SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. The groundfish tagging program provides scientists with information necessary for effective conservation, management, and scientific understanding of the groundfish fishery off Alaska and the Northwest Pacific. The program area includes the Pacific Ocean off Alaska (the Gulf of Alaska, the Bering Sea and Aleutian Islands Area, and the Alexander Archipelago of Southeast

Alaska), California, Oregon, and Washington. Fish movement information from recovered tags is used in population dynamics models for stock assessment. There are three general categories of tags. Simple plastic tags (spaghetti tags) are external tags approximately two inches long, printed with code numbers. When a tag is returned, the tag number is correlated with databases of released, tagged fish to determine the net movement and growth rate of the tagged fish. Archival tags are microchips with sensors encased in plastic cylinders that record the depth, temperature or other data, which can be downloaded electronically from the recovered tags. Pop-off satellite tags are programmed to release from the fish and upload archived data (depth, temperature, and approximate geolocation) to passing satellites, therefore data is received independent of the fishery. The groundfish tagging and tag recovery program is part of the fishery resource assessment and data collection that the National Marine Fisheries Service (NMFS) conducts under the Magnuson-Stevens Act authority as codified in 16 U.S.C. 1801(a)(8).

II. Method of Collection

This is a volunteer program requiring the actual tag from the fish to be returned, along with recovery information. Reporting forms with pre-addressed and postage-free envelopes are distributed to processors and catcher vessels.

III. Data

OMB Control Number: 0648-0276.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Not-for-profit institutions; State, local, or tribal government; business or other for-profit organizations.

Estimated Number of Respondents: 440.

Estimated Time per Response: 5 minutes for returning a regular tag, and 20 minutes for returning an internal archival tag.

Estimated Total Annual Burden Hours: 89.

Estimated Total Annual Cost to Public: \$30 in recordkeeping/reporting costs (if the fisherman chooses to return an electronic tag himself instead via a NMFS observer).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance

of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: Under the PRA,¹ Federal agencies must obtain approval from the Office of Management and Budget (“OMB”) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Title: Regulations Establishing and Governing the Duties of Swap Dealers and Major Swap Participants (OMB Control No. 3038–0084). This is a request for an extension of a currently approved information collection.

Abstract: On April 3, 2012 the Commission adopted Commission Regulations 23.600 (Risk Management Program), 23.601 (Monitoring of

Position Limits), 23.602 (Diligent Supervision), 23.603 (Business Continuity and Disaster Recovery) 23.606 (General Information: Availability for Disclosure and Inspection), and 23.607 (Antitrust Considerations)² pursuant to section 4s(j)³ of the Commodity Exchange Act (“CEA”). The above regulations adopted by the Commission would, among other things, require swap dealers (“SD”)⁴ and major swap participants (“MSP”)⁵ to develop a risk management program (including a plan for business continuity and disaster recovery and policies and procedures designed to ensure compliance with applicable position limits). The Commission believes that the information collection obligations imposed by the above regulations are essential to ensuring that swap dealers and major swap participants maintain adequate and effective risk management programs and policies and procedures to ensure compliance with position limits. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <http://www.cftc.gov>. You should submit only

² 17 CFR 23.600, 23.601, 23.602, 23.603, 23.606, 23.607.

³ 7 U.S.C. 6s(j).

⁴ For the definition of SD, see section 1a(49) of the CEA and Commission regulation 1.3.7 U.S.C. 1a(49) and 17 CFR 1.3.

information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission’s regulations.⁶

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <http://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the information collection request will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The Commission is revising its estimate of the burden for this collection to reflect the current number of respondents and estimated burden hours. The respondent burden for this collection is estimated to be as follows:

Number of Registrants: 103.

Estimated Average Burden Hours per Registrant: 1,148.5.

Estimated Aggregate Burden Hours: 118,295.5.
