

by the PCSRs. In addition, TSA follows up via email with owner/operators on specific recommendations made by TSA during the PCSR.

When combined with information from other companies across the sector, TSA can identify and develop recommended smart practices and security recommendations for the pipeline mode. This information allows TSA to adapt programs to the changing security threat, while incorporating an understanding of the improvements owners/operators make in their security measures. Without this information, the ability of TSA to perform its security mission would be severely hindered.

Portions of PCSR responses that are deemed Sensitive Security Information (SSI) are protected in accordance with procedures meeting the transmission, handling, and storage requirements of SSI set forth in 49 Code of Federal Regulations (CFR) parts 15 and 1520.

The annual hour burden for this information collection is estimated to be between 180 and 220 hours based upon 20 PCSR visits per year, each lasting a total of eight hours and the follow-up regarding security recommendations, lasting approximately one to three hours.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on April 19, 2019 at 84 FR 14128.

A. Overview of Information Collection

Title of Information Collection: FHA Insured Title I Property Improvement and Manufactured Home Loan Programs.

OMB Approval Number: 2502-0328.

Type of Request: Extension of currently approved collection.

Form Number: HUD-637, HUD 646, HUD 27030, HUD 55013 HUD 55014 HUD 56001, HUD 56001-MH, HUD 5002-MH and SF 3881.

Description of the need for the information and proposed use: Title I loans are made by private sector lenders and insured by HUD against loss from defaults. HUD uses this information to evaluate individual loans on their overall program performance. The information collected is used to determine insurance eligibility and claim eligibility.

Respondents: Lender approved to make insured Title I Loans; Dealer/Contractors; Manufacturers of manufactured homes; Applicants for property improvement loans; Applicants for Manufactured home loans.

Estimated Number of Respondents: 13,593.

Estimated Number of Responses: 73,440.

Frequency of Response: On occasion, periodic.

Average Hours per Response: 17.3.

Total Estimated Burdens: 46,099.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35.

Fish and Wildlife Service

[Docket No. FWS-R8-ES-2019-0043;
FXES11130800000 190]

Endangered and Threatened Species; Proposed Low-Effect Habitat Conservation Plan for the Desert Tortoise, Nye County, NV

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of application; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received an application from Canyon Mesa Solar, LLC for an incidental take permit under the Endangered Species Act. The requested permit would authorize take of the Mojave desert tortoise resulting from the construction, operation, and maintenance of a solar photovoltaic facility in Pahrump, Nevada. The permit application includes a proposed low-effect habitat conservation plan (HCP). In accordance with the requirements of the National Environmental Policy Act (NEPA), we have prepared a draft low-

effect screening form supporting our preliminary determination that the proposed action qualifies as a categorical exclusion under NEPA. We are accepting comments on the permit application, proposed low-effect HCP, and draft NEPA compliance documentation.

DATES: Please send your written comments by August 2, 2019.

ADDRESSES:

Obtaining Documents: The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection online in Docket No. FWS–R8–ES–2019–0043 at <http://www.regulations.gov>. Persons wishing to review documents may obtain copies by written or telephone request to Jennifer Wilkening, by phone at 702–515–5239, or by mail at U.S. Fish and Wildlife Service, Southern Nevada Fish and Wildlife Office, 4701 N Torrey Pines Dr., Las Vegas, NV 89130.

Submitting Comments: You may submit comments by one of the following methods:

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, have received an application from Canyon Mesa Solar, LLC for a 30-year incidental take permit (permit) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permit would authorize take of the threatened Mojave desert tortoise (*Gopherus agassizii*) resulting from the construction, operation, and maintenance of a solar photovoltaic facility in Pahrump, Nevada. The permit application includes a proposed low-effect habitat conservation plan (HCP) that incorporates measures the applicant would implement to minimize and mitigate effects of otherwise lawful project activities on the desert tortoise. We have prepared a draft low-effect screening form supporting our preliminary determination that the proposed action qualifies as a categorical exclusion under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). We are accepting comments on the permit application, proposed low-effect HCP, and draft NEPA compliance documentation.

Background

Section 9 of the ESA prohibits take of fish and wildlife species listed as endangered (16 U.S.C. 1538). Although not listed as endangered, the Mojave desert tortoise was listed as threatened on April 2, 1990 (55 FR 12178), with an accompanying ESA section 4(d) rule (16 U.S.C. 1533(d)), which applies the same take prohibitions for an endangered species to the threatened tortoise.

Under section 10(a)(1)(B) of the ESA (16 U.S.C. 1539(a)(1)(B)), we may issue permits to authorize take of listed fish and wildlife species that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing permits for

threatened species are set forth in title 50 of the Code of Federal Regulations (CFR) at part 17, section 17.32.

NEPA (42 U.S.C. 4321 *et seq.*) requires a detailed environmental impact statement (EIS) for major Federal actions that significantly affect the quality of the human environment. An agency may use an environmental assessment (EA) to inform a decision as to whether to complete an EIS, or it can establish categories of actions that individually or cumulatively generally do not have significant effects on the human environment and do not require either an EA or an EIS. For this permit application, the Service has preliminarily determined that the issuance of the ITP is not a major Federal action that will significantly affect the quality of the human environment, nor will it individually or cumulatively have more than a negligible effect on the species covered by the HCP, and should therefore be categorically excluded from further NEPA analysis as a low-effect HCP (see table below). The project occurs on land parcels zoned light industrial or mixed use, and the area has been impacted by prior disturbances such as a now-abandoned airfield, off-road use, trash dumping, and target shooting. Vegetation within the majority of the site (95 acres) will be mowed or trimmed, rather than bladed or graded, and site fencing will include openings to allow tortoises to enter and exit the facility after construction. Photovoltaic (PV) panels will be installed at a greater height than the industry standard, and panel spacing will be increased to facilitate optimum vegetative growth, which will help to maintain future habitat connectivity for wildlife following construction.

Applicant, city, state	HCP covered species	Location and Size	Activities	Type of take	Project's actions to minimize and mitigate for take
Canyon Mesa Solar, LLC, Las Vegas, Nevada.	Mojave desert tortoise (<i>Gopherus agassizii</i>).	Nye County, NV.. South of City of Pahrump.. 165.6 acres	Survey, capture, handle, re-store habitat, and translocate.	Harm, possible mortality or injury.	Translocation, habitat restoration, research and monitoring, testing and development of invasive weed management techniques, leaving native vegetation in place and allowing for wildlife use inside site after construction, maintaining habitat connectivity.

Public Availability of Comments

All comments and materials we receive in response to this request will be available for public review at <http://www.regulations.gov>.

Before including your address, phone number, email address, or other personal identifying information in your

comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Next Steps

If we decide to issue a permit to the applicant listed in this notice, we will publish a notice in the **Federal Register**.

Authority

We issue this notice pursuant to section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing

regulations (50 CFR 17.22 and 17.32) and consistent with the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.205).

Fish and Wildlife Service

[Docket No. FWS-HQ-ES-2019-0021; FF09E42000 178 FXES11130900000]

Endangered and Threatened Species; Issuance of Enhancement of Survival and Incidental Take Permits for Safe Harbor Agreements, Candidate Conservation Agreements, and Habitat Conservation Plans, 2018; Issuance of Recovery Permits, July 1, 2017, Through December 31, 2018

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; correction.

SUMMARY: We, the U.S. Fish and Wildlife Service, in accordance with the Endangered Species Act (ESA), provided a list to the public of certain

permits issued under the ESA. With some exceptions, the ESA prohibits take of listed species unless a Federal permit is issued that authorizes or exempts the taking under the ESA. In a recent **Federal Register** notice announcing these permit issuances, we inadvertently made some errors, which we correct via this notice. We regret any inconvenience to the public.

DATES: The notice that published on June 6, 2019, at 84 FR 26424 is now corrected.

ADDRESSES: The notice that published on June 6, 2019, at 84 FR 26424 and this correction notice may be found on www.regulations.gov in Docket No. FWS-HQ-ES-2019-0021.

FOR FURTHER INFORMATION CONTACT: For general information about the ESA permit process, contact Karen Anderson, via phone at 703-358-2301, via email at karen_anderson@fws.gov, or via the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, in accordance with section 10(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*), as amended, periodically provide lists to the public of the permits issued under sections 10(a)(1)(A) and 10(a)(1)(B) of the ESA. On June 6, 2019 (84 FR 26424), we published a **Federal Register** notice that

provided a summary of our permit issuances for Candidate Conservation Agreements with Assurances, Safe Harbor Agreements, and Habitat Conservation Plans for calendar year 2018, and for Recovery Permits issued between July 1, 2017, and December 31, 2018. Unfortunately, due to some technical errors, our list was incomplete, and some permit information appeared in the wrong lists. In this notice, we correct those errors. Please see the original notice for additional background information regarding our permit issuance process.

Corrections

In notice document 84 FR 26424 appearing on pages 26424–26436 of the **Federal Register** in the issue of Thursday, June 6, 2019, we make the following corrections:

On page 26424, the names of the following three permittees are corrected for Habitat Conservation Plan (HCP) and Safe Harbor Agreement (SHA) permits. All other permits issued under an HCP or SHA listed throughout the original notice remain the same.

Hawaii, Idaho, Oregon (except for the Klamath Basin), Washington, American Samoa, Commonwealth of the Northern Mariana Islands, Guam, and the Pacific Trust Territories
