

(4a) *Changes to Information Collection*: EIA will protect the information collected on Form EIA-877, *Winter Heating Fuels Telephone Survey* under the Confidential Information Protection and Statistical Efficiency Act of 2018 (CIPSEA). CIPSEA provides legal authority to protect the identifiability of information submitted under a pledge of confidentiality and restricts the use of the information only for statistical purposes. It provides strong protection that the reported information will be held in confidence and used only for statistical purposes. By limiting the use to statistical purposes, the Form EIA-877 survey data will not be used for any nonstatistical purpose such as administrative, regulatory, or law enforcement or for any other nonstatistical purpose. EIA will use the following confidentiality pledge to protect information reported on Form EIA-877:

“The information you provide on Form EIA-877 will be used for statistical purposes only and is confidential by law. Per the Federal Cybersecurity Enhancement Act of 2015, Federal information systems are protected from malicious activities through cybersecurity screening of transmitted data. Every EIA employee, as well as every agent, is subject to a jail term, a fine, or both if he or she makes public any identifiable information you reported.”

(5) *Annual Estimated Number of Respondents*: 22,822;

(6) *Annual Estimated Number of Total Responses*: 175,084;

(7) *Annual Estimated Number of Burden Hours*: 63,325;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$4,687,317. The cost of the burden hours is estimated to be \$4,687,317 (63,325 burden hours times \$74.02 per hour). EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours.

### Federal Energy Regulatory Commission

[Docket No. CP19-193-000]

#### Columbia Gulf Transmission, LLC; Notice of Application

Take notice that on April 18, 2019, Columbia Gulf Transmission, LLC (Columbia Gulf), 700 Louisiana Street, Suite 700, Houston, Texas 77002, filed in the above referenced docket an application pursuant to section 7(c) and section 7(b) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting abandoning authority, authorizing the replacement of: (i) Approximately 1,350 feet (ft.) of existing 30-inch-diameter pipeline of Mainline 100; (ii) approximately 1,300 ft. of existing 30-inch-diameter pipeline of Mainline 200, referred to as the Mainline 100 and Mainline 200 Replacement Project. All as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to Dave Hammel, U.S. Legal, Columbia Gulf Transmission, LLC, 700 Louisiana St, Houston, TX 77002-2700, by telephone at (832) 320-5861.

Columbia Gulf requests pre-determination of rolled-in treatment of rates and surcharges in accordance with the Commission's Policy Statement in Docket No. PL99-3-000. The estimated cost of the project will be \$18,919,720.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record

for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the

Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.
