

performance of the Cooperative Agreement pertaining to that property. Invoices will include thorough documentation of all calculations contributing to the calculation of the amount being invoiced (as provided in the work plan) as well as a written certification by the Independent Evaluator that the performance payment has been calculated according to the methodology contained in the Cooperative Agreement; no adverse changes to the qualifications of the Independent Evaluator have occurred since the last submission from the Independent Evaluator; and no conflict of interest or apparent conflict of interest exists with the Intermediary or with respect to any property or Owner which would preclude the Independent Evaluator from performing its obligations in a truly independent manner. In the event of a change in the physical structure of a property during the period of performance which materially impacts utility usage, the Owner and the Intermediary will mutually agree upon an equitable modification of the pre-retrofit baseline for Owner-paid utility and/or of the pre-retrofit baseline of tenant utility allowances to reflect the impact of the change on utility usage and notify HUD of the change. In the event that the Intermediary wishes to assign performance payments to a third party, the Intermediary must submit to HUD a written request for approval.

VI. Other program administration requirements. Beginning with the execution of their first cooperative agreement with HUD, Intermediaries will submit quarterly reports regarding the status of all properties for which work under the PFS Pilot is unfinished, including the work that has been completed, the work that remains the anticipated projected completion date. If at any point it becomes necessary to replace a partner entity performing one or more core functions program administration functions (project management, capital sources, oversight of SOW development and retrofit implementation, and/or invoicing HUD), the Intermediary must collect and submit evidence from the proposed replacement partner entity similar to the qualifications detailed for the original partner entity in the Intermediary's initial application. As this is pilot program and HUD is responsible for submitting annual program evaluation reports to Congress, Intermediaries may be required to work with a program evaluation team and provide relevant information, possibly including (but not limited to) information pertaining to

retrofit implementation, program administration, post-retrofit behavioral interventions, and certain fees. Intermediaries may be asked to clarify or provide additional context for previously submitted information, including additional details on their sources and uses of funds.

Respondents (i.e., affected public): Entities applying to be Intermediaries under this program, selected Intermediaries.

Estimated Number of Respondents: 15.

Estimated Number of Annual Responses: 1,000.

Frequency of Response: Varies.

Average Hours per Response: 10.8.

Total Estimated Annual Burden: 4,401.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews of Six Listed Animal and Plant Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act for two plant and four animal species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the last review for the species.

DATES: To ensure consideration, please send your written information by June 24, 2019. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how to submit information for each species, see the table in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: To request information, contact the appropriate person in the table in the **SUPPLEMENTARY INFORMATION** section. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), for the Missouri bladderpod (*Physaria filiformis*), decurrent false aster (*Boltonia decurrens*), gray bat (*Myotis grisescens*), grotto sculpin (*Cottus*

specus), Ozark hellbender (*Cryptobranchus alleganiensis bishop*), and purple cat's paw pearlymussel (*Epioblasma obliquata obliquata*).

Why do we conduct 5-year reviews?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, go to <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>, scroll down to "Learn More about 5-Year Reviews," and click on our factsheet.

What information do we consider in our review?

A 5-year review considers the best scientific and commercial data that have become available since the current listing determination or most recent status review of each species, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

New information will be considered in the 5-year review and ongoing recovery programs for the species.

What species are under review?

This notice announces our active 5-year status reviews of the species in the following table.
