SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled “Modifications to Compliance Policy for Certain Deemed Tobacco Products.”

The Family Smoking Prevention and Tobacco Control Act (Pub. L. 111-31) (Tobacco Control Act) granted FDA the authority to regulate the manufacture, marketing, and distribution of cigarettes, cigarette tobacco, roll-your-own (RYO) tobacco, and smokeless tobacco products to protect public health generally and to reduce tobacco use by minors. The Tobacco Control Act also gave FDA the authority to issue regulations deeming other products that meet the statutory definition of a tobacco product to be subject to chapter IX of the Federal Food, Drug, and Cosmetic Act (FD&C Act).

In accordance with that authority, on May 10, 2016, FDA issued a final rule entitled “Deeming Tobacco Products to be Subject to the Federal Food, Drug, and Cosmetic Act, as Amended by the Family Smoking Prevention and Tobacco Control Act; Restrictions on the Sale and Distribution of Tobacco Products and Required Warning Statements for Tobacco Products” (the final deeming rule) deeming all products that meet the statutory definition of a tobacco product, except accessories of deemed tobacco products, to be subject to FDA’s tobacco product authority. This included electronic nicotine delivery systems (ENDS), cigars, waterpipe (hookah) tobacco, pipe tobacco, nicotine gels, and dissolvables that were not already subject to the FD&C Act, and other tobacco products that may be developed in the future (81 FR 28974 at 28976, May 10, 2016).

Among other requirements, these statutory provisions and implementing regulations prohibit sales of tobacco products to minors and impose certain premarket-review requirements for new tobacco products—*i.e.*, those that were not commercially marketed in the

United States as of February 15, 2007. In addition, the preamble to the final deeming rule explained that, for deemed tobacco products on the market as of August 8, 2016, FDA did not intend to initiate enforcement for failure to have premarket authorization during two compliance periods: One for submission and FDA receipt of applications and one for obtaining premarket authorization (81 FR 28974 at 29011).

In May 2017, FDA published a guidance document entitled “Three-Month Extension of Certain Tobacco Product Compliance Deadlines Related to the Final Deeming Rule” under which the Agency, as a matter of enforcement discretion, stated its intention not to begin enforcement for an additional 3 months for all future compliance dates for requirements under the final deeming rule. In July 2017, FDA announced a new comprehensive plan for tobacco and nicotine regulation that would serve as a multiyear roadmap. In an effort to strike an appropriate balance between regulation and encouraging development of innovative tobacco products that may be less dangerous than cigarettes, the Agency announced that it would be providing targeted relief on some timelines described in the preamble to the final deeming rule. In accordance with this comprehensive plan announcement, in August 2017, FDA stated its intention to further extend the period during which it would not initiate enforcement action for requirements under the final deeming rule (“August 2017 Compliance Policy”).

Recent data has documented a significant increase in youth use of ENDS products. Data from the 2018 National Youth Tobacco Survey, as described in the guidance, reveals the magnitude in the increase of youth use of ENDS products. In addition, evidence from the 2016–2017 (Wave 4) Population Assessment of Tobacco and Health (PATH) Study and other studies, as described in the guidance, indicates that minors are attracted to flavored ENDS products. In light of this public health threat, FDA has reconsidered and, in its discretion, plans to modify the August 2017 Compliance Policy as to the premarket authorization requirements for certain flavored ENDS products that were on the market on August 8, 2016, and to replace it with a new policy as described in the draft guidance.

The draft guidance is intended to discuss how FDA plans to prioritize its enforcement resources with regard to certain deemed tobacco products in the

United States that do not have the required FDA premarket authorization for marketing. Goals of the guidance are to encourage more prompt filing of premarket submissions for certain ENDS products, to focus the Agency’s enforcement resources where there is a greater threat to public health, and to balance that public health threat against the potential benefit to providing adult smokers noncombustible options to allow them to completely switch from the use of combustible products.

II. Significance of Draft Guidance

FDA is issuing this draft guidance consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on the compliance policy for certain deemed tobacco products. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

III. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR 1107.1(b) and (c) have been approved under 0910–0684; the collections of information under section 910 of the FD&C Act (21 U.S.C. 387j) have been approved under OMB control number 0910–0768. The collections of information in section 905(j) of the FD&C Act (21 U.S.C. 387e(j)) have been approved under OMB control number 0910–0673.

IV. Electronic Access
