SUPPLEMENTARY INFORMATION:

Background

The NSTS addresses the security of “transportation assets in the United States that . . . must be protected from attack or disruption by terrorist or other hostile forces. . . .” 49 U.S.C. 114(s)(3). The NSTS presents a forward-looking, risk-based plan to provide for the security and freedom of movement of people and goods while preserving civil rights, civil liberties, and privacy. It identifies objectives to enhance the security of transportation infrastructure, conveyances, workers, travelers, cargo, and operations.

Consistent with its authorities, TSA’s mission is to protect the nation’s transportation systems from acts of terrorism, while its vision is an agile security agency, embodied by a professional workforce, that engages its partners and the American people to outmatch a dynamic threat. The NSTS is an important part of fulfilling this mission. TSA leads the development of the NSTS through joint participation with the Department of Transportation and in consultation with government partners and industry owners and operators. The 2018 NSTS includes three objectives: (1) Manage risks to transportation systems from terrorist attacks and enhance system resilience, (2) enhance effective domain awareness of transportation systems and threats, and (3) safeguard privacy, civil liberties, and civil rights, and the freedom of movement of people and commerce.

Comments Invited

TSA is soliciting comments through this notice to enhance the scope of consultation on the 2020 NSTS. Under the statutory requirement to develop the NSTS, TSA is also required to consult with “Federal, State, and local agencies, tribal governments, private sector entities (including nonprofit employee labor organizations), institutions of higher learning, and other entities). See 49 U.S.C. 114(s)(7). TSA has consistently met that requirement through its regular stakeholder outreach efforts. For the 2020 NSTS, TSA is publishing this notice requesting comments to enhance input and ensure there are no untapped sources of information from governments, agencies, transportation-related associations, private sector entities, labor organizations, institutions of higher learning, and other entities beyond the scope of our normal interaction with stakeholders.

TSA is specifically requesting comments on issues that have the potential for significant impacts on the security and resilience of the transportation systems. Because the 2018 NSTS was delivered to Congress on April 4, 2018, the 2020 update will only require revisions to reflect recent changes in the risk environment. Respondents are asked to provide substantive revisions for any changes. We also request that with your comment submissions, you include your name, contact information, affiliation, and the mode or sector you are representing (if applicable). TSA will consider all comments received on or before the closing date for comments. Late-filed comments will be considered to the extent practicable.

Please consider the following in your review.

- The NSTS is a counterterrorism strategy, not an all-hazards plan.
- The NSTS addresses risk-based priorities to protect vital transportation assets from terrorist attack. Consistent with 49 U.S.C. 114(s)(3)(A), the scope of vital transportation assets relevant to the NSTS is defined by whether, in the interests of national security and commerce, the asset must be protected from attack or disruption by terrorists or other hostile forces.
- The strategic environment considers the risks (threats, vulnerabilities, and potential consequences) of a terrorist attack.

TSA is specifically interested in comments on the following issues:

- Does the 2018 NSTS adequately and accurately capture risk-based priorities that identify the types of activities modal security officials in Government and industry should pursue to manage terrorism risks?
- Do the goals aggregate the major elements of the vision into basic, all-encompassing buckets (e.g., “Manage Risks to Transportation Systems from Terrorist Attack and Enhance System Resilience” underneath the Vision of “A secure and resilient transportation system”)?
- Does the Path Forward address programmatic commitments needed to advance security of transportation assets and systems?

The most helpful comments reference a specific portion of the 2018 NSTS, explain the reason for any recommended change, and include supporting data, information, or authority that supports such a recommended change. HUD will obtain SSA data and make the results available to: (1) Program administrators such as public housing agencies (PHAs) and private owners and management agents (O/As) (collectively referred to as POAs) to enable them to verify the accuracy of income reported by the tenants (participants) of HUD rental assistance programs and (2) contract administrators (CAs) overseeing and monitoring O/A operations as well as independent public auditors (IPAs) that audit both PHAs and O/As.

The most recent renewal of the current matching agreement will expire on May 7, 2019.

DATES: The computer matching agreement (CMA) will become applicable at the later of the following two dates: May 8, 2019 or 30 days after the publication of this notice, unless comments have been received from interested members of the public requiring modification and republication of the notice. The matching program will continue for 18 months after the applicable date and may be extended for an additional 12 months, if the respective agency Data Integrity Boards (DIBs) determine that the conditions specified in 5 U.S.C. 552a(o)(2)(D) have been met.

SUPPLEMENTARY INFORMATION: This notice supersedes a similar notice published in the **Federal Register** on October 3, 2016, at 81 FR 68026. Administrators of HUD rental assistance programs rely upon the accuracy of tenant-reported income to determine participant eligibility for and level of, rental assistance. The computer matching program may provide indicators of potential tenant unreported or under-reported income, which will require additional verification to identify inappropriate or inaccurate rental assistance and may provide indicators for potential administrative or legal actions. The matching program will be carried out to detect inappropriate or inaccurate rental assistance under sections 221(d)(3), 221(d)(5), and 236 of the National Housing Act, the United States Housing Act of 1937, section 101 of the Housing and Community Development Act of 1965, section 202 of the Housing Act of 1959, section 811 of the Cranston-Gonzalez National Affordable Housing Act, the Native American Housing Assistance and Self-Determination Act of 1996, and the Quality Housing and Work Responsibility Act (QHWRA) of 1998. On March 11, 2009, Section 239 of HUD's 2009 Appropriations Act modified Section 904 of the Stewart B. McKinney Act of 1988, as amended, to include the Disaster Housing Assistance program (DHAP) as a covered HUD rental assistance program in HUD computer matching activities.

Specifically, the computer matching program will match HUD's tenant data to SSA's death data, Social Security (SS) and Supplemental Security Income (SSI) benefits data.

Participating Agencies: Department of Housing and Urban Development and the Social Security Administration.

Authority for Conducting the Matching Program: This matching program is being conducted pursuant to the Privacy Act of 1974 (5 U.S.C 552a); 542(b) of the 1998 Appropriations Act (Pub. L. 105-65); section 904 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 3544); section 165 of the Housing and Community Development Act of 1987 (42 U.S.C. 3543); the National Housing Act (12 U.S.C. 1701-1750g); the United States Housing Act of 1937 (42 U.S.C. 1437-1437z); section 101 of the Housing and Community Development Act of 1965 (12 U.S.C. 1701s); the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 *et seq.*); and the QHWRA Act of 1998 (42 U.S.C. 1437a(f)). The Housing and Community Development Act of 1987 authorizes HUD to require participants of HUD rental housing assistance programs to disclose their social security numbers (SSNs) to HUD as a condition of continuing (or initial) eligibility for participation in the programs. The QHWRA of 1998, section 508(d), 42 U.S.C. 1437a(f) authorizes the Secretary of HUD to require disclosure by the tenant to the PHA of income information received by the tenant from HUD as part of the income verification procedures of HUD. The QHWRA was amended by Public Law 106-74, which extended the disclosure requirements to participants in section 8, section 202, and section 811 assistance programs. The participants are required to disclose the HUD-provided income information to owners responsible for determining the participant's eligibility or level of benefits.

The Refinement of Income and Rent Determination Requirements in Public and Assisted Housing Programs: Implementation of the Enterprise Income Verification (EIV) System—Amendments; Final Rule published at 74 FR 68924 on December 29, 2009, requires program administrators to use HUD's EIV system to verify tenant income information during mandatory reexaminations or recertifications of family composition and income; and reduce administrative and subsidy payment errors in accordance with HUD administrative guidance (24 CFR 5.233).

This computer matching program also assists HUD in complying with the

following federal laws, requirements, and guidance related to identifying and reducing improper payments:

1. Improper Payments Elimination and Recovery Act of 2010 (IPERA) (Pub. L. 111-204);
2. Presidential Memorandum on Enhancing Payment Accuracy Through a "Do Not Pay List" (June 18, 2010);
3. Office of Management and Budget M-10-13, Issuance of Part III to OMB Circular A-123, Appendix C;
4. Presidential Memorandum on Finding and Recapturing Improper Payments (March 10, 2010);
5. Reducing Improper Payments and Eliminating Waste in Federal Programs (Executive Order 13520, November 2009);
6. Improper Payments Information Act of 2002 (Pub. L. 107-300); and
7. Office of Management and Budget M-03-13, Improper Payments Information Act of 2002 Implementation Guide.

Purpose(s): HUD's primary objective of the computer matching program is to verify the income of participants in certain rental assistance programs to determine the appropriate level of rental assistance, and to detect, deter and correct fraud, waste, and abuse in rental housing assistance programs. In meeting these objectives, HUD also is carrying out a responsibility under 42 U.S.C. 1437f(K) to ensure that income data provided to PHAs, and O/As, by household members is complete and accurate. HUD's various rental housing assistance programs require that participants meet certain income and other criteria to be eligible for rental assistance. In addition, tenants generally are required to report and recertify the amounts and sources of their income at least annually. However, under the Quality Housing and Work Responsibility Act (QHWRA) of 1998, PHAs operating Public Housing programs may offer tenants the option to pay a flat rent, or an income-based rent. Those tenants who select a flat rent will be required to recertify income at least every three years. In addition, the changes to the Admissions and Occupancy final rule (March 29, 2000 (65 FR 16692)) specified that household composition must be recertified annually for tenants who select a flat rent or income-based rent.

Other objectives of this computer matching program include: (1) Increasing the availability of rental assistance to individuals who meet the requirements of the rental assistance programs; (2) after removal of personal identifiers, conducting analyses of the Social Security death data and benefit information, and income reporting of

program participants; and (3) measure improper payments due to under-reporting of income and/or overpayment of subsidy on behalf of deceased program participants.
