 3 years from the effective date of rules. The requirement is critical to ensure that the vertical location framework adopted in the Fourth Report and Order is effectively implemented.

Section 20.18(i)(2)(iii) requires CMRS providers to certify compliance with the Commission's rules at various benchmarks throughout implementation of improved location accuracy. This requirement is necessary to ensure that CMRS providers remain “on track” to reach the goals that they themselves agreed to.

Section 20.18(i)(3)(i) requires that within 12 months of the effective date, the four nationwide CMRS providers must establish the test bed described in

the Fourth Report and Order, which will validate technologies intended for indoor location. The test bed is necessary for the compliance certification framework adopted in the Fourth Report and Order.

Section 20.18(i)(3)(ii) requires that beginning 18 months from the effective date of the rules, CMRS providers providing service in any of the six Test Cities identified by ATIS (Atlanta, Denver/Front Range, San Francisco, Philadelphia, Chicago, and Manhattan Borough of New York City) or portions thereof must collect and report aggregate data on the location technologies used for live 911 calls. Nationwide CMRS providers must submit call data on a quarterly basis; non-nationwide CMRS providers need only submit this data every six months. Non-nationwide providers that do not provide service in any of the Test Cities may satisfy this requirement by collecting and reporting data based on the largest county within the carrier's footprint. This reporting requirement is necessary to validate and verify the compliance certifications made by CMRS providers.

The Commission has developed a proposed reporting template to assist CMRS providers in collecting, formatting, and submitting aggregate live 911 call data in accordance with the requirements in the rules. The proposed template will also assist the Commission in evaluating the progress CMRS providers have made toward meeting the 911 location accuracy benchmarks. The proposed template is an Excel spreadsheet and will be available for downloading on the Commission's website. The Commission may also develop an online filing mechanism for these reports in the future.

Section 20.18(i)(4)(ii) requires that no later than 18 months from the effective date, each CMRS provider shall submit to the Commission a report on its progress toward implementing improved indoor location accuracy. Non-nationwide CMRS providers will have an additional 6 months to submit their progress reports. All CMRS providers shall provide an additional progress report no later than 36 months from the effective date of the adoption of this rule. The 36-month reports shall indicate what progress the provider has made consistent with its implementation plan.

Section 20.18(i)(4)(iii) requires that prior to activation of the NEAD but no later than 18 months from the effective date of the adoption of this rule, the nationwide CMRS providers shall file with the Commission and request approval for a security and privacy plan

for the administration and operation of the NEAD. This requirement is necessary to ensure that the four nationwide CMRS providers are building in privacy and security measures to the NEAD from its inception.

Section 20.18(i)(4)(iv) requires that before use of the NEAD or any information contained therein, CMRS providers must certify that they will not use the NEAD or associated data for any non-911 purpose, except as otherwise required by law. This requirement is necessary to ensure the privacy and security of any personally identifiable information that may be collected by the NEAD.

Section 20.18(j) requires CMRS providers to provide standardized confidence and uncertainty (C/U) data for all wireless 911 calls, whether from outdoor or indoor locations, on a per-call basis upon the request of a PSAP. This requirement will serve to make the use of C/U data easier for PSAPs.

Section 20.18(k) requires that CMRS providers must record information on all live 911 calls, including, but not limited to, the positioning source method used to provide a location fix associated with the call, as well as confidence and uncertainty data. This information must be made available to PSAPs upon request, as a measure to promote transparency and accountability for this set of rules.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1251]

Information Collection Approved by the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Federal Communications Commission (Commission) has received Office of Management and Budget (OMB) approval, on an emergency basis, for a new, one-time information collection pursuant to the Paperwork Reduction Act of 1995. An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid control

number. Comments concerning the accuracy of the burden estimates and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

FOR FURTHER INFORMATION CONTACT:

Contact Cathy Williams,
Cathy.Williams@fcc.gov, (202) 418-2918.

SUPPLEMENTARY INFORMATION: The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-1251.

OMB Approval Date: February 7, 2018.

OMB Expiration Date: February 28, 2021.

Title: Mobility Fund Phase II Challenge Process.

Form Number: N/A.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and

Responses: 500 respondents; 500 responses.

Estimated Time per Response: 204 hours for challengers; 71 for challenged parties.

Frequency of Response: One-time reporting requirement.

Total Annual Burden: 78,725 hours.

Total Annual Cost: None.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for the currently approved information collection is contained in sections 154, 254, and 303(r) of the Communications Act, as amended, 47 U.S.C. 4, 254, 303(r).

Nature and Extent of Confidentiality: To the extent the information submitted pursuant to this information collection is determined to be confidential, it will be protected by the Commission. If a respondent seeks to have information collected pursuant to this information collection withheld from public inspection, the respondent may request confidential treatment pursuant to section .459 of the Commission's rules for such information. See 47 CFR 0.459. *Privacy Act Impact Assessment:* No impact(s).

Needs and Uses: In 2011, the Commission established the Mobility Fund, which consists of two phases. Mobility Fund Phase I provided one-time universal service support payments to immediately accelerate deployment of mobile broadband services. MF-II will use a reverse auction to provide ongoing universal service support payments to continue to advance deployment of such services. In its February 2017 *Mobility Fund II Report and Order and Further Notice of*

Proposed Rulemaking (MF-II Report and Order and/or FNPRM) (FCC 17-11), the Commission adopted the rules and framework for moving forward expeditiously with the MF-II auction and stated that, prior to the auction, it would establish a map of areas presumptively eligible for MF-II support based on the most recently available FCC Form 477 mobile wireless coverage data, and provide a limited timeframe for parties to challenge those initial determinations during the pre-auction process. The Commission sought comment in the accompanying *Mobility Fund II FNPRM* on how to best design a robust, targeted MF-II challenge process that efficiently resolves disputes about the areas eligible for MF-II support.

In its August 2017 *Order on Reconsideration and Second Report and Order (Challenge Process Order)* (FCC 17-102), the Commission (1) reconsidered its earlier decision to use FCC Form 477 data to compile the map of areas presumptively eligible for MF-II support and decided it would instead conduct a new, one-time data collection with specified data parameters tailored to MF-II to determine the areas in which there is deployment of qualified LTE that will be used (together with high-cost disbursement data available from the Universal Service Administrative Company (USAC)) for this purpose, and (2) adopted a streamlined challenge process that will efficiently resolve disputes about areas deemed presumptively ineligible for MF-II support. The map of areas presumptively eligible for MF-II support will serve as the starting point for the challenge process pursuant to which an interested party (challenger) may initiate a challenge with respect to one or more areas initially deemed ineligible for MF-II support (*i.e.*, areas *not* listed on the Commission's map of areas presumptively eligible for MF-II support) and challenged parties can respond to challenges.

A challenger seeking to initiate a challenge of one or more areas initially deemed ineligible in the Commission's map of areas presumptively eligible for MF-II support may do via the online challenge portal developed by USAC for this purpose (the USAC portal). For each state, a challenger must (1) identify the area(s) it seeks to challenge, (2) submit detailed proof of a lack of unsubsidized, qualified 4G LTE coverage in each challenged area in the form of actual outdoor speed test data collected using the standardized parameters specified by the Commission in the *Challenge Process Order* and any other parameters the Commission or the
