II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Request for Exemption

The Ohio Department of Public Safety (DPS) requests an exemption from the requirement that an applicant in the skills test waiver certify that he/she (1) is regularly employed or was so employed within the last year in a military position requiring operation of a CMV, and (2) operated a vehicle representative of the CMV that operates or expects to operate for at least 2-years immediately preceding discharge from the military 49 CFR 383.77(b)(1) and (3). In lieu of 49 CFR 383.77(b)(1) and (3), DPS is proposing that the applicant be required to have held a military position that required operation of a CMV for at least 2 years during the applicant's military career. Eliminating the requirement of holding said position within a year from being discharged and the requirement of operating a vehicle representative of the CMV operating or expecting to operate at least the 2-years immediately preceding discharge from military.

The State of Ohio currently grants a CDL applicant a waiver of the skills test otherwise required by 49 CFR 383.113. The State of Ohio skills test waiver process consists of a qualifying applicant submitting the following documentation to the Bureau of Motor Vehicles: (1) A violation-free driving record for the last two years; (2) proof of military service within the last year in a position requiring CMV operation; and (3) proof of experience operating a representative vehicle which was exempt from the 49 CFR 383.3(c) requirements for at least two years immediately preceding the application date or at least two years preceding the discharge date if separated from the military within the last year. In addition to the above listed documentation, applicants must submit the applicable State waiver form. According to the Ohio DPS, the State's skills test waiver form is similar to FMCSA's Application for Military Skills Test Waiver form, currently found on FMCSA's website.

The Ohio DPS contends that the goal of its request is to promote the opportunities for experienced CMV operators who have served in the military by reducing the regulatory burden of obtaining a CDL. By doing so, it is the hope that an increase in the population of available CDL holders will benefit the Ohio transportation industry, and create better civilian employment opportunities for Ohio veterans and service members.

In addition, because the issue concerning the Ohio DPS request could be applicable in each of the States, FMCSA requests public comment on

whether the exemption should cover all SDLAs, if granted.

A copy of the Ohio DPS's application for exemption is available for review in the docket for this notice.
