Abstract: RadNet is a national network of stations collecting environmental media that include air, precipitation, and drinking water. Samples are sent to EPA's National Analytical Radiation Environmental Lab (NAREL) in Montgomery, Alabama, where they are analyzed for radioactivity. RadNet provides emergency response/homeland security and ambient monitoring information on levels of environmental radiation across the nation. All stations operators participate in RadNet voluntarily. Station operators complete information forms that accompany the samples. The forms request information pertaining to sample type, sample location, start and stop date and times for sampling, length of sampling period, and volume represented. Data from RadNet are made available regularly on the Agency websites—Envirofacts and the EPA website www.epa.gov/radnet.

Form Numbers: RadNet Air Particulate Sample (EPA Form 5900-24); RadNet Precipitation Report Form (EPA Form 5900-27); RadNet Drinking Water Report Form (EPA Form 5900-29); and RadNet Supply Request Form (EPA Form 5900-23).

Respondents/affected entities:

Primarily State and Local Officials.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 237.

Frequency of response: Varies depending upon sample media type. Responses vary from twice weekly to quarterly.

Total estimated burden: 3721 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,510,235 (per year), includes annualized capital costs, operational costs, and maintenance costs.

Changes in estimates: There is a decrease of five hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is minimal and

shows the program is in maturity and is expected to operate with minimal change.

Dated: April 30, 2019.

Director, Office of Radiation and Indoor Air.

SUPPLEMENTARY INFORMATION: In January 2018, the Office of Enforcement and Compliance Assurance issued an Interim Guidance document to help move the Agency toward a more collaborative partnership between EPA and states, with the expectation that the guidance would be later updated. The interim document may be viewed at <https://www.epa.gov/sites/production/files/2018-01/documents/guidance-enhancingregionalstatecommunicationoncompliance.pdf>.

The EPA is seeking comments on a policy that would replace that Interim Guidance and would set out expectations and procedures for enhancing planning and communication on civil enforcement work between the EPA and States that are implementing Federal environmental programs. While this policy is focused on the EPA's work with States that are approved to implement Federal programs, the EPA also is seeking comments on applying these planning and communication practices when working with federally-recognized Indian tribes, territories, and local governments that have received approval to implement Federal programs. This is an Agency planning document and would not impose any legally binding requirements on EPA or any outside parties.

Submit your comments, identified by Docket ID No. EPA-HQ-OECA-2019-0204; at <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from *Regulations.gov*. Product Cancellation Order for Certain Pesticide Registrations and Amendments To Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations and amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1, Table 1A and Table 2 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a March 5, 2019 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel and amend to terminate uses of these product registrations. In the March 5, 2019 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received two comments on the notice, to remove their registrations from the cancellation order notice. The registrants for 4959-16, 4959-36 and 33753-31, requested via letter to withdraw their registrations from this notice. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and amendments are effective May 13, 2019.
